Smiling Through The Cultural Catastrophe:

Smiling Through the Cultural Catastrophe Jeffrey Hart, 2008-10-01 Hart presents a guide to some of the essential literary works of Western civilisation which retain their ability to energise us intellectually tracing the main currents of Western culture for all who wish to understand the roots of their civilisation and the basis for its achievements

Leadership in Christian Higher Education Michael Wright, James Arthur, 2016-06-27 Universities and Colleges with a Christian affiliation have in recent years sought to renew and redefine their identities and almost all have rearticulated their mission for the modern age after a long and serious process of reappraisal This process has been accompanied by an ongoing discussion of the nature and identity of higher education itself This discussion has required leadership that is different from most secular leadership This book provides a range of experienced voices including the Archbishop of Canterbury that reflect on the character and mission of leadership in Christian higher education in the 21st Century *The Demise of the Library School* Richard J. Cox, 2010 In *The Demise of the Library School* Richard J Cox places the present and future of professional education for librarianship in the debate on the modern corporate university The book is a series of meditations on critical themes relating to the education of librarians archivists and other information professionals playing off of other commentators analyzing the nature of higher education and its problems and promises *Ordering America* William H. Young, 2010-07-21 *Ordering America* painting a felicitous portrait of Western civilization shows that its defining ideals rooted in man's common human nature a perception newly substantiated by modern evolutionary psychology were best fulfilled by realization of the American founding order Twentieth century progressivism and postmodern multiculturalism detoured America down the way of social constructionism human nature and equality are produced by culture and the state through groups The book sets a course to revive the Western ideals and return to an opportune center right American order applying latest scientific insights and restoring individual responsibility and reciprocity under more limited still energetic government befitting our century

Human Purpose and Transhuman Potential Ted Chu, 2014-03-01 For millennia great thinkers have contemplated the meaning and purpose of human existence but while most assumed that humanity was the end point of creation or the pinnacle of evolution Ted Chu makes the provocative claim that the human race may in fact be a means rather than an end that humankind will give rise to evolutionary successors In this wide ranging and authoritative work Chu reexamines the question of human purpose in light of the extraordinary developments of science and technology Arguing that a deep understanding of our place in the universe is required to navigate the magnitude of the choices that lie ahead he surveys human wisdom from both East and West traces the evolutionary trajectory that has led to this point and explores the potentials emerging on the scientific frontier The book addresses the legitimate fears and concerns of playing God but embraces the possibility of transcending biological forms and becoming or creating entirely new life forms *Passions in Economy, Politics, and the Media* Wolfgang Palaver, Petra Steinmair-Pösel, 2005 Passions play an important role in economy

politics and the media Recent discussions of the economy for instance do no longer hesitate to stress the importance of a passion like envy functioning as a driving force in this field Also the world of advertising illustrates the importance of passions in the economy Modern forms of politics on the contrary claimed to be detached from passions and to rely solely on rationality Recent developments since the end of the cold war however have clearly challenged this self understanding of modern politics Not even politics can escape the world of passions In our days both the economy and politics depend on the media another example of a highly passionate realm Passions also have an important religious dimension One of the central questions of any great religion is how to deal with passions This book offers an interdisciplinary approach to the phenomenon of passions in the fields of economy politics and the media drawing on Re **Stephen R. Donaldson and the Modern**

Epic Vision Christine Barkley, 2014-01-10 This critical study analyzes Stephen R Donaldson s role as a modern writer who uses the fantasy genre to discuss situations and predicaments germane to the modern world Donaldson reclaims an epic vision in his Thomas Covenant novels that is lacking in most modern literature Chapters demonstrate how this use of epic heroism helps solve seemingly insurmountable problems and provides more meaning and purpose for individuals As Donaldson s characters learn to transcend their world the reader is engaged in a serious enlightened discussion about the need for imagination responsibility and acceptance to resolve such problems as alienation pollution disease and despair

American Conservatism Bruce Frohnen, Jeremy Beer, Nelson O. Jeffrey, 2014-05-20 A must own title National Review Online American Conservatism An Encyclopedia is the first comprehensive reference volume to cover what is surely the most influential political and intellectual movement of the past half century More than fifteen years in the making and more than half a million words in length this informative and entertaining encyclopedia contains substantive entries on those persons events organizations and concepts of major importance to postwar American conservatism Its contributors include iconic patriarchs of the conservative and libertarian movements celebrated scholars well known authors and influential movement activists and leaders Ranging from abortion to Zoll Donald Atwell and written from viewpoints as various as those which have informed the postwar conservative movement itself the encyclopedia s more than 600 entries will orient readers of all kinds to the people and ideas that have given shape to contemporary American conservatism This long awaited volume is not to be missed

The Binding of Isaac, Religious Murders & Kabbalah Lippman Bodoff, 2005 In a series of evocative groundbreaking articles the author analyzes the Biblical and Rabbinic basis for what surely are now some of the most hotly debated topics in Jewish religious thought today These include how the traditional interpretation of the Binding of Isaac has been misapplied in both Christian theology and Jewish martyrology and how the centuries long and newly resurgent belief in mysticism and messianism in kabbalah and Hasidism has distorted classical Judaism and thwarted its national and cultural development The author counters the arguments of those who see Judaism s and the world s newfound obsession with mysticism and kabbalah as a natural outgrowth of a progressive trend within rabbinic Judaism and warns of the impending

danger of rejecting the very core of Jewish thought and opinion as it was expounded in the Torah and classical Jewish tradition the Oral Law Each section of this magnificent work will give the reader new insights into how different aspects of Judaism have evolved and why they have often been in contention with each other Nor is he afraid to deal with some of the supercharged issues within Judaism such as what are the underlying premises of Jewry's claim to the Divinely Promised Land And has this claim been affected by its failure to pursue an active program of nationalism These highly acclaimed articles have been gleaned from today's leading Jewish journals and have stood the test of time They contain valuable source material and are a ready reference to the many historical and religious topics that are the focus of discussion across all main Jewish denominations

Babel and the Ivory Tower William David Shaw, Professor W David Shaw, 2005-01-01 Writing at the time of his retirement from an academia that after four decades has become unfamiliar Shaw English U of Toronto says in a society where book learning is an anomaly scholars must breach the citadel of computer wizards and technicians by combining their knowledge of books with the rebel's power to criticize authority the prophet's power to renew tradition and the poet's power to create a world that is no less true for being a vision He insists that scientists scholars and professional practitioners must learn from each other Annotation 2004 Book News Inc Portland OR booknews com
