Danns, Brenda I. Gill, 2023-07-10 Using a comparative framework this edited volume evaluates pressing social issues facing African Latin American and Caribbean countries Unique in its comparative and multi regional perspective this book provides a scholastic and practical understanding on questions ranging from governance and security to poverty inequality and population health      **American Suicide** Howard I. Kushner, 1991 For the nineteenth century physician the moral issues that suicide raised could not be isolated from its constitutional components Thus those who exhibited suicidal tendencies were subjected to an amalgamation of pharmacological social and psychological interventions which practitioners labeled the moral treatment By the 1890s however the consensus about the causes of suicide became unglued as a bacteriological medicine and the rise of the social sciences jointly served to call into question eclectic diagnoses The goal of American Suicide is to demonstrate how the apparent contradictions among sociological psychoanalytic and neurobiological explanations of the etiology of suicide may be resolved Only through a reintegration of culture psychology and biology can we begin to construct a satisfactory answer to the questions first raised by Durkheim Freud and Kraepelin      **How to Help the Suicidal Person to Choose Life: The Ethic of Care and Empathy as an Indispensable Tool for Intervention** Kathleen Stephany, 2017-07-25 Suicide is a complex problem which is linked to socioeconomic problems as well as mental stress and illness Healthcare professionals now know that the essential component of the suicidal person s state of crisis is of a psychological and emotional nature How to Help the Suicidal Person to Choose Life is a detailed guide to suicide prevention The book recommends ethic of care and empathy as a tool for suicide intervention Readers will learn about approaches that focus on suicide prevention that address the despairing emotional mind set of the suicidal person Key features Features easy to understand learning guides for students Emphasizes on suicide intervention strategies rather than identification of risk factors highlights information from narrative case studies and psychological autopsies includes practice and simulation exercises designed to enhance

therapeutic modalities such as empathy compassion unconditional positive regard connection therapeutic alliance the narrative action theoretical approach and mindful listening Contains guidelines prescribed by the Aeschi working group for clinicians Provides a list of bibliographic references and an appendix for other resources of information useful for suicide prevention This book is recommended for students and practicing professionals in medicine psychiatry nursing psychiatric nursing psychology counselling teaching social work the military police paramedics etc and other first responders volunteers or outreach workers who are confronted with situations where they have to assist people who are known or suspected of being suicidal

**Trauma** Elizabeth Jaikaran, 2017-08-01 A collection of true and extraordinary stories that speak of the abuse suffered by Guyanese women girls and members of the LGBT community both in their native country and after having emigrated to the United States Through carefully crafted prose and poetic undertones the author Elizabeth Jaikaran reveals accounts of the horrific violence and trauma through the lens of Guyanese culture and history Along with these stories are points of fact gathered from newspapers agency studies and governmental records that illustrate the far reaching existence and impact of violence and strict cultural norms Also on display in these stories is the strength and resilience of Guyanese women as they have struggled to survive and flourish This story of a small and often overlooked culture has needed to be told and Jaikaran tells it with amazing courage and grace

Attorney General, 447 MICH 436 (1994)**, 1994 99758 **Library of Congress Subject Headings** Library of Congress, 1995 *Suicide and Suicide Prevention From a Global Perspective* Ella Arensman, Diego De Leo, Jane Pirkis, 2020-04-06 Suicide is one of the most personal yet one of the most complex acts anyone can perform and it continues to be a major global public health problem with an estimated 800 000 deaths annually Suicide prevention is an important target in the United Nations Sustainable Development Goals SDGs for 2030 which aims to reduce premature mortality from noncommunicable diseases by one third Suicide is a global problem but what differences are there is the challenges faced and the solutions found regionally Written by leading experts the nine chapters of this volume provide a clear outline of the major milestones and achievements that have been reached so far in six different geographical regions according to data collated by IASP and the WHO Recent progress in the development and implementation of national suicide prevention programs in different countries is also explored In two concluding chapters the evidence base and best practice of suicide prevention programs are reviewed as well as a look at the future directions for suicide prevention at the global level This is essential reading for all those involved in suicide research and prevention as well as public health policy and epidemiology who want to keep up to date with the latest global developments

**Political Assassinations and Attempts in US History** J. Michael Martinez, 2017-11-14 The long dark history of political violence in the United States Violence has been employed to achieve political objectives throughout history Taking the life of a perceived enemy is as old as mankind Antiquity is filled with examples of political murders such as when Julius Caesar was felled by assassins in 44 BCE While assassinations and assassination attempts are not unique to the

American way of life denizens of other nations sometimes look upon the US as populated by reckless cowboys owing to a Wild West attitude about violence especially episodes involving guns In this book J Michael Martinez focuses on assassinations and attempts in the American republic Nine American presidents Andrew Jackson Abraham Lincoln James A Garfield William McKinley Harry S Truman John F Kennedy Richard Nixon Gerald Ford and Ronald Reagan have been the targets of assassins President elect Franklin D Roosevelt was also a target shortly before he was sworn into office in 1933 Moreover three presidential candidates Theodore Roosevelt Robert F Kennedy and George Wallace were shot by assailants In addition to presidents and candidates for the presidency eight governors seven U S senators nine U S House members eleven mayors seventeen state legislators and eleven judges have been victims of political violence Not all political assassinations involve elected officials Some of those targeted such as Joseph Smith Malcolm X and Martin Luther King Jr were public figures who influenced political issues But their cases are instructive because of their connection to and influence on the political process No other nation with a population of over 50 million people has witnessed as many political assassinations or attempts These violent episodes trigger a series of important questions First why has the United States a country constructed on a bedrock of the rule of law and firmly committed to due process been so susceptible to political violence Martinez addresses these questions as he examines twenty five instances of violence against elected officials and public figures in American history

Guyana's Great Economic Downswing, 1977-1990 Ramesh Gampat, 2020-10-19 Much of Guyana's 20th century history was defined by the PNC dictatorship and the political and economic wreckage it left behind In Guyana's Great Economic Downswing 1977 to 1990 Dr Ramesh Gampat presents a comprehensive study of these specific years when the national

economy contracted by 27 percent annually He explores the multiple facets of the country's political tribalism which does not value freedom liberty and the flourishing of all people it values only freedom liberty and flourishing of tribes The study reinforces the widely held belief that until and unless these adversarial groups subsume their respective selfish interests and commit to the common cause of national peace and development the great downswing might not rest as a historical event but could well re-emerge with further economic devastation if the lessons go unheeded Dr Gampat makes a strong case for federalism as a solution to Guyana's ethnic politics Federalism he posits would ensure that all Guyanese have equal access to opportunities and resources since a system of provincial governance would be better placed to address discriminatory policies and practices at a localised level With the country sitting on the cusp of transformative development to be propelled by new found oil wealth there is an urgency to settle the divisive politics if every Guyanese is to benefit fairly and equitably from the economic boom Guyana's Great Economic Downswing 1977 to 1990 offers up a studied and comprehensive analysis that should be part of that bipartisan discourse going forward Ryhaan Shah Novelist Social Activist A few piecemeal academic articles analyzing Guyana's economic evolution over the period 1977 to 1990 were written but they are scattered and lost away in various journals What was missing is a comprehensive and rigorous exploration of the era of Cooperative Socialism Dr Ramesh Gampat's book fills this gap It is a superb synthesis of historical theoretical and econometric exploration of the Great Downswing The book not only provides estimates of important macroeconomic concepts such as Guyana's total factor productivity and long term growth but also produces the useful statistics and reviews of poverty inequality life expectancy education outcomes as well as a detailed analysis of the rice sector As if these are not enough Gampat sets the tone by situating the exploration in the country's long standing and debilitating ethno-political dynamics This self-contained book will be of tremendous use to policy makers journalists and students interested in the historical context of present day outcomes I highly recommend this book to public libraries and home reference libraries Tarron Khemraj William and Marie Selby Professor of Economics and International Studies New College of Florida *Library of Congress Subject Headings* Library of Congress.
