Suicide Prevention:

The Essentials of Suicide Prevention Karen Mason, 2023-01-24 Suicide is a growing tragedy in the US and in the church. We can stop the climbing numbers of suicide deaths but it is going to take everyone working together including the church. Without the church, suicidal people may not hear the life affirming messages they need to hear. Without an informed church, people who have lost loved ones to suicide may leave the church. Too often the church watches from the sidelines not knowing what to do. Why is it that the wider secular culture is more engaged in suicide prevention than God's people, especially given that Christians care deeply about the sanctity of life? The apostle Paul modeled suicide prevention for the church when he stopped the suicide of the Philippian jailer. But pastors and congregants may not know how to follow his example. The result is that people who struggle with suicide or who have lost loved ones to suicide wonder if the Bible or their church have anything relevant to say about suicide. This book will provide the resources needed to help prevent suicide in a church even when a church does not want to start one more program.

Suicide Prevention and Intervention Plan

Colorado. Governor's Suicide Prevention Advisory Commission, 1998 **A Culture of Caring** Theodora Schiro, 2020-02-20 As awareness grows about the alarming increase in youth suicide rates, school leaders need information on suicide prevention and postvention. Tragically, the search often begins only after the school community has suffered the loss of a student. Schools must start to be proactive and educate themselves about risk factors and prevention strategies. Designed as a handbook for busy educators, **A Culture of Caring: A Suicide Prevention Guide for Schools K-12** includes information about prevention, intervention, and postvention along with commentary from experts in the field. Each chapter stands alone and does not have to be read in sequence. Resources and descriptions of programs relevant to each chapter are organized by topic. School leaders, counselors, and teachers can use the information to create their own plans or just glance through it to get ideas. With this book, any school community that takes suicide prevention seriously will have access to the knowledge, tools, and resources to save lives.

Singer, Scott Poland, 2014-11-20 **Suicide in Schools** provides school-based professionals with practical, easy-to-use guidance on developing and implementing effective suicide prevention, assessment, intervention, and postvention strategies. The authors include detailed case examples, innovative approaches for professional practice, usable handouts, and internet resources on the best practice approaches to effectively work with youth who are experiencing a suicidal crisis, as well as those students, families, school staff, and community members who have suffered the loss of a loved one to suicide. Readers will come away from this book with clear, step-by-step guidelines on how to work proactively with school personnel and community professionals, think about suicide prevention from a three-tiered systems approach, how to identify those who might be at risk, and how to support survivors.

Participants of the committee on the Pathophysiology and Prevention of Adult and Adolescent Suicide of the Institute of Medicine's workshop on suicide prevention, however, believe that there is potential for better suicide prevention. Two workshops were convened by the committee: Risk Factors for Suicide, March 14, 2001, and Suicide Prevention and Intervention, May 14, 2001. The two workshops were designed to allow invited presenters to share with the committee and other workshop participants their particular expertise in suicide and to discuss and examine the existing knowledge base. Participants of the second workshop were selected to represent many areas including design and analysis of prevention programs, suicide contagion, and firearm availability and suicide. The committee wanted to assess the science base of suicide etiology, evaluate the current status of suicide prevention, and examine current strategies for the study of suicide. *Suicide Prevention and Intervention: Summary of a Workshop* summarizes the major themes that arose during the workshop.
