Hacking Diversity Christina Dunbar-Hester,2019-12-10

We regularly read and hear exhortations for women to take up positions in STEM The call comes from both government and private corporate circles and it also emanates from enthusiasts for free and open source software FOSS i e software that anyone is free to use copy study and change in any way Ironically rate of participation in FOSS related work is far lower than in other areas of computing A 2002 European Union study showed that fewer than 2 percent of software developers in the FOSS world were women How is it that an intellectual community of activists so open in principle to one and all a community that prides itself for its enlightened politics and its commitment to social change should have such a low rate of participation by women This book is an ethnographic investigation of efforts to improve the diversity in software and hackerspace communities with particular attention paid to gender diversity advocacy Times of Convergence. Technologies Across Learning Contexts Pierre Dillenbourg, Marcus Specht, 2008-09-08 The European Conference on Technology Enhanced Learning EC TEL 2008 was the third event of a series that started in 2006 The two first editions were organized by Pro Learn <http://www.prolearn-project.org> a European Network of Excellence In 2008 several members of Kaleidoscope the other European Network of Excellence <http://www.noekaleidoscope.org> pub joined as co chair committee members reviewers and authors These two networks are no longer funded but our aim was to turn EC TEL into a sustainable series of high quality events and thereby to contribute to the scientific landscape of technology enhanced learning A new network named STELLAR will be launched in 2009 with members from both existing networks as well as new members and will support the future editions of this conference The scope of EC TEL 2008 covered the different fields of learning technologies e cation psychology computer science The contributions in this volume address the sign of innovative environments computational models and architectures results of empirical studies on socio cognitive processes field studies regarding the use of technologies in context collaborative processes pedagogical scenarios reusable learning objects and emerging objects groups and communities learning networks interaction analysis metadata personalization collaboration scripts learning adaptation collaborative environments resources tangible tools as well as learning management systems Recent Trends and Developments in Social Software John Breslin, Thomas N.
