Some Modern French Writers Gladys Rosaleen Turquet-Milnes, 1921 **Some Modern French Writers** Gladys Rosaleen Turquet-Milnes, 2023-07-18 This study explores the philosophical movement of Bergsonism and how it has influenced French literature in the early 20th century It examines the works of prominent authors such as Proust Gide and Valery and their relationship with Bergson s ideas This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant Some Modern French Writers a Study in Bergsonism (Classic Reprint) G Turquet-Milnes, 2017-10-11 Excerpt from *Some Modern French Writers a Study in Bergsonism* What fate does the future hold in store for him Only our grandchildren can answer that question Still it is permissible to foretell the future or even in the pragmatist s way to make it If we questioned Bergson himself on this point he would tell us that his doctrine like every product of the human brain is a progressive thing by no means perfect nor complete nor absolute I am only a man therefore you must not ask me for more than I can give I have merely tried to get into close touch with that nature which always eludes us For the riches of nature are inexhaustible things do not begin nor do they end nor are they as we see them nor as we should wish them to be About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *Some Modern French Writers* Gladys Turquet-Milnes, 1921 Some Modern French Writers G Turquet-Milnes, 2016-10-14 From the PREFACE THOSE critics who study the destiny of philosophical ideas for the ironical pleasure of seeing them work in exactly the opposite direction from that which their founders intended have not failed to remark that the two great movements of French thought since the 16th century Calvinism and Cartesianism developed states of mind utterly different from those Calvin and Descartes wished to create Descartes would have been horrified to hear himself called the father of the French Revolution and Calvin equally so at being called one of the founders of free thought It would seem then that in addition to the impetus given by a powerful writer there is another and more powerful movement to which the first must conform if it is to succeed The fact is that when we cut up society into slices two important groups are soon discovered the political and the literary and

the former always ends by absorbing the latter except in the very rare case of a genius who is both legislative and poetical Mahomet for example The Social aspirations of a people always manage to get themselves adopted in the end and that for obvious reasons Vox populi Vox Dei The only doctrines which have a chance of surviving are those which in the course of time blend not only with the tendencies of the moment but with the general spirit of a nation nay of mankind A study of history shows us humanity's progress as one long long journey towards an increasingly complete ever higher freedom In truth no spectacle is better calculated to rejoice the heart of the idealist since humanity in spite of stumbles and backslidings succeeds little by little in freeing itself from its material and materialistic fetters and in ushering in a reign of more justice more happiness more liberty In France just before the outbreak of the war we were looking on at a philosophic and literary movement which in the width of responsive undulations it has produced in the world at large may well be compared with the movement determined by Descartes Greatly as we may esteem certain modern philosophers it is no insult to them to say that it is M Bergson who has the widest world reputation Japan studies him with the same ardor as Sweden or America Every year sees the roll of his disciples swelling in England Attention to him and to his famous doctrine of la realite qui se fait becomes more and more pronounced all over the world What fate does the future hold in store for him Only our grandchildren can answer that question Still it is permissible to foretell the future or even in the pragmatist's way to make it If we questioned Bergson himself on this point he would tell us that his doctrine like every product of the human brain is a progressive thing by no means perfect nor complete nor absolute I am only a man therefore you must not ask me for more than I can give I have merely tried to get into close touch with that nature which always eludes us For the riches of nature are inexhaustible things do not begin nor do they end nor are they as we see them nor as we should wish them to be We are placed in front of an admirable and beneficent fluid in which anything may happen especially the unexpected and philosophical systems can never be more than the mind's points of view more or less correct but really incomplete in comparison with Reality the Reality which we shall know some day So that it would be a great mistake to ask of science the divine light to guide us through the reefs and shoals of existence for the very good reason that life is not made for our intellect but our intellect for life

innovative techniques that define her writing By situating Woolf within her historical and intellectual context the book argues for an organic progression in her thought and form tracing her development across her nine novels Rejecting the simplistic view of Woolf as merely an impressionist or stylist it asserts her standing as a serious artist committed to conveying a unified vision of life and experience Her repudiation of the positivistic realism of earlier English novelists alongside contemporaries like D H Lawrence and James Joyce exemplifies a quest for new philosophical and formal perspectives While Woolf s artistic success has often been overshadowed by an overemphasis on her prose style this study underscores the symbiotic relationship between her content and form urging a deeper understanding of her work s profound intellectual underpinnings The book also explores Woolf s life and the Bloomsbury Group a significant yet often misunderstood influence on her work Despite being socially central to Bloomsbury Woolf s intellectual pursuits and artistic vision were distinct from the group s collective ethos Her novels shaped by her philosophical perspectives rather than group conformity reveal an individual grappling with the complexities of human character art and existence Woolf s tragic suicide in 1941 marked the culmination of lifelong struggles with mental illness compounded by the stresses of war and her exacting creative standards Yet her legacy endures through her groundbreaking contributions to literature and her exploration of the human condition *The Glass Roof* provides a critical framework to understand Woolf not just as a stylist but as a profound thinker and innovator who redefined the possibilities of the novel This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1954 *The Dial* Francis Fisher Browne,Waldo Ralph Browne,Scofield Thayer,Marianne Moore,1911 *The Sewanee Review* ,1925 **A.L.A.
