## **Some Things Are Priceless:**

**Beautiful Reward** Jeffrey Langer, 2008-03 Dear Reader For six months I've been lifting weights with the Muscle Mafia at Gold's Gym and hanging out with bar bands writing songs hoping one of my lyrics make it to the big time This book is about people's private side they seldom share their family and friends The songs were inspired by hundreds of wonderful people I interviewed in South Beach It's been said that a vacation in South Beach is like a trip to a movie set a fashion shoot and a tropical paradise all rolled into one That's a pretty good description of the way it feels in South Beach Fun in the sun excitement glamour everlasting pampering of the body soul and mind believe me folks South Beach has it all To all the fans of Along The Road To Heaven and A Sense of Wonder who sent me e-mails begging for a third poetry song book of Florida here it is Jeff Langer Beautiful Reward is Mr Langer's tenth book He's written songs for hundreds of bands in South Florida In 2006 Mr Langer won the prestigious America's Brightest Songwriter Award and has received lavish praise from the International Poets Society and Rolling Stone Magazine

**Cracks in the Ivory Tower** Jason Brennan, Phillip Magness, 2019-04-01 Academics extol high minded ideals such as serving the common good and promoting social justice Universities aim to be centers of learning that find the best and brightest students treat them fairly and equip them with the knowledge they need to lead better lives But as Jason Brennan and Phillip Magness show in Cracks in the Ivory Tower American universities fall far short of this ideal At almost every level they find that students professors and administrators are guided by self interest rather than ethical concerns College bureaucratic structures also often incentivize and reward bad behavior while disincentivizing and even punishing good behavior Most students faculty and administrators are out to serve themselves and pass their costs onto others The problems are deep and pervasive most academic marketing and advertising is semi fraudulent To justify their own pay raises and higher budgets administrators hire expensive and unnecessary staff Faculty exploit students for tuition dollars through gen ed requirements Students hardly learn anything and cheating is pervasive At every level academics disguise their pursuit of self interest with high faluting moral language Marshaling an array of data Brennan and Magness expose many of the ethical failings of academia and in turn reshape our understanding of how such high power institutions run their business Everyone knows academia is dysfunctional Brennan and Magness show the problems are worse than anyone realized Academics have only themselves to blame

**Copyfraud and Other Abuses of Intellectual Property Law** Jason Mazzone, 2011-10-05 Intellectual property law in the United States does not work well and it needs to be reformed but not for the reasons given by most critics The issue is not that intellectual property rights are too easily obtained too broad in scope and too long in duration Rather the primary problem is overreaching by publishers producers artists and others who abuse intellectual property law by claiming stronger rights than the law actually gives them From copyfraud like phony copyright notices attached to the U S Constitution to lawsuits designed to prevent people from poking fun at Barbie from controversies over digital sampling in hip hop to Major League Baseball's ubiquitous restriction on

sharing any accounts and descriptions of this game overreaching claims of intellectual property rights are everywhere Overreaching interferes with legitimate uses and reproduction of a wide variety of works imposes enormous social and economic costs and ultimately undermines creative endeavors As this book reveals the solution is not to change the scope or content of intellectual property rights but to create mechanisms to prevent people asserting rights beyond those they legitimately possess While there are many other books on intellectual property this is the first to examine overreaching as a distinct problem and to show how to solve it Jason Mazzone makes a series of timely proposals by which government organizations and ordinary people can stand up to creators and content providers when they seek to grab more than the law gives them

**Pulp Politics** Glenn W. Richardson Jr., 2008-07-17 Pulp Politics argues that the stories of American politics have found their most vivid expression in campaign advertising It is the central argument of this book that adopting the readily identifiable audiovisual conventions of popular culture is particularly attractive to candidates and communicators and that analysts can benefit from a closer study of the audiovisual narratives of campaign advertising than scholars have engaged in From the audiovisual evocation of horror in 1988 ads that read as 30 second trailers for the nightmare on Elm Street that would be the Dukakis presidency to the Bush Cheney spots in 2004 that drew upon the look and feel of the popular anti terrorism thriller O24 O evocation of popular culture has proven an extremely effective tool of mass communication in a televisual age
