History of Modern Political Thought in East Central Europe Balázs Trencsenyi, Michal Kopeček, Luka Lisjak

Gabrijelčič, Maria Falina, Mónika Baár, 2018-11-10 A History of Modern Political Thought in East Central Europe is a synthetic work authored by an international team of researchers covering twenty national cultures and 250 years It goes beyond the conventional nation centered narratives and presents a novel vision especially sensitive to the cross cultural entanglement of political ideas and discourses Its principal aim is to make these cultures available for the global market of ideas and revisit some of the basic assumptions about the history of modern political thought and modernity as such The present volume is the final part of the project following Volume I Negotiating Modernity in the Long Nineteenth Century and Volume II Part I Negotiating Modernity in the Short Twentieth Century 1918 1968 OUP 2018 Its starting point is the defeat of the vision of socialism with a human face in 1968 and the political discourses produced by the various consolidation or normalization regimes It continues with mapping the exile communities and domestic dissidents critical engagement with the local democratic and anti democratic traditions as well as with global trends Rather than achieving the coveted end of history however the liberal democratic order created in East Central Europe after 1989 became increasingly contested from left and right alike Thus instead of a comfortable conclusion pointing to the European integration of most of these countries the book closes with a reflection on the fragility of democracy in this part of the world and beyond **Totalitarianism and the**

The book emphasizes the period since the mid nineteenth century when a national movement calling for Estonian cultural and political autonomy began to emerge. During the two world wars Estonia gained and lost political self determination. Yet a modern Estonian culture was firmly established and a strong sense of national identity survived the Soviet era.

The Architecture of Democracy Andrew Reynolds, 2002-03-14. Democratic design is increasingly seen as the key to crafting stability in the fragile states of the developing world. Getting the democratic institutions right may not guarantee success but getting them wrong has led to violent collapse in many socially divided states. *The Architecture of Democracy* brings together both theory and case study evidence to provide the reader with an excellent overview of the cutting edge of academic debate and its practical implications for democratic design in the 21st century. The discipline of constitutional engineering reached maturity in the 1990s with theories of ethnic polarization and democratic conflict management being applied in trouble spots across the globe. Andrew Reynolds brings together the leading lights of the discipline to discuss the successes and failures of constitutional design. The two icons of modern constitutional design, Arend Lijphart and Donald Horowitz, lead off by debating their own contributions to the field. Then Olga Shvetsova, Timothy Frye and Jos Antnio Cheibub present important new evidence from Europe, the Central and Eastern Europe, Asia and Latin America. Steven Solnick, Yash Ghai, Pippa Norris and Rein Taagepera analyze the effects of presidential and parliamentary systems, issues of federalism and autonomy and the varying impact of electoral systems. The book concludes with Brij Lal's case study of Fiji, Brendan O'Leary on Northern Ireland, Bereket Habte Selassie on Eritrea, William Liddle on Indonesia, Rotimi Suburu and Larry Diamond on Nigeria and David Stuligross and Ashutosh Varshney on India. *The Architecture of Democracy* is the culmination of the study of constitutional engineering in the third wave of democracy and sets parameters for this crucial research as democracy diffuses across the world.

The Baltic States Romuald Misiunas, Rein Taagepera, 1993-10. Describes and analyzes how the Baltic nations survived 50 years of social disruption, language discrimination and Russian colonialism and the effect of the Baltic states' stubborn invincibility on the Soviet Union. The Power of Song Guntis Šmidchens, 2014-01-01. *The Power of Song* shows how the people of Estonia, Latvia and Lithuania confronted a military superpower and achieved independence in the Baltic Singing Revolution. When attacked by Soviet soldiers in public displays of violent force, singing Balts maintained faith in nonviolent political action. More than 110 choral, rock and folk songs are translated and interpreted in poetic, cultural and historical context.
