Our moon is an enigma The ancients viewed it as a light to guide them in the darkness and a god to be worshipped In modern times it has been taught that the Moon is simply a dead rock that is caught in Earth's gravity with no activity As a researcher of metaphysical paranormal and cosmic subjects I have come across stories and information about the Moon that tell us that indeed there is activity there and there has been for generations Just who or what is causing the commotion is a mystery There are stories that suggest that the Moon is home to extraterrestrials theories that it is not a natural satellite tales of anomalous lights and tales that NASA astronauts saw extraterrestrial ships and ruins of an ancient civilization there There is a rumor that Apollo 13 was saved by extraterrestrials Another story states that there are extraterrestrial bases on the Moon There is even a tale that states that a part of the kingdom of Atlantis was once located there Some even believe that there are cities beneath the surface of the Moon There is an interesting account of a government employee using remote viewing as a means of seeing what is on the Moon His experience is eye opening This is just a sample of the information that will be in *The Encyclopedia of Moon Mysteries* Secrets Conspiracy Theories Anomalies Extraterrestrials and More For example did you know that Aristotle and Plato wrote about a time when there was no Moon They even gave a name of an ancient tribe of people that lived during that moonless period several of the NASA astronauts reported seeing UFOs while traveling to the Moon the Moon might be hollow Apollo 10 astronauts heard strange space music when traveling on the far side of the Moon strange and unexplained lights have been seen on the Moon for centuries there are said to be ruins of structures on the Moon

Christ and the Spiritual World Rudolf Steiner, 2022-11-18
 Reassessing human history in relation to the cosmic, earthly events of Christ's incarnation. Rudolf Steiner stresses the significance of both Gnostic spirituality and the legends of the Holy Grail. The Christ Impulse, he tells us, is not a one-time event but a continuous process beginning well before Jesus of Nazareth walked the earth. This mighty impulse is a force that gives impetus to human development, such as with the extraordinary blossoming of free thinking of the last two millennia. Surveying this pattern of evolving human thought, Steiner explains the roles of contrasting historical figures, for example, the great teacher Zarathustra, Joan of Arc, and Johannes Kepler. We are shown the widespread influence of the clairvoyant prophetesses, the sibyls, who formed a backdrop to the Greco-Roman world. Steiner contrasts their revelations to those of the Hebrew prophets. The lectures culminate in the secret background to the Parzival narrative. Steiner illustrates how it is possible to experience the Holy Grail by reading the stellar script in the sky at Easter. Here, he provides a rare personal account of the processes he utilized to conduct esoteric research. The new edition of these much-loved lectures features a revised translation and an introduction, appendices, and notes by Frederick Amrine.
