Song For One Or Two Music And The Concept Of Art In Early China:

A Song for One Or Two Kenneth De Woskin,1982 **Music, Cosmology, and the Politics of Harmony in Early China** Erica Fox Brindley,2012-09-01 Explores the religious political and cultural significance attributed to music in early China In early China conceptions of music became important culturally and politically This fascinating book examines a wide range of texts and discourse on music during this period ca 500100 BCE in light of the rise of religious protoscientific beliefs on the intrinsic harmony of the cosmos By tracking how music began to take on cosmic and religious significance Erica Fox Brindley shows how music was used as a tool for such enterprises as state unification and cultural imperialism She also outlines how musical discourse accompanied the growth of an explicit psychology of the emotions served as a fundamental medium for spiritual attunement with the cosmos and was thought to have utility and potency in medicine While discussions of music in state ritual or as an aesthetic and cultural practice abound this book is unique in linking music to religious belief and demonstrating its convergences with key religious political and intellectual transformations in early China *A Song for One Or Two* Kenneth J. DeWoskin,1982 *The Narrative Arts of Tianjin: Between Music and Language* Francesca R. Sborgi Lawson,2016-12-05 In studying one of the world s oldest and most enduring musical cultures academics have consistently missed one of the richest forms of Chinese cultural expression performed narratives Francesca R Sborgi Lawson explores the relationships between language and music in the performance of four narrative genres in the city of Tianjin China based upon original field research conducted in the People s Republic of China in the mid 1980s and in 1991 The author emphasizes the unique nature of oral performances in China these genres are both musical and literary and yet are considered to be neither music nor literature Lawson employs extensive examples of the complex interaction of music and language in each genre all the while relating those analyses to broader cultural issues and to patterns of social relationships The narrative arts known as shuochang speaking singing are depicted as genres that constitute a unique communicative discourse the communication of stories in song The genres subsumed under the native conception of shuochang include Tianjin Popular Tunes Beijing Drumsong Clappertales and Comic Routines The maximum utilization of shuo speaking and chang singing in all their varying manifestations constitutes the vitality of the traditional narrative arts in the city of Tianjin the center for these arts in North China The variety of narrative forms provides entertainment for audiences representing all social strata of Chinese society The author argues that Chinese narrative traditions represent a foundation from which certain Chinese literary and operatic traditions have borrowed such as how the novels from the Ming Qing period draw on the performed narrative arts both in style and in content Hence an understanding of performed narratives is not only useful to scholars in Chinese literature and music but also to scholars interested in broadening their understanding of China generally **How to Read the Chinese Novel** David L. Ironies of Oneness and Difference Brook Ziporyn, 2012-09-20 Providing a bracing expansion of horizons this book displays the unsuspected range of human thinking on the most basic categories of experience The way in which early Chinese thinkers approached concepts such as one and many sameness and difference self and other and internal and external stand in stark contrast to the way parallel concepts entrenched in much of modern thinking developed in Greek and European thought Brook Ziporyn traces the distinctive and surprising philosophical journeys found in the works of the formative Confucian and Daoist thinkers back to a prevailing set of assumptions that tends to see questions of identity value and knowledge the subject matter of ontology ethics and epistemology in other traditions as all ultimately relating to questions about coherence in one form or another Mere awareness of how many different ways human beings can think and have thought about these categories is itself a game changer for our own attitudes toward what is thinkable for us The actual inhabitation and mastery of these alternative modes of thinking is an even greater adventure in intellectual and experiential expansion

Career Patterns in the Ch'ing Dynasty Raymond Chu, William Saywell, 2020-08-06 The office of governor general tsung tu was the highest provincial post throughout the Ch'ing dynasty As such it was a vital link in the control of a vast empire by a very small and alien ruling elite This is primarily a biographical

and statistical analysis of the incumbents of that office By analyzing the biographical data of those who held the position of governor general much may be learned about the nature of the office itself However the main objective of the study is to provide information on career patterns that is the variety of different posts held from the first official appointment to that of governor general of an important cross section of successful Chinese bureaucrats By plotting and analyzing the different patterns their official careers took we should be able to determine what kind of men reached the top of China's provincial and national administration during the final centuries of China's imperial history the qualifications that were required the factors which prompted rapid promotion or sudden disgrace We should also be able to determine the extent to which these and other factors varied markedly among Manchu Mongol Chinese Bannerman and Han incumbents and whether changes throughout the dynasty can be detected in policies concerning the office or in the career patterns of its personnel If such detection is possible this study may lend support to the view that late imperial China was not static but a society undergoing significant changes xi

Asian Martial Arts, Monks, and Ways of Thought Michael DeMarco, 2020-11-10 Many know of the legends concerning the Shaolin Temple as the font of Asian martial arts However this was not the only temple with deep associations with combatives This anthology dives deep into the historic significance of the relationship between temples monks and martial arts As a transporter of culture it seems logical that the Indian monk Bodhidharma brought more than just Buddhist texts to the Shaolin Temple India has a wonderful tradition of martial and healing arts that he would have shared at the temple His rich story throws light on how and why monks throughout Asia have often blended martial arts with their spiritual lives Asian countries have unique histories and societies but also share important elements A major thread is religion and the mixing with ancient native shamanism and mysticism We find a blend of Buddhism Daoism Confucianism Hinduism and Islam in Asian cultures which are strongly based in monastic centers The spread of religious thought is coupled with the spread of knowledge about martial arts It is part of human nature to find sources to enforce the spiritual mental and physical condition Temples and martial arts are certainly valued for these reasons In the first chapter Michael Spiesbach details the story of Bodhi dharma His piece couples nicely with Stanley Henning's observations from a visit to the

Shaolin Temple Dr Charles Holcombe details the historic connections Daoism has with martial arts while Mark Hawthorne discusses the recent state of Daoism and its prospects for the future Jerry Shine s chapter on the sohei shows the influence these warrior monks had in Japanese history Ken Jeremiah s chapter looks at the extreme asceticism Japanese monks and warriors practiced to reach their individual goals Mark Wiley s chapter deals with mystical elements as sources of power in Indonesian martial arts In the final chapter Mark Kelland brings the religious and martial traditions into our present everyday lives
