Sociology In Government The Galpin Taylor Years In The U S Department Of Agriculture 1919 1953:

Sociology in Government ,2003 *Sociology in Government* Olaf F. Larson,Edward O. Moe,Julie N.

Zimmerman,2010-11 From 1919 through 1953 the U S Department of Agriculture housed the Division of Farm Population and Rural Life the first unit within the federal government established specifically for sociological research Distinguished sociologists Charles Galpin and Carl Taylor provided key leadership for 32 of its 34 years as the Division sought to understand the social structure of rural America and to do public policy oriented research It reached the height of its influence during the New Deal and World War II as it helped implement modern liberal policies in America s farming sector attempting to counteract the harsh effects of modern industrialism on the rural economy In addition the Division devoted resources to studying both the history and the contemporary state of rural social life *Sociology in Government* offers the first detailed historical account and systematic documentation of this remarkable federal office The Division of Farm Population and Rural Life was an archetypal New Deal governmental body deeply engaged in research on agricultural planning and action programs for the disadvantaged in rural areas Its work continued during World War II with farm labor and community organization work Larson and Zimmerman emphasize the Division s pioneering practices presenting it as one model for applying the discipline of sociology in the government setting Published in cooperation with the American Sociological Association *Sociology in Government* preserves the history of this pathbreaking research unit whose impact is still felt today

Planning Democracy Gilbert, Jess,2015-01-01 Late in the 1930s the U S Department of Agriculture set up a national network of local organizations that joined farmers with public administrators adult educators and social scientists The aim was to localize and unify earlier New Deal programs concerning soil conservation farm production control tenure security and other reforms and by 1941 some 200 000 farm people were involved Even so conservative anti New Dealers killed the successful program the next year This book reexamines the era s agricultural policy and tells the neglected story of the New Deal agrarian leaders and their visionary ideas about land democratization and progressive social change **Landmark**

Legislation 1774-2022 Stephen W. Stathis,2024-04-09 *Landmark Legislation 1774 2022* Third Edition is a comprehensive guide to important laws and treaties enacted by the U S Congress This updated edition includes landmark legislation from the last five Congresses 2013 2022 on issues like climate change criminal justice education and more It features carefully selected acts and treaties with historical significance and has an updated index and bibliography for easy access A must have for public and academic libraries with American history or political science collections **Rural Sociologists at Work**

Johannes Hans Bakker,2015-10-05 This collection of original chapters written by prominent social scientists elucidates the theory and practice of contemporary rural sociology The book applies lessons from the careers of sociologists and their field research endeavors covering a wide range of topics agricultural production processing and marketing international food security and rural development degradation of the bio physical environment across borders and the study of community

family health and many other issues in an increasingly globalized world The authors candid accounts provide insight into possibilities for enhancing opportunity and equality and serving basic human needs Smokeless Sugar Emily M. Hill,2010-10-20 Part history part biography and part mystery story Smokeless Sugar traces the formation of a national economy in China through an intriguing investigation of the 1936 execution of an allegedly corrupt Cantonese official Feng Rui a Western educated agricultural expert introduced modern sugar milling to China in the 1930s as a key component in a provincial investment program Before long however he was accused of colluding with smugglers to pass foreign sugar off as a domestic product Emily Hill makes the case that Feng was in fact a scapegoat in a multi sided power struggle in which political leaders vied with commercial players for access to China s markets and tax revenues *Opening Windows Onto Hidden Lives* Julie N. Zimmerman,Olaf F. Larson,2010 Examines the embeddedness of rural and farm women s lives in rural sociological research conducted by the USDA s Division of Farm Population and Rural Life 1919 1953 Explores how early rural sociologists found the conceptual space to include women in their analyses Provided by publisher Service as Mandate Alan I Marcus,2015-12-31 Completing a comprehensive history of America s land grant universities begun in Science as Service the thirteen original essays in Service as Mandate examine how these great institutions both changed and were changed by the late twentieth and early twenty first centuries Landmark Legislation 1774-2012 Stephen W. Stathis,2014-01-02 The Second Edition of this renowned treasure trove of information about the most important laws and treaties enacted by the U S Congress now deepens its historical coverage and examines an entire decade of new legislation Landmark Legislation 1774 2012 includes additional acts and treaties chosen for their historical significance or their precedential importance for later areas of major federal legislative activity in the over 200 years since the convocation of the Continental Congress Brand new chapters expand coverage to include the last five numbered Congresses 10 years of activity from 2003 2012 which has seen landmark legislation in the areas of health insurance and health care reform financial regulatory reform fiscal stimulus and the Temporary Asset Relief Program federal support for stem cell research reform of federal financial support for public schools and higher education and much more Features Benefits Each chapter covers one of the numbered Congresses with a historical essay followed by the major acts of that Congress arranged in chronological order of passage with each act summarized A Finder s Guide summarizes all of the acts and treaties into approximately 40 separate topical policy areas The work s extensive bibliography has been expanded and updated This one volume resource is a must have for any public or academic library especially those with strong American history or political science collections

Not Just Green, Not Just White Mary E. Mendoza,Traci Brynne Voyles,2025 This collection analyzes the relationships between environment race and justice through a historical lens exploring how environmental injustices have profoundly shaped communities of color throughout U S history and today **Population Change and Rural Society** William A. Kandel,David L. Brown,2006-10-12 CALVIN L BEALE In considering how to introduce the subject of rural population change

in st the 21 Century I nd myself re ecting on my own experience as a demographer for the U S Department of Agriculture When I arrived at the Department the post World War II modernization of farming was well under way Each year my colleague Gladys Bowles and I had the unpopular task of announcing how much the farm population had decreased in the prior year It was hard to say that the phenomenon was someone s fault Dramatic reductions in labor requirements per unit of agricultural output were occurring everywhere and not just in the United States But politically blame had to be assigned and whichever political party was not in the White House was certain to place the blame squarely on the current administration The demographic consequences of this trend were major In a 22 year period from 1941 to 1962 the net loss of farm population from migration and cessation of farming averaged over a million people per year It took eight years after the war before an administration was willing to begin to talk about the need to diversify rural employment By that time farm residents had already become a minority of rural people However well into the 1970s I continued to receive inquiries from people who still equated rural with farm or who could not envision what rural nonfarm people did for a living

Science, Democracy, and the American University Andrew Jewett,2014-05-01 This book reinterprets the rise of the natural and social sciences as sources of political authority in modern America Andrew Jewett demonstrates the remarkable persistence of a belief that the scientific enterprise carried with it a set of ethical values capable of grounding a democratic culture a political function widely assigned to religion The book traces the shifting formulations of this belief from the creation of the research universities in the Civil War era to the early Cold War years It examines hundreds of leading scholars who viewed science not merely as a source of technical knowledge but also as a resource for fostering cultural change This vision generated surprisingly nuanced portraits of science in the years before the military industrial complex and has much to teach us today about the relationship between science and democracy

Public Sociology Dan Clawson,Robert Zussman,Joya Misra,Naomi Gerstel,Randall Stokes,2007-06-06 In 2004 Michael Burawoy speaking as president of the American Sociological Association generated far reaching controversy when he issued an ambitious and impassioned call for a public sociology Burawoy argued that sociology should speak beyond the university engaging with social movements and deepening an understanding of the historical and social context in which they exist In this volume renowned sociologists come together to debate the perils and the potentials of Burawoy s challenge Contributors Andrew Abbott Michael Burawoy Patricia Hill Collins Barbara Ehrenreich Evelyn Nakano Glenn Sharon Hays Douglas Massey Joya Misra Orlando Patterson Frances Fox Piven Lynn Smith Lovin Judith Stacey Arthur Stinchcombe Alain Touraine Immanuel Wallerstein William Julius Wilson Robert Zussman

Rural and Small-Town America Tim Slack,Shannon M Monnat,2024-08-06 Contemporary America is centered around urban society Most Americans reside in cities or their surrounding suburbs and both the media and modern American sociology focus disproportionately on urban life Rural and Small Town America looks at what we can learn from rural society and confronts common myths and misunderstandings about rural people and places Tim Slack and Shannon M Monnat

examine social economic and demographic changes and how these changes pose both problems and opportunities for rural communities They assess changes in population size and composition economies and livelihoods ethnoracial diversity and inequities population health and health disparities and politics and policies The central focus of this book is that rural America is no paragon of stability Social change abounds accompanied by new challenges Through analysis of empirical evidence demographic data and policy debates readers will glean insights about rural America and the United States as a whole Fighting for the Farm Jane Adams,2013-03-26 In North America industrial agriculture has now virtually displaced

diversified family farming The prevailing system depends heavily on labor supplied by migrants and immigrants and its reliance on monoculture raises environmental concerns In this book Jane Adams and contributors anthropologists and political scientists among them analyze the political dynamics that have transformed agriculture in the United States and Canada since the 1920s The contributors demonstrate that people become politically active in arenas that range from the state to public discourse to relations between growers and their contractors or laborers and that politics is a process that is intimately local as well as global The farm financial crisis of the 1980s precipitated rapid consolidation of farms and a sharp decline in rural populations It brought new actors into the political process including organic farmers and environmentalists Fighting for the Farm Rural America Transformed considers the politics of farm policy and the consequences of the increasing alignment of agricultural interests with the global economy The first section of the book places North American agriculture in the context of the world system the second a series of case studies examines the foundations of current U S policy subsequent sections deal with the political implications for daily life and the politics of the environment Recognizing the influence of an array of political constituencies and arenas Fighting for the Farm charts a decisive shift since the early part of the twentieth century from a discursive regime rooted in economics to one that now incorporates a variety of environmental and quality of life concerns **The Countryside in the Age of the Modern State** Catherine McNicol

Stock,Robert D. Johnston,2018-05-31 However urban the nation has become Catherine McNicol Stock and Robert D Johnston write twenty percent of its citizens still live outside major metropolitan areas Moreover rural economic activity agricultural extractive recreational and industrial has an enormous impact on the nation s overall economic well being The stories of contemporary rural people still have the power to move us They reflect the values dreams and ideals at the core of the economically racially and ethnically diverse American experience The Countryside in the Age of the Modern State moves rural history into explorations of modern politics diverse rural peoples and their complex relationships to the American state in the twentieth century The volume s contributors examine African American progressive farm organizers the experiences of Caribbean and Mexican farm laborers agrarian intellectuals in the New Deal the politics of land and landscape in the Rocky Mountain west and the origins of today s rural political movements Sociologies of Religion ,2015-07-14 Sociologies of Religion National Traditions presents fourteen histories of the sociological study of religion in a diverse set of nations Each of

the histories is newly written by author who are uniquely situated to tell narrate the story of the field in their countries They give us the stories behind major personages theoretical traditions seminal works research institutes and professional associations The histories trace the various ways the field was established in different academic and religious contexts and the trajectories it took in emerging as a scientific specialty

Together at the Table Patricia Allen, 2004 Everywhere you look people are more aware of what they eat and where their food comes from In a cafeteria in Los Angeles children make their lunchtime food choices at fresh fruit and salad bars stocked with local foods In a community garden in New York low income residents are producing organically grown fruits and vegetables for their own use and to sell at market In Madison Wisconsin shoppers select their food from a bounty of choices at a vibrant farmers market Together at the Table is about people throughout the United States who are building successful alternatives to the contemporary agrifood system and their prospects for the future At the heart of these efforts are the movements for sustainable agriculture and community food security Both movements seek to reconstruct the agrifood system the food production chain from the growing of crops to food production and distribution to become more ecologically sound economically viable and socially just Allen describes the ways in which people working in these movements view the world and how they see their place in challenging and reshaping the agrifood system She also shows how ideas and practices of sustainable agriculture and community food security have already woven their way into the dominant agrifood institutions Allen explores the possibilities this process may hold for improving social and environmental justice in the American agrifood system Together at the Table is an important reminder that much work still remains to be done Now that the ideas and priorities of alternative food movements have taken hold it is time for the next even more challenging step Alternative agrifood movements must acknowledge and address the deeper structural and cultural patterns that constrain the long term resolution of social and environmental problems in the agrifood system

Movable Markets Helen Tangires, 2019-05-07 The untold story of America's wholesale food business In nineteenth century America municipal deregulation of the butcher trade and state incorporated market companies gave rise to a flourishing wholesale trade In Movable Markets Helen Tangires describes the evolution of the American wholesale marketplace for fresh food from its development as a bustling produce district in the heart of the city to its current indiscernible place in food industrial parks on the urban periphery Tangires follows the middlemen those intermediaries who became functional necessities as the railroads accelerated the process of delivering perishable food to the city Tracing their rise and decline in the wake of a deregulated food economy she asks How did these people who occupied such key roles as food distributors and suppliers to the retail trade end up exiled to urban outskirts Moving into the early twentieth century she explains how progressive city planners and agricultural economists responded to anxieties about the high cost of living traffic congestion and disruptions in the food supply by questioning the centrality aging infrastructure and organizational structure of wholesale markets Tangires combines economic and cultural history by analyzing popular literature innovative

scholarship and USDA publications Detailing the legal physical and organizational means behind the complex exodus of food wholesaling from the urban core Tangires also reveals how the trade adjusted to life beyond the city limits as it created new channels of distribution product lines and markets Readers interested in US history city and regional planning history food history and public policy as well as anyone curious about the disappearance of the central produce district as a major component of the city will find Movable Markets a fascinating read **Farming for Us All** Michael Mayerfeld Bell,2010-11-01 Farming for Us All gives us the opportunity to explore the possibilities for social environmental and economic change that practical dialogic agriculture presents
