*Some Forgotten, Some Remembered* Rachel Biven, 1976      **South Australian Women Artists** Jane Hylton, 1994

*Dictionary of Women Artists: Introductory surveys ; Artists, A-I* Delia Gaze, 1997 First Published in 1997 Routledge is an imprint of Taylor Francis an informa company      *Jacqueline Hick* Gloria Strzelecki, 2013 Jackie was born wise and born unperturbed said Jeffrey Smart of his friend Jacqueline Hick Jacqueline Hick 1919 2004 was one of Australia's most successful figurative painters In a long and fruitful career she also explored print making and enamelling Her subjects included the Australian landscape musical and theatrical performances and city life Above all Hick was drawn to the human figure Whether observing the foibles of modern living or the displacement of Aboriginal people's traditional lifestyles her figurative works sought to expose human insensitivity Jacqueline Hick Born wise showcases many of Hick's finest works and traces a life that like her art was imbued with wit wisdom and empathy      **Nora Heysen** Lou Klepac, Nora Heysen, 2000 Nora Heysen's 1911 2003 life has been driven by an unwavering passion for art This publication brings together Heysen's work from her early years as a young 16 year old art student in the 1920s to the rare masterly confidence of her later years As Lou Klepac writes what may appear as a simple still life is in fact a miraculous moment      *Nora Heysen* Jane Hylton, 2009 Nora Heysen grew up at The Cedars near the Adelaide Hills town of Hahndorf and was deeply influenced by her father Hans Heysen Nora Heysen Light and life explores a notable career spanning seven decades during which the artist painted some of Australia's most outstanding self portraits became the country's first female war artist and was the first woman to win the prestigious Archibald Prize Curator and author Jane Hylton has written extensively on Australian art and has curated numerous exhibitions In 2000 she left the position of Curator of Australian Art at the Art Gallery of South Australia to become a freelance consultant      *A Century of Australian Women Artists* Victoria Hammond, 1993 Colonial times Late Victorians rise of the professional women artist Expatriate era Sydney The dynamics of modernism Adelaide The Meanings in modernism Melbourne The pursuit of modernism      **The Man in the Monkeynut Coat** Kersten T. Hall, 2014-06-12 Sir Isaac Newton once declared that his momentous discoveries were only made thanks to having stood on the shoulders of giants The same might also be said of the scientists James Watson and Francis Crick Their discovery of the structure of DNA was without doubt one of the biggest scientific landmarks in history and thanks largely to the success of Watson's best selling memoir *The Double Helix* there might seem to be little new to say about this story But much remains to be said about the particular giants on whose shoulders Watson and Crick stood Of these the crystallographer Rosalind Franklin whose famous X ray diffraction photograph known as Photo 51 provided Watson and Crick with a vital clue is now well recognised Far less well known is the physicist William T Astbury who working at Leeds in the 1930s on the structure of wool for the local textile industry pioneered the use of X ray crystallography to study biological fibres In so doing he not only made the very first studies of the structure of DNA culminating in a photo almost identical to Franklin's Photo 51 but also founded the new

science of molecular biology Yet whilst Watson and Crick won the Nobel Prize Astbury has largely been forgotten The Man in the Monkeynut Coat tells the story of this neglected pioneer showing not only how it was thanks to him that Watson and Crick were not left empty handed but also how his ideas transformed biology leaving a legacy which is still felt today
