Papa, PhD Mary Ruth Marotte, Paige Reynolds, Ralph James Savarese, 2011 A collection of personal essays from men who wrestle with what it means to be a father in academia today. Organized in three sections, the stories of the contributors depict not merely a balancing act of parenting, teaching, and writing, but also the revelatory collision and occasional fusion of competing identities. Essays in the first section, *Fathers in Theory*, *Fathers in Praxis*, focus on challenges related to merging work and parenting. The authors contemplate to what degree we engage our children in the academy while also allowing them to grow independently, recognizing the challenge of keeping the roles of parent and teacher distinct. The second section, *Family Made*, explores fatherhood against the grain and includes narratives of single dads, fathers raising children with disabilities, biracial families, and other non-traditional parenting situations. *Forging New Fatherhoods*, the third section, articulates the strategies created by men to balance diapers and a doctorate or to reconcile fatherhood with professional ambition. The contributors' reflections reveal how fatherhood is instrumental to their successes and failures in the workplace and demonstrate that the relationship between fatherhood and academia is a rich and legitimate subject for study.

Selling the Silver Bullet Avi Santo, 2015-04-15 Originating as a radio series in 1933, the Lone Ranger is a cross-media star who has appeared in comic strips, comic books, adult and juvenile novels, feature films, and serials, clothing, games, toys, home furnishings, and many other consumer products. In his prime, he rivaled Mickey Mouse as one of the most successfully licensed and merchandised children's properties in the United States. While in more recent decades the Lone Ranger has struggled to resonate with consumers, leading to efforts to rebrand the property, the Lone Ranger's eighty-year history as a lifestyle brand thus offers a perfect case study of how the fields of licensing, merchandizing, and brand management have operated within shifting industrial and sociohistorical conditions that continue to redefine how the business of entertainment functions. Deciphering how iconic characters gain and retain their status as cultural commodities, *Selling the Silver Bullet* focuses on the work done by peripheral consumer product and licensing.

divisions in selectively extending the characters reach and in cultivating investment in these characters among potential stakeholders Tracing the Lone Ranger s decades long career as intellectual property allows Avi Santo to analyze the mechanisms that drive contemporary character licensing and entertainment brand management practices while at the same time situating the licensing field s development within particular sociohistorical and industrial contexts He also offers a nuanced assessment of the ways that character licensing firms and consumer product divisions have responded to changing cultural and economic conditions over the past eighty years which will alter perceptions about the creative and managerial authority these ancillary units wield
