Communication in Stravinsky's Works Per Dahl, 2021-12-16 Igor Stravinsky left behind a complex heritage of music and ideas There are many examples of discrepancies between his literate statements about music and musicians and his musical compositions and activity Per Dahl presents a model of communication that unveils a clear and logical understanding of Stravinsky's heritage based on the extant material available From this Dahl argues the case for Stravinsky's music and his ideas as separate entities representing different modes of communication As well as describing a triangular model of communication based on a tilted and extended version of Ogden's triangle Dahl presents an empirical investigation of Stravinsky's vocabulary of signs and expressions in his published scores his communicative mode towards musicians In addition to simple statistics Dahl compares the notation practice in the composer's different stylistic epochs as well as his writing for different sizes of ensembles Dahl also considers Stravinsky's performances and recordings as modes of communication to investigate whether the multi-layered model can soften the discrepancies between Stravinsky the literary and Stravinsky the musician [Catalog of Copyright Entries, Third Series](#) Library of Congress. numeric cipher system often used by silk and bamboo musicians today and a corresponding transcription in staff notation. Each transcription is presented in two parallel forms: the relatively unornamented version faithfully reproduced from the gongche score and an ornamented realization based on one or more recordings of modern silk and bamboo musicians. This collection offers a glimpse into the contexts and performance practices surrounding this beloved repertoire while also presenting an alternative to the overly prescriptive editions of traditional Chinese music often encountered today.
