A Companion to Carmen Martín Gaité Catherine O'Leary, Alison Ribeiro de Menezes, 2014-08-21 A comprehensive examination of the full range of Carmen Martín Gaité's work Carmen Martín Gaité produced a large body of work in various genres over the course of her five decade career though she is primarily known as a novelist short story writer and social commentator Her work at times reflects and at times defies the pattern of development in Spanish fiction since the 1950s This Companion offers a re-reading of Martín Gaité's works emphasizing her early experimentalism which culminated in mid-career works notably *El cuarto de atrás* and stressing how in the late 1960s and early 1970s when the majority of Spanish novelists were engaged in a critique of history Martín Gaité turned to the writing of cultural history exploring its intersection with narrative fiction in a positivist rather than a nihilistic mode Her exploration of gender issues particularly mother-child relations towards the end of her career anticipated new directions in feminist thought Discussions of often ignored works such as poetry drama children's literature and literary translations offer insight into sidelined aspects of this writer's literary output Catherine O'Leary is Reader in Spanish at the University of St Andrews Alison Ribeiro de Menezes is Professor of Spanish at the University of Warwick
