*Soft* Kristen Mae, 2019-05-10 She's ironed in every sense of the word from her slick golden hair to her white button down and prim A line skirt The woman across the restaurant counter has flint gray eyes chiseled planes for cheeks and dark hair cut like a boy's A key is tattooed on her forearm The energy between them is the same every time electric and undeniable Painful But there's nothing to be done about it A delicate gold cross hangs heavy around her neck an ever present reminder of her husband's edicts on what constitutes sin A reminder of her obligation to purity obedience and conformity A reminder that she must always follow the rules But today she will defy life's rules Today a gray eyed angel will unlock the door to all the things she hides from herself to a world she's always seen as inaccessible forbidden Today she will discover paradise

*Soft* Ferdinand Mount, 2025-09-11 An erudite immensely entertaining book Mount makes for a delightful guide Literary Review A sweeping tour of emotion and culture that spans centuries from renowned author and essayist Ferdinand Mount Whatever we think we feel you can be sure that the past has had a part to play in it In *Soft* Ferdinand Mount tells the millennium long history of emotion through vivid snapshots masterly storytelling and strange and wonderful historical anecdotes Revealing all the weird and wonderful ways people in the past expressed their grief and joy Mount explores the shifting importance societies have placed on empathy for the misfortunes of others Each seismic moment Mount argues from the French Revolution to Civil Rights has had a corresponding sentimental revolution that has fuelled great political turning points and come to define human civilization But during this long history powerful feelings have frequently come under attack No one wants to be accused of being sentimental its detractors call it soppy effeminate and populist the stuff of soap operas and pop songs The Reformation tried to stamp out excessive emotion the Victorians resolutely maintained their stiff upper lips and no one loathed sentimentality more than the modernists and yet today Mount argues it is not the stoics who are ruling the roost we are living in an age of emotion From the Occitan poets of the 12th century to Paul McCartney songs and modern debates around woke this is a witty insight into the story of emotions and the way they have swayed human history

*Soft Matter Physics* Mohamed Daoud, Claudine E. Williams, 2013-06-29 In a liquid crystal watch the molecules contained within a thin film of the screen are reorientated each second by extremely weak electrical signals Here is a fine example of soft matter molecular systems giving a strong response to a very weak command signal They can be found almost everywhere Soft magnetic materials used in transformers exhibit a strong magnetic moment under the action of a weak magnetic field Take a completely different domain gelatin formed from collagen fibres dissolved in hot water When we cool below 37 °C gelation occurs the chains joining up at various points to form a loose and highly deformable network This is a natural example of soft matter Going further rather than consider a whole network we could take a single chain of flexible polymer such as polyoxyethylene POE  $\text{CH}_2\text{CH}_2\text{O}$   $\text{N}_2\text{N}$  where  $N \approx 10$  for example in water Such a chain is fragile and may break under flow Even though hydrodynamic forces are very weak on the molecular scale their cumulated effect may be

**Soft Target** Zuhair Kashmeri,Brian McAndrew,2005-09-06 A provocative look at one of Canada s biggest tragedies On March 16 2005 almost twenty years after one of the biggest mass murders in Canadian Aviation history the Air India Case concluded with a verdict that authors Zuhair Kashmeri and Brian McAndrew predicted sixteen years ago when *Soft Target* was first published not guilty In this second edition the two offer a detailed foreword that brings readers up to date with some startling new information surrounding the twin bombings on June 23 1985 in the air over the Atlantic and on the ground in Japan which left 331 people dead They offer key details from the trial of Ripudaman Singh Malik and Ajaib Singh Bagri that took place in a specially built Vancouver courtroom leads that were not followed up and more details of India s intelligence service s clandestine interference in Canada They explain how their own prediction that justice would not be found because of a botched investigation came true and that only a public inquiry will offer closure to the families of the victims

*Understanding Soft Power in Africa* Oluwaseun Tella,2025-10-21 Negative images of Africa which define the continent as being riven with poverty crime or war are increasingly being challenged Examples of soft power such as Nigeria s Nollywood athletic successes in Kenya Rwanda s commercial diplomacy and South Africa s liberal constitution are all reasserting African agency and shaping more positive understandings of the continent This book considers the role and impact of soft power in the African context and how it relates to the 21st century scramble for Africa Bringing together leading scholars in the field this book delves into various aspects of soft power in Africa shedding light on how the continent s attractiveness is shaped by soft power in the continent s biggest states the small states and also the regional organisations such as the African Union AU Economic Community of

West African States ECOWAS Southern African Development Community SADC and East African Community EAC The book then goes on to assess the ways in which great powers most notably China the United States the United Kingdom Brazil and France are themselves deploying soft power in Africa in order to vie for influence resources and strategic advantages Understanding Soft Power in Africa will be an important read for researchers in political science international relations African studies and cultural studies as well as for African policymakers **Soft Living Architecture** Rachel

Armstrong,2018-09-06 Soft Living Architecture explores the invention of new architectures based on living processes It crafts a unique intersection between two fast developing disciplines biomimicry and biodesign in architecture and bioinformatics and natural computing in the natural sciences This is the first book to examine both the theory and methodology of architecture and design working directly with the natural world It explores a range of approaches from the use of life like systems in building design to the employment of actual growing and living cell and tissue cultures as architectural materials creating architecture that can change learn and grow with us The use of living architecture is cutting edge and speculative yet it is also inspiring a growing number of designers worldwide to adopt alternative perspectives on sustainability and environmental design The book examines the ethical and theoretical issues arising alongside case studies of experimental practice to explore what we mean by natural in the Anthropocene and raise deep questions about the nature of design and the design of nature This provocative and at times controversial book shows why it will become ever more necessary to embrace living processes in architecture if we are to thrive in a sustainable future **Soft Men, Hard Times** Conrad
