Criminology is an exciting series that invigorates and challenges the international field of criminology. Books in the series are short, authoritative, innovative assessments of emerging issues in criminology and criminal justice, offering critical, accessible introductions to important topics. They take a global rather than a narrowly national approach. Eminently readable and first rate in quality, each book is written by a leading specialist. Compact Criminology provides a new type of tool for teaching, learning and research, one that is flexible and light on its feet. The series addresses fundamental needs in the growing and increasingly differentiated field of criminology.

The Routledge Handbook of White-Collar and Corporate Crime in Europe
Judith van Erp, Wim Huisman, Gudrun Vande Walle, 2015-04-10
The study of white collar crime remains a central concern for criminologists around the world and research concentrates on its nature, prevalence, causes and responses. However, most books on white collar crime tend to focus on Anglo American examples, which is surprising given the amount of rich data and research taking place in mainland Europe. This new handbook seeks to reset the balance and for the first time presents an overview of state of the art research on white collar crime in Europe. Adding to the existing Anglo American body of knowledge, the Handbook will discuss specific European topics and typical European features of white collar crime. The Routledge Handbook of White Collar and Corporate Crime in Europe consists of more than thirty chapters on topics ranging from the Icelandic Banking Crisis to the origins of the study of white collar crime to contemporary topics such as white collar crime in countries post transition from communist regimes, the illegal e waste trade and white collar crime in professional football. Furthermore, the book contains extensive case study analyses of landmark European cases of white collar crime. The editors have gathered together the leading voices in the field and a final section offers commentaries on white collar crime in Europe from eminent criminologists David Friedrichs and Hazel Croall. This Handbook will thus serve as a work of reference for all scholars and students engaged in the study of corporate and white collar crime and will also set out directions for new research in the future.

Towards a Victimology of State Crime Dawn Rothe, David Kauzlarich, 2016-05-13
State crime victimization often leaves a legacy of unrecognized victims that are ignored, forgotten or negated the right to be labeled as such. Victims are often glossed over as the focus is on a state's actions or inactions rather than the subsequent victimization and victims. *Towards a Victimology of State Crime* serves to highlight the forgotten victims, processes and cases of revictimization within a sociological/criminological framework. Contributors include expert scholars of state crime and victimology from North America, Europe, Africa and Latin America to provide a well rounded focus that can address and penetrate the issues of victims of state crime. This includes a diverse number of case study examples of victims of state crime and the systems of control that facilitate or impede addressing the needs of victims. Additionally, with the inclusion of a section on controls, this volume taps into an area that is often overlooked: the international level of social control in relation to a victimology of state criminality.

Combating Human Trafficking Michael J. Palmiotto, 2014-12-01
A centuries old crime, human trafficking occurs not only in undeveloped countries but also in some surprising locations. Right here in the United

States individuals are recruited transported and held by unlawful means either through deception or under threat of violence Approaching the topic from a law enforcement perspective Combating Human Trafficking A Multidisciplinary Approach provides an unprecedented look at the investigation of this phenomenon in America Beginning with historical sociological and psychological perspectives the book discusses how authorities can best conduct an investigation of trafficking It reviews federal agencies responsible for confronting the problem examines relevant laws and legal trends and discusses law enforcement awareness and training Individual chapters written by experts in law enforcement explore a host of topics including Border issues between Mexico and the U S including the trafficking of people drugs and firearms The role of the Internet in human trafficking Child victim recruitment into sex trafficking How sexually oriented businesses such as escort services hostess bars and massage parlors can be fronts for sex trafficking The prevalence of human trafficking among street gangs Forced labor aspects especially with respect to illegal immigrants How victims are chosen Theoretical practical and ethical considerations in providing effective services to victims An ideal resource for police investigators police training and community outreach organizations the book is also suitable as a college text for criminal justice courses It is hoped that the awareness created through this text will provide the knowledge and tools needed to help to end this form of modern day slavery

Popular Culture, Crime and Social Control Mathieu Deflem, 2010-04-21 Contains contributions on the theme of popular culture crime and social control This title includes chapters that tease out various criminologically relevant issues pertaining to crime deviance and or the control thereof on the basis of an analysis of various aspects and manifestations of popular culture including music and movies

The Policing of Terrorism Mathieu Deflem, 2010-02-10 This book offers an analysis of the policing of terrorism in a variety of national and international contexts Centered on developments since the events of September 11 2001 the study devotes its empirical attention to important police aspects of counter terrorism in the United States and additionally extends its range comparatively to other nations including Israel and Iraq and to the global level of international police organizations such as Interpol and Europol Situated in the criminology of terrorism and counter terrorism this book offers a fascinating look into the contemporary organization of law enforcement against terrorism which will significantly influence the conditions of global security in the foreseeable future

Reparation for Victims of Crimes against Humanity Jo-Anne Wemmers, 2014-05-30 Each year countless people fall victim to crimes against humanity These include widespread occurrences of systematic murder torture rape disappearances forced deportation and political persecution Crimes against humanity constitute an attack on human dignity and as such they violate the human rights of the victim as well as the laws of humanity In recent years following the creation of the International Criminal Court there has been a growing interest in the prosecution of offenders and in particular in reparation following crimes against humanity While such measures are meant to provide justice for victims victims are often forgotten or lost in legal debates about what constitutes reparation and who is eligible to receive it This book reaches beyond the boundaries of law and psychology and

takes a multidisciplinary approach to the question of reparation for victims of crimes against humanity Law does not take place in a vacuum and it is important to consider the impact of the law on the psychology of the victim as well as the legal principles themselves Herein lies the originality of this book which bridges the gaps between psychology victimology criminology and law and will be of key interest to academics and students engaged in the study of these areas *Angels of Death* Roger S. Magnusson,2013-05-09 Public discussion of euthanasia and assisted suicide is growing In Australia as elsewhere the debate is difficult contentious and confronting and hampered by the secrecy that necessarily surrounds illegal practice Most people simply have no way of knowing how and how often medically assisted death actually occurs Roger Magnusson presents for the first time detailed first hand accounts by doctors nurses therapists and other health professionals who have been participants in assisted death All have been intimately involved in caring for people with AIDS both in Australia and in California He places these ambivalent self incriminating accounts within the broader context of the right to die debate and the challenges of palliative care The frankness of the health workers and the richness of their collected evidence set this book apart From within a culture of deception they speak knowingly and movingly of the merciful release of a peaceful death while acknowledging the reality of botched attempts euthanasia without consent precipitative euthanasia lack of accountability and professional distance and many other disturbing issues *Angels of Death* provides a window into the euthanasia underground a secret part of medicine and nursing that few professionals will publicly acknowledge It brings a sense of urgency and precision to public debate and equips us all to think more independently about these crucial issues **American Penology** Thomas G. Blomberg,2017-07-12 The purpose of *American Penology* is to provide a story of punishment s past present and likely future The story begins in the 1600s in the setting of colonial America and ends in the present As the story evolves through various historical and contemporary settings America s efforts to understand and control crime unfold The context ideas practices and consequences of various reforms in the ways crime is punished are described and examined Though the book s broader scope and purpose can be distinguished from prior efforts it necessarily incorporates many contributions from this rich literature While this enlarged second edition incorporates select descriptions and contingencies in relation to particular eras and punishment ideas and practices it does not limit itself to individual histories of these eras Instead it uses history to frame and help explain particular punishment ideas and practices in relation to the period and context from which they evolved The authors focus upon selected demographic economic political religious and intellectual contingencies that are associated with historical and contemporary eras to show how these contingencies shaped America s punishment ideals and practices In offering a new understanding of received notions of crime control in this edition Blomberg and Lucken not only provide insights into the future of punishment but also show how the larger culture of control extends beyond the field of criminology to have an impact on declining levels of democracy freedom and privacy *Handbook on Cities and Crime* Dietrich Oberwittler,Rebecca Wickes,2025-04-09 With insightful

contributions from eminent scholars in the field this multidisciplinary Handbook provides an authoritative overview of scholarship on cities and crime It discusses contemporary theoretical and methodological approaches to urban crime research as well as its practical implications and psychological impacts
