Top Man Stewart Lansley, 2008-09-08 Philip Green owner of amongst much else British Home Stores reached billionaire status faster than anyone else in British history. Today he is worth 3.6 billion and is reckoned to be the country's fourth richest citizen. A middle class Jewish boy from North London who left school at fifteen Green started and failed with four businesses before he made it with Jean Jeannie which he sold to Lee Cooper for an enormous profit that set him on the road to fame and fortune. But there were pitfalls on the way his involvement with Amber Day a public company left him with an abiding dislike for both the City establishment and outside investors. Ever since he has relied upon a close group of like minded entrepreneurs including the Barclay twins to help fund his buccaneering forays into Britain's High Streets. The authors describe Green's takeover and highly profitable break up of the Sears empire and his first audacious attempt to seize control of Marks Spencer at the end of 1999. Green then turned his attention to the ailing BHS for which he paid a mere 200 million and then transformed its fortunes to such an extent that in 2004 he was able to transfer dividends totalling 400 million to his Monaco tax haven. His appetite unsated Green then turned his attention to the Arcadia Group which included brands such as Miss Selfridge Top Shop and Dorothy Perkins before making another bid for M S in 2004. Again he was foiled partly because of what he saw as treachery on the part of his former protégé Stuart Rose the man who was appointed by M S to see off Green's bid.

Migrant City Panikos Panayi, 2020-04-07 The first history of London to show how immigrants have built shaped and made a great success of the capital city London is now a global financial and multicultural hub in which over three hundred languages are spoken. Panayi shows how migration has been fundamental to London's economic social political and cultural development. *Migrant City* sheds light on the various ways in which newcomers have shaped London life acting as cheap labour contributing to the success of its financial sector its curry houses and its football clubs. London's economy has long been driven by migrants from earlier continental financiers and more recent European Union citizens. Without immigration fueled

by globalization Panayi argues London would not have become the world city it is today
