Livingstone Tim Jeal, 2020-08-11 A superb biography not to be missed either by armchair explorers or students of human nature reveals the famed missionary and explorer as he really was Cleveland Plain Dealer David Livingstone is revered as one of history's greatest explorers and missionaries the first European to cross Africa and the first to find Victoria Falls and the source of the Congo River In this exciting new edition of his biography Tim Jeal author of the National Book Critics Circle Award winning *Stanley* draws on fresh sources and archival discoveries to provide the most fully rounded portrait of this complicated man dogged by failure throughout his life despite his full share of success Using Livingstone's original field notebooks Jeal finds that the explorer's problems with his African followers were far graver than previously understood From recently discovered letters he elaborates on the explorer's decision to send his wife Mary back home to England He also uncovers fascinating information about Livingstone's importance to the British Empire and about his relationship with the journalist adventurer Henry Morton Stanley In addition Jeal here evokes the full pathos of the explorer's final journey This masterful updated biography also features an excellent selection of new maps and illustrations Fascinating Los Angeles Times A thrilling and in the end moving work The Livingstone who emerges is a man of terrifying dimensions Irish Press

David Livingstone and the Myth of African Poverty and Disease Sjoerd Rijpma, 2015-06-24 This study about David Livingstone is different from all other publications about him Here Livingstone is not the main topic of interest the focus of the author is on nutrition and health in pre colonial Africa and Livingstone is his key informant David Livingstone and the Myth of African Poverty and Disease is an unusual book After a close examination of Livingstone's writings and comparative reading of contemporary authors Sjoerd Rijpma has been able to draw cautious conclusions about the relatively favourable conditions of health and nutrition in southern and central Africa during the pre colonial period His findings shed new light on the medical history of Sub Saharan Africa The surprise awaiting travellers in and also before 19th century Africa was that the inhabitants of the interior even the slaves were healthier and better fed than many of their contemporaries in Europe's Industrial Revolution An impressive piece of scholarship truly forensic in its close reading and re reading of Livingstone's published works and those of other travellers during the same era clearly a labour of love which has taken years to complete Joanna Lewis
