Hogan,2003-09-29 There are profound extensive and surprising universals in literature which are bound up with universals in emotion Hogan maintains that debates over the cultural specificity of emotion are misdirected because they have ignored a vast body of data that bear directly on the way different cultures imagine and experience emotion literature This is the first empirically and cognitively based discussion of narrative universals Professor Hogan argues that to a remarkable degree the stories people admire in different cultures follow a limited number of patterns and that these patterns are determined by cross culturally constant ideas about emotion In formulating his argument Professor Hogan draws on his extensive reading in world literature experimental research treating emotion and emotion concepts and methodological principles from the contemporary linguistics and the philosophy of science He concludes with a discussion of the relations among narrative emotion concepts and the biological and social components of emotion *Rethinking Chivalry and Courtly Love* Jennifer G.

**West Africa's History** Emmanuel Kwaku Akyeampong,2006-01-15 There has long been a need for a new textbook on West Africa s history In *Themes in West Africa s History* editor Emmanuel Kwaku Akyeampong and his contributors meet this need examining key themes in West Africa s prehistory to the present through the lenses of their different disciplines The contents of the book comprise an introduction and thirteen chapters divided into three parts Each chapter provides an overview of existing literature on major topics as well as a short list of recommended reading and breaks new ground through the incorporation of original research The first part of the book examines paths to a West African past including perspectives from archaeology ecology and culture linguistics and oral traditions Part two probes environment society and agency and historical change through essays on the slave trade social inequality religious interaction poverty disease and urbanization Part three sheds light on contemporary West Africa in exploring how economic and political developments have shaped religious expression and identity in significant ways *Themes in West Africa s History* represents a range of intellectual views and interpretations from leading scholars on West Africa s history It will appeal to college undergraduates graduate students and scholars in the way it draws on different disciplines and expertise to bring together key themes in West Africa s history from prehistory to the present *The Greek Epic Cycle and its Ancient Reception* Marco Fantuzzi,Christos

Tsagalis, 2015-08-06 The poems of the Epic Cycle are assumed to be the reworking of myths and narratives which had their roots in an oral tradition predating that of many of the myths and narratives which took their present form in the Iliad and the Odyssey. The remains of these texts allow us to investigate diachronic aspects of epic diction as well as the extent of variation within it on the part of individual authors, two of the most important questions in modern research on archaic epic. They also help to illuminate the early history of Greek mythology. Access to the poems, however, has been thwarted by their current fragmentary state. This volume provides the scholarly community and graduate students with a thorough critical foundation for reading and interpreting them.
