Buddha Mind in Contemporary Art Jacquelynn Baas, Mary Jane Jacob, 2004 Eminently readable and extremely meaningful The contributors tackle essential questions about the relationship of art and life The book is also very timely offering a way to approach Buddhism through unexpected channels Lynn Gumpert Director Grey Art Gallery New York University Gods in America Charles L. Cohen, Ronald L. Numbers, 2013-07-29 Religious pluralism has characterized America almost from its

seventeenth century inception but the past half century or so has witnessed wholesale changes in the religious landscape including a proliferation of new spiritualities the emergence of widespread adherence to Asian traditions and an evangelical Christian resurgence These recent phenomena important in themselves as indices of cultural change are also both causes and contributions to one of the most remarked upon and seemingly anomalous characteristics of the modern United States its widespread religiosity Compared to its role in the world s other leading powers religion in the United States is deeply woven into the fabric of civil and cultural life At the same time religion has from the 1600s on never meant a single denominational or confessional tradition and the variety of American religious experience has only become more diverse over the past fifty years Gods in America brings together leading scholars from a variety of disciplines to explain the historical roots of these phenomena and assess their impact on modern American society **Fateful Ties** Gordon H. Chang, 2015-04-13 Americans look to China with fascination and fear unsure whether it is friend or foe but certain it will play a crucial role in their future This is nothing new Gordon Chang says Fateful Ties draws on literature art biography popular culture and politics to trace America s long and varied preoccupation with China **The Making of Buddhist Modernism** David L.

McMahan, 2008-11-14 A great deal of Buddhist literature and scholarly writing about Buddhism of the past 150 years reflects and indeed constructs a historically unique modern Buddhism even while purporting to represent ancient tradition timeless teaching or the essentials of Buddhism This literature Asian as well as Western weaves together the strands of different traditions to create a novel hybrid that brings Buddhism into alignment with many of the ideologies and sensibilities of the post Enlightenment West In this book David McMahan charts the development of this Buddhist modernism McMahan examines and analyzes a wide range of popular and scholarly writings produced by Buddhists around the globe He focuses on ideological and imaginative encounters between Buddhism and modernity for example in the realms of science mythology literature art psychology and religious pluralism He shows how certain themes cut across cultural and geographical contexts and how this form of Buddhism has been created by multiple agents in a variety of times and places His position is critical but empathetic while he presents Buddhist modernism as a construction of numerous parties with varying interests he does not reduce it to a mistake a misrepresentation or fabrication Rather he presents it as a complex historical process constituted by a variety of responses sometimes trivial often profound to some of the most important concerns of the modern era

"*Patricia Johanson and the Re-Invention of Public Environmental Art, 1958-2010*" Xin Wu, 2017-07-05 Impeccably researched and richly detailed this book addresses the issue of translation between visual arts and landscape design in the 50 more years career of Patricia Johanson an important artist in the second half of the twentieth century Examining the artist s search for an art of the real as a member of the post World War II New York art world and how such pursuit has led her from painting and sculpture to public garden and environmental art Xin Wu argues for the significance of the process of art creation challenging the centrality of art objects This book is an insightful study to confront a crucial question in the history

of art through the work of a contemporary artist It therefore converses with art historians and critics alike as well as advanced readers of twentieth century art Following Johanson s artistic development from its formation in the 1960s American art scene to the very present day across the fields of art architecture garden civil engineering and environmental aesthetics it investigates the process of creation in a transdisciplinary perspective and reveals a view of art as a domain of exploration of key issues for the contemporary world The artist s concept of nature is highlighted and particular impacts of Chinese aesthetics and thought unveiled Based on extensive analysis of unpublished private archives Xin Wu offers us the first ever comprehensive scholarly interpretation of Patricia Johanson s oeuvre including drawings paintings sculptures installations garden proposals and built and unbuilt projects in the United States Brazil Kenya and Korea Marcel Duchamp and the Art of Life Jacquelynn Baas,2019-11-19 A groundbreaking reading of Duchamp s work as informed by Asian esoterism energetic spiritual practices identifying creative energy with the erotic impulse Considered by many to be the most important artist of the twentieth century the object of intensive critical scrutiny and extensive theorizing Marcel Duchamp remains an enigma He may be the most intellectual artist of all time and yet toward the end of his life he said If you wish my art would be that of living each second each breath is a work which is inscribed nowhere which is neither visual or cerebral In Marcel Duchamp and the Art of Life Jacquelynn Baas offers a groundbreaking new reading of Duchamp arguing in particular that his work may have been informed by Asian esoterism energetic spiritual practices that identify creative energy with the erotic impulse Duchamp drew on a wide range of sources for his art from science and mathematics to alchemy Largely overlooked until now have been Asian spiritual practices including Indo Tibetan tantra Baas presents evidence that Duchamp s version of artistic realization was grounded in a western interpretation of Asian mind training and body energetics designed to transform erotic energy into mental and spiritual liberation She offers close readings of many Duchamp works beginning and ending with his final work the mysterious shockingly explicit tant donn s 1 la chute d eau 2 le gaz d clairage Given 1 The Waterfall 2 The Illuminating Gas Generously illustrated with many images in color Marcel Duchamp and the Art of Life speculates that Duchamp viewed art making as part of an esoteric continuum grounded in Eros It asks us to unlearn what we think we know about both art and life in order to be open to experience
