Skepticism and Cognitivism Oliver A.

Ethical Naturalism Susana Nuccetelli,Gary Seay,2011-12-08 Ethical naturalism is narrowly construed as the doctrine that there are moral properties and facts at least some of which are natural properties and facts Perhaps owing to its having faced early on intuitively forceful objections by eliminativists and non naturalists ethical naturalism has only recently become a central player in the debates about the status of moral properties and facts which have occupied philosophers over the last century It has now become a driving force in those debates one with sufficient resources to

challenge not only eliminativism especially in its various non cognitivist forms but also the most sophisticated versions of non naturalism This volume brings together twelve new essays which make it clear that in light of recent developments in analytic philosophy and the social sciences there are novel grounds for reassessing the doctrines at stake in these debates

The Philosophical Biographer Martin Maner,2009-01-01 The Philosophical Biographer shows how a shift in philosophical outlook in the seventeenth and eighteenth centuries from an understanding of human knowledge rooted in deductive certainties to one resting on inductive probability influenced the development of biographical narrative in general and in particular the way Johnson dealt with biographical evidence in his Lives of the Poets Examining the psychological and philosophical doubt that lay at the heart of Johnson s character and intellect Martin Maner reveals in the biographical studies of Savage Swift Milton and Pope an ingrained pattern of dialectical argument and a skeptical attitude toward evidence a method that involves the reader in judgments about the poets as it conveys Johnson s own understanding of truth In the Life of Savage Johnson moves from thesis to antithesis generating out of opposing emotional responses irony and sympathy ridicule and pathos an understanding of the man Dialectically undercutting the conclusions of previous biographers of Swift and Milton Johnson fashions a new somewhat acidic estimation of Swift and a portrait of Milton that engages contemporary questions of the probable and the marvelous The Life of Pope Johnson s greatest dialectical achievement alternates between blame and praise public and private realms weaving tone context and analogy into great contrasting patterns of inquiry and judgment Establishing the centrality of a dialectical method in the Lives of the Poets Martin Maner links the rise of biography as well as Johnson s interest in the form to the shift in epistemology brought about by empiricism In the new patterns of thought of the seventeenth and eighteenth centuries biography the estimation of a life through sifting of historical events and evidence was the most philosophical of endeavors and Johnson its greatest practitioner *Taste and the Ancient Senses*

Kelli C. Rudolph,2017-07-31 Olives bread meat and wine it is deceptively easy to evoke ancient Greece and Rome through a few items of food and drink But how were their tastes different from ours How did they understand the sense of taste itself in relation to their own bodies and to other modes of sensory experience This volume the first of its kind to explore the ancient sense of taste draws on the literature philosophy history and archaeology of Greco Roman antiquity to provide answers to these central questions By surveying and probing the literary and material remains from the Archaic period to late antiquity contributors investigate the cultural and intellectual development towards attitudes and theories about taste These specially commissioned chapters also open a window onto ancient thinking about perception and the body Importantly these authors go beyond exploring the functional significance of taste to uncover its value and meaning in the actions thoughts and words of the Greeks and Romans Taste and the Ancient Senses presents a full range of interpretative approaches to the gustatory sense and provides an indispensable resource for students and scholars of classical antiquity and sensory studies
