Designing in Times of Crisis Jorge Cruz Pinto, Ljiljana Čavić, Hugo Lopes Farias, Luis Miguel Ginja, 2025-03-11

Designing in Times of Crisis offers insights, visions and strategies for architects and urban designers to question and respond to the crises and challenges of the contemporary anthropocentric world. The book highlights the urgency of addressing global crises and encourages architects and urban designers to consider new approaches related to gender equity, city ethics and fundamental human rights. It promotes the adoption of sustainable practices that heed the social, economic and environmental impacts of their work, particularly focusing on Portuguese and Brazilian contexts. The book fosters new thinking and practices to provide a comprehensive overview of the challenges and opportunities facing contemporary architecture and urban design. It investigates how these disciplines can adapt to the fluidity of the digital age, respond to climate change and embrace social justice, all while maintaining a commitment to innovation and sustainability. The book is divided into two parts: Envisioning and Applying. The first explores various urban and architectural proposals triggered by climate change and contemporary social issues. The second focuses on different experimentations in architectural and urban design, building techniques, dwelling and teaching during the COVID-19 pandemic, as well as citizenship formation. This timely research is relevant for students, researchers and practitioners interested in architecture, urban planning and sustainable design. **Publications**

"Cuidado!" in urban Brazil Han Hui (York)

Tseng, 2022-03-30 Cuidado Be careful is one of the most frequent sayings I received along my urban life in Brazil. This dissertation focuses on analyzing the safety advice and warnings that I received in two urban places: the middle class neighborhood in the South Wing of Brasília and the favela Rocinha in Rio de Janeiro, where I stayed most of the time. Putting myself as the method and as the subject, auto ethnography is applied in this work to narrate my life experience. From my position as a foreigner in Brazil, I make a comparison regarding safety and violence in two distinct urban places and discuss the urban space, public security and violence in Brazil, as well as my own sentiments towards danger and fear. Throughout the exploration, different elements in Brazilian society are involved and elaborated on, including gender, age, ethnicity, class, status, place-based identity, social standing and family life. **The Syntax of Spoken Brazilian Portuguese** Earl W. Thomas, 1969

Increased personal contact among people of all parts of the world has underscored the inadequacy of traditional language study to meet contemporary communications needs. Linguistic science in recent years has responded to this breakdown of communications by emphasizing spoken versus literary language in the teaching of foreign languages. Very real differences do exist between what is spoken and what is written in virtually every language. In Brazilian Portuguese, especially, the gulf between the two is wide. In many cases, the most cultured Brazilian is unable to comprehend with ease Brazilian literature written only fifty years ago. **THE SYNTAX OF SPOKEN BRAZILIAN PORTUGUESE** is the first thorough analysis of the spoken language of contemporary Brazil in English for students and teachers of the language. Useful as a text in advanced language

courses the work is intended primarily for reference and as a research aid to future authors of Portuguese language textbooks
