Son of the Great Society Art Buchwald, 1966 Collection of the author's columns in which he punctures egos seeing the absurd in some of our most highly regarded expressions of national culture

The Great Society and the War on Poverty John R. Burch Jr., 2017-06-05 An ideal resource for students as well as general readers this book comprehensively examines the Great Society era and identifies the effects of its legacy to the present day With the assassination of President John F Kennedy Lyndon B Johnson inherited from the Kennedy administration many of the pieces of what became the War on Poverty In stark contrast to today Johnson was aided by a U S Congress that was among the most productive in the history of the United States Despite the accomplishments of the Great Society programs they failed to accomplish their ultimate goal of eradicating poverty Consequently some 50 years after the Great Society and the War on Poverty many of the issues that Johnson's administration and Congress dealt with then are in front of legislators today such as an increase in the minimum wage and the growing divide between the wealthy and the poor This reference book provides a historical perspective on the issues of today by looking to the Great Society period identifies how the War on Poverty continues to impact the United States both positively and negatively and examines how the Nixon and Reagan administrations served to dismantle Johnson's achievements This single volume work also presents primary documents that enable readers to examine key historical sources directly Included among these documents are The Council of Economic Advisers Economic Report of 1964 the Civil Rights Act of 1964 John F Kennedy's Remarks Upon Signing the Economic Opportunity Act The Negro Family The Case for National Action a.k.a the Moynihan Report and the Report of the National Advisory Commission on Civil Disorders a.k.a the Kerner Report

America Downfall Of A Great Society Steven B. Riddley, 2012-07-16 One of the greatest mysteries kept from the church world to be revealed at the end of this generation is what Daniel was told not to write in Dan 12 9 and John not to reveal in Rev 10 4 What the atheist refused to believe and what the church fail to see is the truth about the God of creation that all will answer too in this time of the end The other sides of God the mystery revelations are given to his prophets and messengers to warn the people Being born in sin we are blinded by the devil never to see the light until our rebirth as a new creation in Christ The horror of Israel's siege and fall from God's grace is about to be repeated two fold at the end of this time of the gentiles Just as there are those who believe there is no God and confessing Christians that limit the ability of the world to see Him We are now in a world whose hope of restoration has been exhausted to the point of no return The hidden mystery beyond 2012 will be what the entire world will see What is revealed within the pages of this book leaves no doubt whether alive or dead none of us creatures of his creation shall escape the judgments Noted theologians may argue their point on the level of knowledge learned in their seminaries only to discover the Holy Spirit they confess to have failed to demonstrate these great truths to the fullness shall see the God of creation deliver his chosen people in times of trouble Now

the hidden mystery can be told to this generation before its final end for this cause Isaiah 5 14 KJV 14 Therefore hell hath enlarged herself and opened her mouth without measure and their glory and their multitude and their pomp and he that rejoiceth shall descend into it The Author Register of Members of the Society of Sons of the Revolution in the District of Columbia Sons of the Revolution. The Argumentative Turn in Policy Analysis and Planning Frank Fischer, John Forester, 2013-07-12 Public policy is made of language Whether in written or oral form argument is central to all parts of the policy process As simple as this insight appears its implications for policy analysis and planning are profound Drawing from recent work on language and argumentation and referring to such theorists as Wittgenstein Habermas Toulmin and Foucault these essays explore the interplay of language action and power in both the practice and the theory of policy making The contributors scholars of international renown who range across the theoretical spectrum emphasize the political nature of the policy planner's work and stress the role of persuasive arguments in practical decision making Recognizing the rhetorical communicative character of policy and planning deliberations they show that policy arguments are necessarily selective both shaping and being shaped by relations of power These essays reveal the practices of policy analysts and planners in powerful new ways as matters of practical argumentation in complex highly political environments They also make an important contribution to contemporary debates over postempiricism in the social and policy sciences Contributors John S Dryzek William N Dunn Frank Fischer John Forester Maarten Hajer Patsy Healey Robert Hoppe Bruce Jennings Thomas J Kaplan Duncan MacRae Jr Martin Rein Donald Schon J A Throgmorton

Between a River and a Mountain Edmund F. Wehrle, 2010-02-11 Between a River and a Mountain details American labor's surprisingly complex relationship to the American war in Vietnam Breaking from the simplistic story of hard hat patriotism Wehrle uses newly released archival material to demonstrate the AFL CIO's continuing dedication to social political and economic reform in Vietnam The complex sometimes turbulent relationship between American union leaders and their counterparts in the Vietnamese Confederation of Labor known as the CVT led to dangerous political compromises the AFL CIO eventually accepted much needed support for their Vietnamese activities from the CIA while the CVT's need to sustain their relationship with the Americans lured them into entanglements with a succession of corrupt Saigon governments Although the story's endpoint the painfully divided and weakened labor movement of the 1970s may be familiar Wehrle offers an entirely new understanding of the historical forces leading up to that decline unraveling his story with considerable sophistication and narrative skill Stunning in its research and sophisticated in its analysis Between a River and a Mountain is one of the best studies we have of labor and the Vietnam War Robert K Brigham Shirley Ecker Boskey Professor of History and International Relations Vassar College Skillfully blending diplomatic and labor history Wehrle's book is a valuable contribution to the ever widening literature on the Vietnam
