South Africa In Question:

The Land Question in South Africa Lungisile Ntsebeza, Ruth Hall, 2007 Publisher description **The Agrarian Question in South Africa** Henry Bernstein, 2014-01-21 This is the first collection of its kind It presents a critical political economy of the agrarian question in post apartheid South Africa informed by the results of research undertaken since the transition from apartheid started in 1990 The articles by well known South African British and American scholars cover a variety of topical theoretical empirical and policy issues firmly rooted in an historical perspective **African Land Questions, Agrarian Transitions and the State** Sam Moyo, 2008 This empirically grounded study provides a critical reflection on the land question in Africa research on which tends to be tangential conceptually loose and generally inadequate It argues that the most pressing research concern must be to understand the precise nature of the African land question its land reforms and their effects on development To unravel the roots of land conflicts in Africa requires thorough understanding of the complex social and political contradictions which have ensued from colonial and post colonial land policies as well as from Africa s development and capital accumulation trajectories especially with regard to the land rights of the continent s poor The study thus questions the capacity of emerging neo liberal economic and political regimes in Africa to deliver land reforms which address growing inequality and poverty It equally questions the understanding of the nature of popular demands for land reforms by African states and their ability to address these demands under the current global political and economic structures dictated by neo liberalism and its narrow regime of ownership The study invites scholars and policy makers to creatively draw on the specific historical trajectories and contemporary expression of the land and agrarian questions in Africa to enrich both theory and practice on land in Africa U.S. Policy Toward Southern Africa United States. Congress. Senate. Committee on Foreign Relations. Subcommittee on African Affairs, 1976 **The National Question** Berch Berberoglu, 2009 This volume examines the volatile nature and complex dynamics of national movements and ethnic conflict around the world **State, Land and Democracy in Southern Africa** Arrigo Pallotti, Corrado Tornimbeni, 2016-03-03 Each country in southern Africa has a unique history but in all of them socio economic inequalities and high poverty levels weaken the governments legitimacy and represent a challenge to models of economic development One key issue appears to be the solution of the land question This vital concern affects both citizenship and democracy in the political systems of the region yet no government has shown the capacity or commitment to solve it In this volume leading European American and African scholars explore in detail the relationship between state land and democracy They examine the historical background of asset allocation and its impact on questions of nationality the definition of citizenship human rights and the current political and economic processes in southern Africa **Resource Development in South Africa and U.S. Policy** United States. Congress. House. Committee on International Relations. Subcommittee on International Resources, Food, and Energy, 1976 The Question of Namibia Laurent C.W. Kaela, 2016-07-27 Following the Second World

war South Africa claimed that the League of Nations mandate to administer Namibia had lapsed with the dissolution of that organization and that it was within its power to annex it It rejected UN efforts to have the territory placed under its trusteeship This marked the beginning of the intractable dispute over the international status and independence of Namibia This book analyses the role of the international community through the UN and other organizations in the search for a settlement It gives attention to the efforts of the Western Contact Group and the people of Namibia themselves and shows how conditions for a settlement ultimately emerged Finally it outlines Namibia s major post independence challenges

Finland and National Liberation in Southern Africa Iina Soiri, Pekka Peltola, 1999 Finland s special characteristics as a Nordic non aligned welfare state gave it the resources and motivation to support liberation movements in spite of restrictions arising from trade interests and a reluctance to jeopardise the country s neutral image The study shows that although it is not an easy task in a democracy ordinary dedicated people can over time influence political decision making at its most closed and guarded area foreign politics
