vista irreconciliables de la vida en sociedad se antoja más fructífera que el enrocamiento defensivo mientras la migración de conceptos y principios sigue a la diáspora de los cuerpos de carne y hueso pierde su connotación privativa para transformarse en un estado de elección. Estar siempre fuera de lugar ayuda de hecho a contemplar el mundo y a nosotros mismos con distintos ojos. De este contrabando incontrolado de ideas más allá de las líneas seguras la máxima fulminante de Edward Said el ensayo de Emanuela Fornari constituye probablemente el primer reconocimiento completo en clave filosófica. No hay línea de fractura o desplazamiento de fronteras disciplinares que escape a su análisis reconstructivo. En la conciencia de que no todo es transferible de una cultura a otra y de que es preciso salvaguardar aquel coeficiente de intraducibilidad ante el cual sólo es posible un silencio a varias voces.

Affective Cartographies Sara Victoria Carrasco Segovia, Fernando Hernández Hernández, Juana María Sancho-Gil, 2024-02-19 This book focuses on cartographies as epistemology and visual strategy highlighting three major axes corporeal affective and nomadic learning. Based on the onto-epistemo-methodological and ethical displacement from reductive approaches the book emphasizes new ways of understanding arts research teaching and learning processes at the university and beyond. Contributions highlight practices focused on dialogue sharing readings and philosophical discussions which allow educators to move away from what is typically thought of as correct and reinforce the importance of a decolonized approach to learning and knowledge understanding the research process as an imperfect journey in becoming.
