**Sullivan's Last Stand** Harper Allen, 2014-10-15 THE FIRST TIME HAD BEEN HARD Bailey Flowers should have known a man who'd been to hell and back would break her heart But now ex mercenary Terrence Sullivan was the only man who could help her locate her missing sibling before the police framed her sister for murder THE SECOND TIME WOULD BE IMPOSSIBLE These former lovers thought they could set aside personal feelings to solve an increasingly bizarre and deadly investigation But when their simmering passion exploded in an all consuming desire Bailey knew this tortured mercenary needed her help Because the only key to Sullivan's salvation lay in her ever loving arms A History of American Sports in 100 Objects Cait Murphy, 2016-10-11 A history of American sports told through one hundred iconic objects **Fighting the Current** Lisa Bier, 2011-09-07 In 1926 Gertrude Ederle became the first female to swim the English Channel and broke the existing record time in doing so Although today she is considered a pioneer in women's swimming women were swimming competitively 50 years earlier This historical book details the early period of women's competitive swimming in the United States from its beginnings in the nineteenth century through Ederle's astonishing accomplishment Women and girls faced many obstacles to safe swimming opportunities including restrictive beliefs about physical abilities access to safe and clean water bathing suits that impeded movement and became heavy in water and opposition from official sporting organizations The stories of these early swimmers plainly show how far female athletes have come A History of the Town of Sullivan, New Hampshire, 1777-1917 Josiah Lafayette Seward, 1921 *The Sullivan Sisters* Kathryn Ormsbee, 2020-06-23 From the author of the intense coming of age story *School Library Connection* The Great Unknowable End and the beyond refreshing irreverent Booklist starred review Tash Hearts Tolstoy comes an introspective atmospheric novel about sisterhood coming of age and learning that it's never too late to reconnect with those you love Time changes things That painful fact of life couldn't be truer for the Sullivan sisters Once they used to be close sharing secrets inside homemade blanket castles Now life in the Sullivan house means closed doors and secrets left untold Fourteen year old Murphy an aspiring magician is shocked by the death of Siegfried her pet turtle Seventeen year old Claire is bound for better things than her Oregonian hometown until she receives a crushing rejection from her dream college And eighteen year old Eileen is nursing a growing addiction in the wake of life altering news Then days before Christmas a letter arrives informing the sisters of a dead uncle and an inheritance they knew nothing about The news forces them to band together in the face of a sinister family mystery and possibly murder *The Sullivan Sisters* is an unforgettable novel about the ghosts of the past the power of connection and the bonds of sisterhood *The Architecture of Use* Stephen Grabow, Kent Spreckelmeyer, 2014-10-03 By analyzing ten examples of buildings that embody the human experience at an extraordinary level this book clarifies the central importance of the role of function in architecture as a generative force in determining built form Using familiar twentieth century buildings as case studies the authors present these from a new perspective based on their functional design concepts Here Grabow and Spreckelmeyer

expand the definition of human use to that of an art form by re evaluating these buildings from an aesthetic and ecological view of function Each building is described from the point of view of a major functional concept or idea of human use which then spreads out and influences the spatial organization built form and structure In doing so each building is presented as an exemplar that reaches beyond the pragmatic concerns of a narrow program and demonstrates how functional concepts can inspire great design evoke archetypal human experience and help us to understand how architecture embodies the deeper purposes and meanings of everyday life
