Liberation from Liberalization Rokhsana Bahramitash, 2013-07-18 Liberation from Liberalization challenges the neo liberal claim that free market policies bring prosperity and economic development Bahramitash focuses particularly on Southeast Asia where expansion of free markets has led to high GNP per capita growth over the past few decades Focusing on this region the book examines the economic policies adopted in Taiwan Indonesia and the Philippines Drawing upon state centred theories the author argues that limiting the role of the state has been responsible for growing poverty especially among women Seventy percent of those earning less than a dollar a day are women and poverty among rural women is growing much faster than it is among men In order to reverse economic liberalization the state has to be brought back into the economy as a major player and become responsible for providing welfare for its citizens This volume argues in favour of a system that incorporates women s groups into the decision making process of the state while ensuring that the state remain both transparent and subject to the political advocacy of its citizens Bahramitash argues that ultimately the only way to stop liberalization which is trapping millions in poverty is to limit the role of markets through an elected and responsible state with embedded members of civil society such as women s groups **Development Without Freedom** Songok Han

Thornton,2016-12-05 Thanks to the inroads of IMFism and the war on terror America has lost much of the soft power it enjoyed in Asia during the early 1990s The winners by default are some of the world s most undemocratic development models such as Sino globalism Asian values took a hard blow from the Asian Crash but have returned in this even more virulent form The West is left sitting on the sidelines of a distinctly Asian contest of development with or without freedom Development Without Freedom explores this crucial trial by development which will define the politics of globalization for decades to come

Borneo Studies in History, Society and Culture Victor T. King,Zawawi Ibrahim,Noor Hasharina Hassan,2016-08-12 This edited book is the first major review of what has been achieved in Borneo Studies to date Chapters in this book situate research on Borneo within the general disciplinary fields of the social sciences with the weight of attention devoted to anthropological research and related fields such as development studies gender studies environmental studies social policy studies and cultural studies Some of the chapters in this book are extended versions of presentations at the Borneo Research Council s international conference hosted by Universiti Brunei Darussalam in June 2012 and a Borneo Studies workshop organised in Brunei in 2012 The volume examines some of the major debates and controversies in Borneo Studies including those which have served to connect post war research on Borneo to wider scholarship It also assesses some of the more recent contributions and interests of locally based researchers in universities and other institutions in Borneo itself The major strength of the book is the inclusion of a substantial amount of research undertaken by scholars working and teaching within the Southeast Asian region In particular there is an examination of research materials published in the vernacular notably the outpouring of work published in Indonesian by the Institut Dayakologi in Pontianak In doing so the book also addresses the urgent matters which have not received the attention they deserve specifically subjects themes and issues that have already been covered but require further contemplation elaboration and research and the scope for disciplinary and multidisciplinary collaboration in Borneo Studies The book is a valuable resource and reference work for students and researchers interested in social science scholarship on Borneo and for those with wider interests in Indonesia and Malaysia and in the Southeast Asian region

The Post-Colonial State in the Era of Capitalist Globalization Tariq Amin-Khan,2012-03-12 State formation in post colonial societies differed greatly from the formation of the Western capitalist state The latter has been extensively studied

while a coherent grasp of the post colonial state has remained elusive Amin Khan provides a critical historical and contemporary understanding of post colonial state formations in Asia and Africa and suggests how this process differed from the formation of states in Latin America In distinguishing between the post colonial state and the Western capitalist state the author argues that the unitary colonial state left a strong legacy on the decolonized states of Asia and Africa reinscribing their subordination vis vis Western states transnational corporations and multilateral institutions The indigenous elites decision at the time of decolonization to retain colonial state structures meant the readaptation of capitalism imperialism nexus to suit new post colonial realities which enabled the formation of clientelist relationships This post colonial reality and exploration of the contemporary context provides the basis of analyzing two post colonial state forms the capitalist and proto capitalist varieties which are examined using the case studies of India and Pakistan
