Red Coat, Green Machine Charles Kirke, 2011-11-03 How different were the men who fought at Blenheim and at Goose Green Is there a human thread that connects the redcoat of 300 years ago with the British soldier of today What would they find in common if they faced a common foe This book is about the people in the Army and the very human interactions between them in their daily lives It marries the disciplines of Social Anthropology and Military History to provide a novel way of looking at the anatomy of the British Army at unit level from an entirely human perspective Concentrating on the attitudes expectations and concerns expressed by the people involved it sets out a set of simple models of life at regimental duty that can be used to describe analyze and explain their behaviour over the past 300 years The book is grounded on what soldiers of all ranks have said using the author's research interview material for the modern witnesses and memoirs diaries and letters published and unpublished for earlier ones

Complexity and Public Policy Robert Geyer, Samir Rihani, 2012-09-10 This book provides a clear concise and readable introduction to complexity thinking its

application to the social sciences and public policy and the relevance of some of its various tools to those fields of politics health the international realm development planning and terrorism The authors argue that the foundation for many of the current crises in these areas can be traced to the attempt by social scientists and policy makers to treat these systems and processes as fundamentally orderly predictable and controllable By providing an overview of complex systems a practical introduction to basic concepts and tools of these systems and examples for understanding and managing them in real life policy situations they provide an exciting new perspective for rethinking our basic approaches to the social sciences and for understanding and managing the increasingly interdependent world of public policy The book is vital reading for students and scholars of the social sciences and public policy and also policymakers and the policy actor audience Armed Forces, Soldiers and Civil-Military Relations Gerhard K mmel, Giuseppe Caforio, Christopher Dandeker, 2009-02-01 It is an honor for us to introduce this collection of essays which is dedicated to an old friend and colleague who is no longer with us It is an honor but also a pleasure because we feel like continuing a dialogue with J rgen one that has never broken down over the years revisiting and recalling the different places and occasions where we met discussed collaborated and had fun We that is Giuseppe Caforio Christopher Dandeker and Gerhard K mmel who have been friends and or colleagues of and research collaborators with J rgen and who represent three prominent institutions and organizations with which J rgen worked felt that this book is something we owe to J rgen and we are grateful that many people who at different times and at different places had contact with J rgen and his work were willing to contribute a chapter to this anthology Most of J rgen s studies professional work and research activities took place at the Bundeswehr Institute of Social Sciences SOWI J rgen born in 1938 had joined the Bundeswehr in 1957 and had already worked at the SOWI s predecessor institution the Scientific Institute for Education in the Armed Forces from 1971 onwards after having finished his university studies Since this institute was renamed SOWI in 1974 J rgen belonged to the first generation of researchers that worked at the SOWI **Never Done** Erin Hill, 2016-10-05 Histories of women in Hollywood usually recount the contributions of female directors screenwriters designers actresses and other creative personnel whose names loom large in the credits Yet from its inception the American film industry relied on the labor of thousands more women workers whose vital contributions often went unrecognized **Never Done** introduces generations of women who worked behind the scenes in the film industry from the employees wives who hand colored the Edison Company s films frame by frame to the female immigrants who toiled in MGM s backrooms to produce beautifully beaded and embroidered costumes Challenging the dismissive characterization of these women as merely menial workers media historian Erin Hill shows how their labor was essential to the industry and required considerable technical and interpersonal skills Sketching a history of how Hollywood came to define certain occupations as lower paid women s work or feminized labor Hill also reveals how enterprising women eventually gained a foothold in more prestigious divisions like casting and publicity Poring through rare archives and integrating the firsthand accounts of women

employed in the film industry the book gives a voice to women whose work was indispensable yet largely invisible As it traces this long history of women in Hollywood *Never Done* reveals the persistence of sexist assumptions that even today leave women in the media industry underpraised and underpaid For more information <http://erinhill.squarespace.com>
