**Soldiers & Sled Dogs** Charles L. Dean, 2005 Sled dogs have been serving humans since they were first tamed and broken to the trace thousands of years ago Their history of supporting soldiers is much more recent and for all its drama and heroism remains little known This hundred year history of canine military service from the frozen reaches of Alaska to the snowy battlefields of World Wars I and II is told fully for the first time in this book by former army officer and longtime sled dog aficionado Charles L Dean By way of original army documents interviews with the last living dog drivers and never before published photographs Dean s book tells a story that begins in Alaska traverses two world wars and the Cold War era and ends in the present day Danish sledge patrol in Greenland Here are the sled dogs drafted from Alaska and trained by French troops for use in the Vosges Mountains improvised alpine sled dogs used by the Italians in the Great War those deployed by the German SS in World War II and others training in Montana s Camp Rimini Colorado s Camp Hale and Nebraska s Fort Robinson From the nitty gritty of the making of a canine division to the high drama of dogs conducting daring rescues and parachuting to their destinations this book richly supplies a missing chapter in military history and in the story of man s best friend at war Prologue ,2006 *The Dogs of War* Lisa Rogak, 2011-10-25 The most comprehensive book I have ever read on military dogs it exemplifies the indomitable spirit of the dog ever selfless loyal to a fault Steve Duno author of *Last Dog on the Hill* An incredible story of the largely unseen but vital role that dogs play in our armed forces Lisa Rogak s *The Dogs of War* is a must read for animal lovers everywhere Military working dogs gained widespread attention after Cairo participated in the SEAL Team 6 mission that led to Osama bin Laden s death Before that few civilians realized that dogs served in combat let alone that they could parachute from thirty thousand feet up *The Dogs of War* reveals the amazing range of military jobs that our four legged soldiers now perform examines the dogs training and equipment and sets the record straight on those rumors of titanium teeth You ll find heartwarming stories of the deep bond that dogs and their handlers share with each other and learn how soldiers and civilians can help the cause by fostering puppies or adopting retirees **Air Force Magazine** ,2005 **The Animal in Ottoman Egypt** Alan Mikhail, 2014 Animals in rural Egypt became enmeshed in social relationships and made possible many tasks otherwise impossible Rather than focus on what animals represented or symbolized Mikhail discusses their social and economic functions as Ottoman Egypt cannot be understood without acknowledging animals as central shapers of the early modern world **Empire of Dogs** Aaron Skabelund, 2011-12-15 In 1924 Professor Ueno Eizaburo of Tokyo Imperial University adopted an Akita puppy he named Hachiko Each evening Hachiko greeted Ueno on his return to Shibuya Station In May 1925 Ueno died while giving a lecture Every day for over nine years the Akita waited at Shibuya Station eventually becoming nationally and even internationally famous for his purported loyalty A year before his death in 1935 the city of Tokyo erected a statue of Hachiko outside the station The story of Hachiko reveals much about the place of dogs in Japan s cultural imagination In the groundbreaking

Empire of Dogs Aaron Herald Skabelund examines the history and cultural significance of dogs in nineteenth and twentieth century Japan beginning with the arrival of Western dog breeds and new modes of dog keeping which spread throughout the world with Western imperialism He highlights how dogs joined with humans to create the modern imperial world and how in turn imperialism shaped dogs bodies and their relationship with humans through its impact on dog breeding and dog keeping practices that pervade much of the world today In a book that is both enlightening and entertaining Skabelund focuses on actual and metaphorical dogs in a variety of contexts the rhetorical pairing of the Western colonial dog with native canines subsequent campaigns against indigenous canines in the imperial realm the creation maintenance and in some cases restoration of Japanese dog breeds including the Shiba Inu the mobilization of military dogs both real and fictional and the emergence of Japan as a pet superpower in the second half of the twentieth century Through this provocative account Skabelund demonstrates how animals generally and canines specifically have contributed to the creation of our shared history and how certain dogs have subtly influenced how that history is told Generously illustrated with both color and black and white images Empire of Dogs shows that human canine relations often expose how people especially those with power and wealth use animals to define regulate and enforce political and social boundaries between themselves and other humans especially in imperial contexts

*Animals in the Military* John M. Kistler, 2011-06-16 This book pays tribute to the unrecognized warriors and unsung heroes of human warfare millions of animals from a surprising variety of species ranging from rodents to dolphins to llamas When one thinks of war armies of soldiers and assaults with bullets and bombs delivered by deadly machinery typically come to mind Throughout human history however animals have also played significant roles in our armed conflicts In *Animals in the Military* From Hannibal's Elephants to the Dolphins of the U S Navy author John M Kistler examines these contributions describing the work of animals in human warfare throughout time from lowly insects to birds to elephants Drawing on both ancient and modern sources the book reveals the full scope of heroics and horror committed by and against animal warriors in three unique areas animals in combat animals in support and animals in incidental and experimental roles Each chapter describes a single species chronologically recounting its fascinating place in human warfare over time from insects used as stinging projectiles to message delivering pigeons
