by Anne are shared to a varying degree by all parents of a child with LD As Anne writes When Allegra was diagnosed I needed information to explain her condition and what I could do to help her but I also needed a guide to the heart I needed to connect with someone who had been through it already and could offer words of comfort and the most simple reassuring statement a parent can hear Your child will be fine I didn t have that and that is my reason for writing this book to enlighten parents and give them hope and help guide them on the oftentimes treacherous journey In addition to her personal story Anne includes three invaluable special sections Answers to the most commonly asked questions about LD A resource guide on where to find help A discussion from a mother's perspective on the challenges concerning homework money relationships the workplace getting around and planning as the child with LD and the parents age As for Allegra s thoughts about her mom writing this book the introduction conveys her message I think mom has done well telling people out there that you CAN get help I didn t want my life in a book at first and we talked it over and thought about it If it helps other kids then we should do it and so I told my mom OK Plain Talk about Children with Learning Disabilities Hilda Fried, 1979 Struggling Child Robert F. Peter Lawrence, 1988 troubled child From Exclusivity to Exclusion: The LD Experience of Privileged Parents Chris Hale, 2011-11-12 What is lived experience at the intersection of privilege and disability More specifically what are the experiences of privileged parents of a child with disability How does their child s disability impact their efforts to reproduce their advantage These and other questions inspired the research on which this book is based The plight of poor and marginalized parents of children with disabilities has received considerable scholarly attention yet the experiences of their counterparts at the opposite end of the socioeconomic spectrum have garnered scant notice For parents at the bottom rung of society their child's disability becomes yet another compounding marker of oppression For parents of means and influence disability represents an ontological contradiction While they are oppressors in that they reap the

benefits of inequitable and oppressive social structures they are also oppressed by ableism and other systems of societal bias The product of an ethnographic case study this book trains a phenomenological lens on the lived experience of this contradiction The participants in this research are privileged urban parents of a 14 year old boy with dyslexia Their account of the struggles they faced over the three years their son spent in a mainstream private school is the focus of analysis and discussion Despite their efforts including lavish expenditures of economic and cultural capital the school community s responses to the child's disability and subsequent academic failure resulted in iterated enactments of symbolic and physical segregation and eventual banishment Their son's dyslexia threatened the collective investment in normality his academic failure threatened the underlying assumptions of schooling and his parents advocacy challenged the symbolic authority of school professionals Learning Disabilities Betty B. Osman, 1979 The Stigmatized Child Anne Ford, John-Richard Thompson, 2017-10-27 Stigma is one of the meanest and most difficult aspects of having a child with learning disabilities and related disorders. We may not be able to change the way society feels overnight but we can help lessen the pain caused by stigma The answer is Acceptance and Resilience In their new book The Stigmatized Child Mommy am I stupid Helping Parents Overcome the Stigma Attached to Learning Disabilities ADHD and Lack of Social Skills Anne Ford and John Richard Thompson explore the different forms of stigma such as the stigma faced by children from classmates and friends and from society Parents too can suffer the effects of stigma and often react by denying or trying to hide their child's disabilities In The Stigmatized Child they share stories from other parents and their children and offer advice from professionals on how to deal with the often painful and long lasting effects of stigma Parenting Children with Learning Disabilities Jane Utley Adelizzi, Diane B. Goss, 2001-04-30 In a straightforward and empathetic tone Adelizzi and Goss sensitively offer support to parents of children with learning disabilities who wish to see their children grow to their full potential While juggling the complex expectations imposed upon them parents often combat confusion anger fear sadness and frustration This book will help diffuse these overwhelming feelings empowering parents with the ability to provide the academic and personal support their children need to thrive Adelizzi and Goss who contribute to a unique and highly successful collegiate program for adults with LD ADD demystify the very fuzzy world of LD terminology and theory and clarify the complicated process of diagnosis and treatment They shed light on the way children and adolescents with learning disabilities function in the home environment in social relationships and at school Parents will find new understanding and hope as the authors with the collective voice of parents and children who deal with LD every day lead them through the maze of issues they must confront
