Smell Of Humans A Memoir Of The Holocaust In Hungary:

The Smell of Humans Ernő Szép,1994 The Holocaust in Hungary Zoltán Vági,László Csosz,Gábor Kádár,2013-09-05

The Holocaust in Hungary provides a comprehensive documentary account of one of the most brutal and effective killing campaigns in history After Nazi Germany took control of Hungary late in World War II Jews were rounded up with unprecedented speed and sent directly to Auschwitz They would form the largest group of victims who perished in that camp The complex interplay between German and Hungarian actors brought about the annihilation of a once thriving Jewish community and the murder of hundreds of thousands of Jewish men women and children The authors present extensive reports testimonies and other primary sources of these events accompanied by in depth commentary that spans the years from the late 1930s to the fractured political landscape of postwar Hungary *Hungarian Jews in the Age of Genocide* Ferenc Laczó,2016-09-12 Hungarian Jews the last major Jewish community in the Nazi sphere of influence by 1944 constituted the single largest group of victims of Auschwitz Birkenau In *Hungarian Jews in the Age of Genocide* Ferenc Lacz draws on hundreds of scholarly articles historical monographs witness accounts as well as published memoirs to offer a pioneering exploration of how this prolific Jewish community responded to its exceptional drama and unprecedented tragedy Analysing identity options political discourses historical narratives and cultural agendas during the local age of persecution as well as the varied interpretations of persecution and annihilation in their immediate aftermath the monograph places the devastating story of Hungarian Jews at the dark heart of the European Jewish experience in the 20th century Budapest Building Managers and the Holocaust in Hungary Istvan Pal Adam,2016-09-30 This book traces the role of Budapest building managers or concierges during the Holocaust It analyzes the actions of a group of ordinary citizens in a much longer timeframe than Holocaust scholars usually do Thus it situates the building managers activity during the war against the background of the origins and development of the profession as a by product of the development of residential buildings since the forming of Budapest Instead of presenting a snapshot from 1944 it shows that the building managers wartime acts were influenced and shaped by their long term social aspiration for greater recognition and their economic expectations Rather than focusing solely on pre war antisemitism this book takes into consideration other factors from the interwar period such as the culture of tipping In Budapest during June 1944 the Jewish residents were separated not into a single closed ghetto area but by the authorities designating dispersed apartment buildings as ghetto houses The almost 2 000 buildings were spread throughout the entire city and the non Jewish concierges serving in these houses represented the link between the outside and the inside world The empowerment of these building managers happened as a side effect of the anti Jewish legislation and these concierges found themselves in an intermediary position between the authorities and the citizens

Holocaust City Tim Cole,2013-10-18 Drawing from the ideas of critical geography and based on extensive archival research Cole brilliantly reconstructs the formation of the Jewish ghetto during the Holocaust focusing primarily on the

ghetto in Budapest Hungary one of the largest created during the war but rarely examined Cole maps the city illustrating how spaces cafes theaters bars bathhouses became divided in two Throughout the book Cole discusses how the creation of this Jewish ghetto just like the others being built across occupied Europe tells us a great deal about the nature of Nazism what life was like under Nazi occupation and the role the ghetto actually played in the Final Solution *Comparative Central European Holocaust Studies* Louise Olga Vasvári, Steven Tötösy de Zepetnek, 2009 The work presented in the volume in fields of the humanities and social sciences is based on 1 the notion of the existence and the describability and analysis of a culture including e g history literature society the arts etc specific of to the region designated as Central Europe 2 the relevance of a field designated as Central European Holocaust studies and 3 the relevance in the study of culture of the comparative and contextual approach designated as comparative cultural studies Papers in the volume are by scholars working in Holocaust Studies in Australia Germany Hungary Israel Serbia the United Kingdom and the US
