*To Save the Children of Korea* Arissa H Oh,2015-06-17 The important largely unknown story of American adoption of Korean children since the Korean War with remarkably extensive research and great verve Charles K Armstrong Columbia University Arissa Oh argues that international adoption began in the aftermath of the Korean War First established as an emergency measure through which to evacuate mixed race GI babies it became a mechanism through which the Korean government exported its unwanted children the poor the disabled or those lacking Korean fathers Focusing on the legal social and political systems at work To Save the Children of Korea shows how the growth of Korean adoption from the 1950s to the 1980s occurred within the context of the neocolonial US Korea relationship and was facilitated by crucial congruencies in American and Korean racial thought government policies and nationalisms Korean adoption served as a kind of template as international adoption began in the late 1960s to expand to new sending and receiving countries Ultimately Oh demonstrates that although Korea was not the first place that Americans adopted from internationally it was the place where organized systematic international adoption was born Absolutely fascinating Giulia Miller Times Higher Education Gracefully written Oh shows us how domestic politics and desires are intertwined with geopolitical relationships and aims Naoko Shibusawa Brown University Poignant wide ranging analysis and research Kevin Y Kim Canadian Journal of History Illuminates how the spheres of public and private domestic and political are deeply imbricated and complicate American ideologies about family nation and race Kira A Donnell Adoption Culture      **Baby, It's You** Celeste Hamilton,1991 Meg Hathaway had taken the rabbit test and flunked Even though her marriage and the rabbit had died the sparks between her and her impossible gorgeous ex husband were very much alive      **The New York Times Guide to Essential Knowledge** The New York Times,2011-10-25 Presents information on nearly fifty major categories such as architecture biology business history medicine sports and film a biographical dictionary a list of the wonders of the world and a writer s guide to grammar
