Faulkner's Fashion Christopher Rieger, 2023-12-14 The first book length study of clothing and dress across William Faulkner's novels and short stories Clothing is one of the most important and pervasive material items throughout William Faulkner's fiction Faulkner's Fashion analyzes the writer's use of clothing from a variety of critical approaches considering how clothing and dress intersect with race class and gender across Faulkner's works It also considers clothes as material objects using Thing Theory and Object Oriented Ontology to illuminate the role clothing plays as an object in conjunction with its multiple layers of symbolic meaning to both the wearer and the observer Faulkner's Fashion reveals how much attention Faulkner pays to garments and fashion in his own life and in his fiction arguing that dress is often a means of characterization for Faulkner while it also connects his narrative representations of gender sexuality class poverty race and modernity

Clothing the Poor in Nineteenth-Century England Vivienne Richmond, 2013-09-19 In this pioneering study Vivienne Richmond reveals the importance of dress to the nineteenth century English poor who valued clothing not only for its practical utility but also as a central element in the creation and assertion of collective and individual identities During this period of rapid industrialisation and urbanisation formal dress codes corporate and institutional uniforms and the spread of urban fashions replaced the informal dress of agricultural England This laid the foundations of modern popular dress and generated fears about the visual blurring of social boundaries as new modes of manufacturing and retailing expanded the wardrobes of the majority However a significant impoverished minority remained outside this process Clothed by diminishing parish assistance expanding paternalistic charity and the second hand trade they formed a sartorial underclass whose material deprivation and visual distinction was a cause of physical discomfort and psychological trauma

Survey of English Dialects Clive Upton, David Parry, John Widdowson, 2013-10-08 First Published in 1994 The Survey of English Dialects SED is the only detailed nation wide dialect survey which has ever been conducted in England The SED is a unique repository of data on the traditional dialects of England in the mid twentieth century This remarkable record is a valuable resource for scholars in the fields of British English dialectology sociolinguistics and English historical linguistics The SED fieldwork was undertaken in predominantly rural communities in England in the middle of the twentieth century at a time when social domestic and working life was undergoing very significant changes The SED is thus a record of speech which reflects a society different in many ways from today and as such affords the possibility of comparison which is instructive to those engaged in all types of study of linguistics today

Fashion and Its Social Agendas Diana Crane, 2012-06-12 It has long been said that clothes make the

man or woman but is it still true today If so how has the information clothes convey changed over the years Using a wide range of historical and contemporary materials Diana Crane demonstrates how the social significance of clothing has been transformed Crane compares nineteenth century societies France and the United States where social class was the most salient aspect of social identity signified in clothing with late twentieth century America where lifestyle gender sexual orientation age and ethnicity are more meaningful to individuals in constructing their wardrobes Today clothes worn at work signify social class but leisure clothes convey meanings ranging from trite to political In today s multicode societies clothes inhibit as well as facilitate communication between highly fragmented social groups Crane extends her comparison by showing how nineteenth century French designers created fashions that suited lifestyles of Paris elites but that were also widely adopted outside France By contrast today s designers operate in a global marketplace shaped by television film and popular music No longer confined to elites trendsetters are drawn from many social groups and most trends have short trajectories To assess the impact of fashion on women Crane uses voices of college aged and middle aged women who took part in focus groups These discussions yield fascinating information about women s perceptions of female identity and sexuality in the fashion industry An absorbing work *Fashion and Its Social Agendas* stands out as a critical study of gender fashion and consumer culture Why do people dress the way they do How does clothing contribute to a person s identity as a man or woman as a white collar professional or blue collar worker as a preppie yuppie or nerd How is it that dress no longer denotes social class so much as lifestyle Intelligent and informative this book proposes thoughtful answers to some of these questions Library Journal *The Dressed Society* Peter Corrigan, 2008-01-16 It was traditionally said that clothes maketh the man But what codes and meanings are associated with dress in a society that consists of divisions between class race gender family status and religion Is social and cultural life still fundamentally themed by the clothes that we wear If so how should we read these codes and themes in order to decipher their relation to power and meaning This exhaustive book demonstrates how dress shapes and is shaped by social processes and phenomena such as beauty time the body the gift exchange class gender and religion It does this through an analysis of topics like the Islamic clothing controversy in state schools the multitude of identities associated with dress the Dress Reform movement the construction of the body in fashion magazines and the role of the internet in fashion What emerges is a trenchant sharply observed account of the place of dress in contemporary society The book will be of interest to students and researchers in Sociology Cultural Studies Women s Studies Gender Studies Anthropology and Fashion Studies *A Dictionary of the English and German, and the German and English Language* Joseph Leonhard Hilpert, 1857 **Splash the Living Water** Esther Burroughs, 1999-05-24 Life can be frustrating busy and hard Often we wonder how we will survive the demands of the day let alone take time to nurture our spirit or encourage others for Christ We need refreshment sustenance and support we need the Living Water of Jesus Splash the Living Water revives cleanses and restores as it shows us how to fully embrace Christ s love and acceptance how to

discover a new intimacy with God and how to reach out and splash those around us with God's wellspring of hope

Hard-Boiled Erin Smith, 2010-07-07 An examination of the culture that produced and supported pulp fiction **Fashion & Family History** Jayne Shrimpton, 2020-12-14 This illustrated volume explores what fashion history can reveal about the lives of your British ancestors As Britain evolved from an agrarian society into an urban industrial nation dress was transformed Traditional rural styles gave way to modern city modes workwear and holiday attire Women sewed at home while advanced textiles and mass produced goods brought affordable fashion to ordinary people Many of our predecessors worked as professional garment makers laundresses or in other related trades and they used those skills when caring for their own clothes The Victorians observed strict etiquette through special costumes for Sundays marriage and mourning Poorer families struggled to maintain standards while young single workers spent their wages on clothes and the older generation cultivated their own discreet style Twentieth century dress grew more relaxed and democratic as popular culture influenced fashion for recent generations who enjoyed sports cinema music and dancing **The Old Crop in Indiana** Sara Smith Pratt, 1928 **The Lure** William J. Vande Kopple, 2012-08-17 They say that a fisherman never runs out of stories Lucky for readers of this book William J Vande Kopple wants to do more than regale us with tales of the one that got away In this winsome collection Vande Kopple spins fifteen funny poignant yarns out of his experience as a father angler and believer From its haunting opening vignette to more expansive recollections of road trips family reunions and solitary forays into nature Vande Kopple effortlessly perceives the connections between families fishing and faith He is steadfast in his faith yet comfortable with doubt see the starkly untidy ending of Not a Hair Shall Fall in which he and his son wrestle with both a big fish and the question of God's providence He is contagiously exuberant yet mindful of the vicissitudes of aging Have I waited too long he wonders after a much delayed fishing trip with his father in Time Is Tapping on My Forehead He is an able raconteur whose spirits are never dampened for long in Longing he promises never to drive up to Canada on a whim again to fish until the locals tell him about a river he just has to try Fishermen and their long-suffering friends and family members will relish Vande Kopple's latest book So too will nature lovers of all stripes particularly those who know the beauty of the pristine wildernesses of Michigan and Northwestern Ontario In any case whether or not readers share Vande Kopple's love for fishing these stories are sure to catch those who are angling for a good story **Streetlife in Late Victorian London** P. Andersson, 2013-08-29 Focusing on the everyday behaviour of people in the late Victorian street this extensive study provides an alternative history of the modern city and sheds new light on the relationship between police constables and civilians A wealth of source material is scrutinised to explore this public interaction in the capital **Religion and Society in Twentieth-Century Britain** Callum G. the people amidst world wars economic depressions and social protest and how until the 1950s religious revivals fostered mass enthusiasm It then examines the sudden and dramatic changes seen in the 1960 s and the appearance of religious militancy in the 1980s and 1990s With a focus on the themes of faith cultures secularisation religious militancy and the spiritual revolution of the New Age this book uses people s own experiences and the stories of the churches to display the diversity and richness of British religion Suitable for undergraduate students studying modern British history church history and sociology of religion
