Smell Of Sawdust:

How the Body Shapes the Way We Think Rolf Pfeifer, Josh Bongard, 2006-10-27 An exploration of embodied intelligence and its implications points toward a theory of intelligence in general with case studies of intelligent systems in ubiquitous computing business and management human memory and robotics How could the body influence our thinking when it seems obvious that the brain controls the body In *How the Body Shapes the Way We Think* Rolf Pfeifer and Josh Bongard demonstrate that thought is not independent of the body but is tightly constrained and at the same time enabled by it They argue that the kinds of thoughts we are capable of have their foundation in our embodiment in our morphology and the material properties of our bodies This crucial notion of embodiment underlies fundamental changes in the field of artificial intelligence over the past two decades and Pfeifer and Bongard use the basic methodology of artificial intelligence understanding by building to describe their insights If we understand how to design and build intelligent systems they reason we will better understand intelligence in general In accessible nontechnical language and using many examples they introduce the basic concepts by building on recent developments in robotics biology neuroscience and psychology to outline a possible theory of intelligence They illustrate applications of such a theory in ubiquitous computing business and management and the psychology of human memory Embodied intelligence as described by Pfeifer and Bongard has important implications for our understanding of both natural and artificial intelligence

Haunted Naperville Diane A. Ladley, 2009 Established in 1831 Naperville is one of the oldest settlements in the Greater Chicago area The city's rich and fascinating heritage has been carefully passed down from one proud generation to the next however nowhere has Naperville's ghostly oral tradition and haunted history been preserved until now Most of Naperville's unique legends compiled for the first time ever in these pages arose from accounts of actual historic events and from the lives of notable personages in the city's long history As the tragic events and persons faded from living memory all that might remain of them would be ghost stories whispered by firelight and later by flashlight tucked under a teenager's chin at slumber parties Some eerie legends in these pages have origins that are lost in time and still other hair-raising ghost stories included in this work are chilling contemporary firsthand accounts of paranormal encounters within Naperville's sprawling boundaries perhaps from even just down the street

Why Life Speeds Up As You Get Older Douwe Draaisma, 2004-11-04 Is it true as the novelist Cees Nooteboom once wrote that Memory is like a dog that lies down where it pleases Where do the long lazy summers of our childhood go Why is it that as we grow older time seems to condense speed up elude us while in old age significant events from our distant past can seem as vivid and real as what happened yesterday In this enchanting and thoughtful book Douwe Draaisma author of the internationally acclaimed *Metaphors of Memory* explores the nature of autobiographical memory Applying a unique blend of scholarship poetic sensibility and keen observation he tackles such extraordinary phenomena as déjà vu near death experiences the memory feats of idiot savants and the effects of extreme trauma on memory recall Raising

almost as many questions as it answers this fascinating book will not fail to touch you at the same time as it educates and entertains

The Smell of Fresh Rain Barney Shaw, 2017-09-07 Smell is the most emotional and evocative of our senses it can bring back memories faster and with more immediacy than a photograph so why is it so little understood Armed with a hungry curiosity and a willingness to self experiment author Barney Shaw goes in search of the hidden meanings of smells Using plain words to describe what he finds he investigates the chemistry psychology history and future of this underappreciated sense Journeying around boatyards perfume shops and memories Shaw opens your nose to the world breaking down chords of smells into their component notes and through them revealing new ways of understanding the spaces through which we move An investigation into the biology psychology and history of smell and a search for effective ways to put into words scents that we instantly relate to but find strangely ineffable THE SMELL OF FRESH RAIN includes a 200 entry thesaurus of succinct descriptions of common smells

Locating Consciousness Valerie Gray Hardcastle, 1995 Locating Consciousness argues that our qualitative experiences should be aligned with the activity of a single and distinct memory system in our mind brain Spelling out in detail what we do and do not know about phenomenological experience this book denies the common view of consciousness as a central decision making system Instead consciousness is viewed as a lower level dynamical structure underpinning our information processing This new perspective affords novel solutions to a wide range of problems the absent qualia the binding problem the inverted spectra the specter of epiphenomenalism the explanatory gap the distinction between objective and subjective and the general skeptical doubts about the viability of the naturalist project itself Drawing on recent data in psychology and

neuroscience Locating Consciousness also discusses when we become conscious and when we should think other animals are conscious Series A *True North* Robin Huber, 2020-05-12 A single moment can change your life It s been eight years since the moment that changed Olivia Dalton s life Gabriel North was her first love her only love But an accident shattered their world leaving Gabe with a serious injury and Liv with a broken heart In the years that followed Liv left their small coastal town in Georgia and began her career in North Carolina But she often feels like a stranger watching the woman she s become drift farther and farther from the girl she used to be Now confronted with a decision and a future that seems more uncertain than ever Liv can no longer ignore the hole in her heart that s been quietly aching since she was twenty two The only way to move forward is by going back back home to face the love she left behind *True North* is a deeply emotional second chance romance inspired by the unconditional love of family the tender love of adolescence and the deep everlasting love between soulmates **Girl** Alona Frankel, 2016-08-29 An impressionistic memoir of a Polish Jewish girl s survival hiding
