**Alain Herscovici**

## **Some Cambridge Controversies In The Theory Of Capital:**

*Some Cambridge Controversies in the Theory of Capital* G. C. Harcourt, 1972-05-25 Capital theory traditionally spans two major compartments of economic theory the theory of production of both individual products and the total product and the theory of the distribution of the aggregate product between the different classes of capitalist society It has always been controversial partly because the subject matter is difficult and partly because rival ideologies and value systems impinge directly on the subject matter In the present book the various topics associated with the exchanges between the neo Keynesians and the neo neoclassicals are discussed and evaluated The topics include the measurement of capital the revival of interest in Irving Fisher s rate of return on investment the double switching debate Sraffa s prelude to a critique of neoclassical theory and the new theories of the rate of profits in capitalist society [Some Cambridge Controversies in the Theory of Capital](#) G. C. Harcourt, 2022-06-02 The Cambridge Capital Controversy was one of the most significant debates in Twentieth Century economics First published in 1972 this book provides an accessible reconstruction of the controversy with detailed discussion of the major points raised by its primary protagonists Piero Sraffa and Joan Robinson on the post Keynesian side Cambridge UK and Robert Solow and Paul Samuelson on the neo classical side Cambridge MA The book is now considered to be a classic This fiftieth anniversary edition comes with a new preface by the author and two new afterwords that reflect on the author s contribution to the field and the significance of the book in the history of economics Topics covered include the measurement of capital the revival of interest in Irving Fisher s rate of return on investment the double switching debate Sraffa s prelude to a critique of neoclassical theory and the new theories of the rate of profits in capitalist society **Some Cambridge Controversies in the Theory of Capital** Geoffrey Colin Harcourt, 1992 *Global Political Economy* Ronen Palan, 2005-08-12 What are the cutting edge debates in global political economy This book presents an invaluable overview of all the major contemporary debates and approaches at the forefront of European and North American global political economy The book covers the following topics the six central concepts of global political economy state firm capital power labour and globalisation theories at the forefront of GPE rational choice neo institutionalism neo Marxism constructivism and postmodernity recent developments in theoretical approaches such as game theory modern rational and public choice theory development theory historical sociology how global political economy is best understood in terms of three traditions of political economy Marxism rationalism and hermeneutics institutionalism No other book provides such succinct summaries by international experts in the field of such topical and wide ranging issues This book represents an essential textbook ideal for students and lecturers in International Political Economy and International Relations **Capital Controversy, Post Keynesian Economics and the History of Economic Thought** Philip Arestis, Gabriel Palma, Malcolm Sawyer, 2005-08-17 In this volume more than forty leading economists including Nobel Laureate Paul Samuelson and Robert Solow critically evaluate the work of Geoff Harcourt **Economics, Policy and Law. Proceedings of the Research Days**

**Department of Economics** Pasquale De Muro, Saverio M. Fratini, Alessia Naccarato, 2020-10-06 Il volume raccoglie alcuni contributi presentati durante le Giornate della Ricerca tenute presso il Dipartimento di Economia dell'Università Roma Tre il 16 e 17 maggio 2019 Oltre a due sessioni plenarie di apertura e di chiusura si sono svolte otto sessioni parallele durante le quali sono stati presentati ben 30 contributi I temi trattati hanno rispecchiato i principali interessi di ricerca del Dipartimento la teoria economica micro e macro le politiche di bilancio ambientali e di integrazione la distribuzione personale e funzionale del reddito il commercio internazionale la finanza e il sistema bancario i metodi quantitativi DOI 10.13134/979.12.80060.53.2

**Classics and Moderns in Economics Volume I** Peter Groenewegen, 2002-11-14 Peter Groenewegen's reputation as a chronicler of the history of economics is unparalleled Building on his respected collection on eighteenth century economics this new book focuses on the nineteenth and early twentieth centuries reprinting essays on classical and modern economics Several of the included essays have never been published before Sraffa and Modern Economics, Volume I Roberto Ciccone, Christian Gehrke, Gary Mongiovi, 2013-06-17 Analyzing Sraffa one of the key figures in the history of economics this book explores his legacy and the relevance of his thought for modern economics Written by an array of internationally respected contributors including Schefold Aspromourgos Nell and Kurz it is an invaluable tool for all those studying the history of economic thought **Biographies of Scientific Objects** Lorraine Daston, 2000-06-15 Looks at how whole domains of phenomena come into being and sometimes pass away as objects of scientific study With examples from the natural and social sciences ranging from the 16th to the 20th centuries this book explores the ways in which scientific objects are both real and historical Handbook on the History of Economic Analysis Volume I Gilbert Faccarello, Heinz D. Kurz, 2016-07-27 Volume I contains original biographical profiles of many of the most important and influential economists from the seventeenth century to the present day These inform the reader about their lives works and impact on the further development of the discipline The emphasis is on their lasting contributions to our understanding of the complex system known as the economy The entries also shed light on the means and ways in which the functioning of this system can be improved and its dysfunction reduced David Ricardo John Cunningham Wood, 1991 *Money, Distribution Conflict and Capital Accumulation* E. Hein, 2007-12-19 This book demonstrates that monetary analysis as contained in Post Keynesian monetary theories but also in the Neo Ricardian monetary theory of distribution and in Marx's monetary analysis can be integrated into Post Keynesian models of distribution of growth in a convincing way *Routledge Dictionary of Economics* Donald Rutherford, 2003-09-02 Compiled to meet the needs of students and professionals in economics finance accountancy and business this wide ranging international Dictionary is for everyone who wants an up to date resource to the world of economics Key Features over 4200 comprehensive A to Z entries from after hours to z score provide clear definitive explanations of the key terms issues theories and concepts in economics today as well as describing the contributions of key figures in the field each entry is headed by a short definition for quick reference and where relevant followed by an

annotated bibliography to lead the reader to further sources cross referenced for ease of access the full range of subjects is covered from classical economics and the study of value and growth to contemporary concerns such as European Union and Green conditionality detailed coverage of vital econometric terms and statistics including entries such as eigenprices and M0 includes specialised commercial and financial jargon illustrated with 94 line diagrams unique subject index for ease of access

*General Equilibrium* Frank Hahn, Fabio Petri, 2003-09-02 In recent years certain leading figures in the world of economics have called the usefulness of general equilibrium theory into question This superb new book brings together leading economic theorists with important contributions to the ongoing debate General equilibrium theorists including Michio Morishima Michael Magill and Martine Quinzii debate strengths weaknesses and possible futures with leading thinkers such as Herb Gintis Pierangelo Garegnani and Duncan Foley who seek to explain the rejection of general equilibrium Uniquely none of the contributors portray general equilibrium theory as the perfect guide to market economies actual behaviour but rather illustrate that there is insufficient acquaintance with existing alternatives and that general equilibrium theory is often used as an ideal benchmark

Encyclopedia of Political Economy: A-K Phillip Anthony O'Hara, 1999 Based on developments in political economy since the 1960s this text is a compendium of the main principles concepts problems institutions schools and policies associated with political economy It is a comprehensive introduction to the field

**Production, Distribution and Trade** Adriano Biringo, Duncan Foley, Heinz D. Kurz, Bertram Schefold, Ian Steedman, 2010-06-30 This collection brings together significant new contributions to the Sraffa based theories of production and distribution from post Keynesian arguments concerning monetary and macro economics to the history of thought and methodology All of the authors are well established authorities in their field and in this book they add stimulating and original pieces of analysis to the contemporary literature Production Distribution and Trade is divided into three parts The first explores analytical issues in production and exchange theory the second examines Postkeynesian Macroeconomics and the final part includes essays on the history of economic thought and methodology This collection has been written in honour of Sergio Parrinello and is a fitting tribute to his untiring efforts to stimulate discussion among Classicists Marxists Postkeynesians and Evolutionists The book is a clear and convincing attempt to prove that an alternative paradigm to mainstream economics is alive and thriving and to argue that these perspectives shed better light on current economic problems both as diagnosis and in terms of policy conclusions The book will be of interest to Economics postgraduate students and researchers working in the Classical and Postkeynesian tradition

*On Political Economists and Political Economy* Professor Geoffrey Harcourt, 2013-10-08 Included in this volume are papers which are recognized as some of the foundations of post Keynesian Economics analysing problems set in historical time and starting from real world observations The book reflects Geoff Harcourt's contribution to economic debate over more than three decades It also includes intellectual biographies of some of the most prominent and leading unorthodox economists such as Kenneth Boulding Eric Russell and Lorie Tarshis

**Essays on the Historicity of Capital** Alain

Herscovici,2019-04-15 The methodological and epistemological problem this book studies is related to the heterogeneity of capital. Capitals are heterogeneous through time and space; at the same time, various heterogeneous capitals must be aggregated as shown by Ricardo and Keynes. On the other hand, the value of some quantity of aggregate capital changes over time as demonstrated by Ricardo, Keynes, and Stiglitz. For this purpose, this book considers Ricardo, Keynes, and Stiglitz. For each author, capital is heterogeneous: Ricardo from his labor theory, Keynes from the change in expectations in regard to the return of such capital, and Stiglitz from the divergences between the different groups' expectations. Ricardo was the first author who explained why the value of capital cannot be determined independently from distribution variables and consequently why such value changes when distribution variables change; this mechanism was deepened by Sraffa and the neo-Ricardian school. Keynes, with the concept of supply price of capital, explains why such value moves in regard to long-term expectations. Finally, Stiglitz's analysis is a complementary approach in regard to Keynes's insofar as he details the mechanism of speculation observed by Keynes from asymmetries of information. Keynes and Stiglitz's approaches allow complementing Ricardo's analysis insofar as expectations are absent from Ricardo's framework. This book argues that epistemological choices allow going beyond the traditional opposition between neo-Ricardian and post-Keynesian approaches, introducing path dependence mechanisms and an expectational dimension. From the moment that capital is not a constant value over time and space, it is not possible anymore to consider a well-behaved production function, which this book argues implies refuting all the neoclassical framework from the stability of the macroeconomic equilibrium and the Marshallian market equilibrium to the convergence towards the steady state. *The Economics of Joan Robinson* Maria Cristina Marcuzzo, Luigi Pasinetti, Alessandro Roncaglia, 2005-08-12 Joan Robinson is widely regarded as the greatest female economist. Her published work spanned six decades and is analysed here by a distinguished international team of scholars. *Joan Robinson* Prue Kerr, Geoffrey Colin Harcourt, 2002

## Unveiling the Power of Verbal Beauty: An Emotional Sojourn through **Some Cambridge Controversies In The Theory Of Capital**

In a world inundated with displays and the cacophony of instant transmission, the profound power and emotional resonance of verbal art often fade into obscurity, eclipsed by the constant onslaught of noise and distractions.
