The Politics of Leisure Rudy Dunlap, Justin Harmon, Jeff N. Rose, 2021-11-24 This book explores entanglements between politics and leisure ranging from the electorate's concerns with public recreation resources to the presence of politics in casual conversation and to the use of leisure as a means of preserving racial hierarchies in society In noting the contributions of past scholarship it also points toward a trend of increasingly political leisure research where research helps to unpack the multiple ways in which power suffuses the experience of leisure A contrast between being political on one hand and the tribal politicization that characterizes much of contemporary social life on the other hand demonstrates that scholars and educators can and should be engaged in politically

oriented scholarship while also building a more diverse and intellectually productive academy This edited volume will be of great interest to researchers and scholars interested in race power polarization and the interrelationship between politics and leisure The chapters in this book were originally published as a special issue of the journal Leisure Sciences

Kidder, 2017-04-20 In the increasingly popular sport of parkour athletes run jump climb flip and vault through city streetscapes resembling urban gymnasts to passersby and awestruck spectators In *Parkour and the City* cultural sociologist Jeffrey L Kidder examines the ways in which this sport involves a creative appropriation of urban spaces as well as a method of everyday risk taking by a youth culture that valorizes individuals who successfully manage danger Parkour's modern development has been tied closely to the growth of the internet The sport is inevitably a YouTube phenomenon making it exemplary of new forms of globalized communication Parkour's dangerous stunts resonate too Kidder contends with a neoliberal ideology that is ambivalent about risk Moreover as a male dominated sport parkour with its glorification of strength and daring reflects contemporary Western notions of masculinity At the same time Kidder writes most athletes known as traceurs or freerunners reject a daredevil label preferring a deliberate reasoned hedging of bets with their own safety rather than a pushing the edge ethos normally associated with extreme sports
