Solidarity And Poland Impacts East And West:

Solidarity and Poland Steve W. Reiguam,1988-06-10

The State against Society Grzegorz Ekiert,1996-09-30

Classical images of state socialism developed in contemporary social sciences were founded on simple presuppositions State socialist regimes were considered to be politically stable due to their pervasive institutional and ideological control over the everyday lives of their citizens impervious to reform and change and representative of extreme political and economic dependency Despite their contrasting historical experiences they have been treated as basically identical in their institutional design social and economic structures and policies Grzegorz Ekiert challenges this notion in a comparative analysis of the major political crises in post 1945 East Central Europe Hungary 1956 63 Czechoslovakia 1968 76 and Poland 1980 89 The author maintains that the nature and consequences of these crises can better explain the distinctive experiences of East Central European countries under communist rule than can the formal characteristics of their political and economic systems or their politically dependent status He explores how political crises reshaped party state institutions redefined relations between party and state institutions altered the relationship between the state and various groups and organizations within society and modified the political practices of these regimes He shows how these events transformed cultural categories produced collective memories and imposed long lasting constraints on mass political behavior and the policy choices of ruling elites These crises shaped the political evolution of the region produced important cross national differences among state socialist regimes and contributed to the distinctive patterns of their collapse

The Impact of Governments on East-West Economic Relations Steven Elliott-Gowerd,2016-07-27 In this volume the perceptive reader will find many clues to the future of the Soviet Union Eastern Europe East West economic relations and the impact of governments in this area The authors are aware of the mistakes of the past the limitations of centralized planning the dangers and the futility of confrontation and the global significance of the new roles that governments must play in the transitional period of political and economic reform in the East

Intermarium Marek Jan Chodakiewicz,2017-09-08 History and collective memories influence a nation its culture and institutions hence its domestic politics and foreign policy That is the case in the Intermarium the land between the Baltic and Black Seas in Eastern Europe The area is the last unabashed rampart of Western Civilization in the East and a point of convergence of disparate cultures Marek Jan Chodakiewicz focuses on the Intermarium for several reasons Most importantly because as the inheritor of the freedom and rights stemming from the legacy of the Polish Lithuanian Ruthenian Commonwealth it is culturally and ideologically compatible with American national interests It is also a gateway to both East and West Since the Intermarium is the most stable part of the post Soviet area Chodakiewicz argues that the United States should focus on solidifying its influence there The ongoing political and economic success of the Intermarium states under American sponsorship undermines the totalitarian enemies of freedom all over the world As such the area can act as a springboard to addressing the rest of the successor states including those in the Caucasus Central Asia and the Russian

Federation Intermarium has operated successfully for several centuries. It is the most inclusive political concept within the framework of the Commonwealth. By reintroducing the concept of the Intermarium into intellectual discourse, the author highlights the autonomous and independent nature of the area. This is a brilliant and innovative addition to European Studies and World Culture.

The Near Abroad Zbigniew Wojnowski, 2017-06-16. From the Soviet perspective, Eastern Europe was the near abroad, more accessible than the capitalist West, yet also unambiguously foreign. Observing their western neighbours, citizens of the USSR developed new ideas about the role of states, borders, and national identities in the Soviet empire. In *The Near Abroad*, Zbigniew Wojnowski traces how Soviet Ukrainian identities developed in dialogue and confrontation with the USSR's neighbours in Eastern Europe. The author aptly challenges the dominant chronologies of late Soviet history by arguing that patriotism framed heated debates about the future of the Soviet state, even amongst the rising tide of cynicism and disengagement from public life. Wojnowski's insightful analysis illuminates the mental geographies that continue to shape relations and conflicts between Russia, Ukraine, and Eastern Europe to this very day. Unlike most other histories of Ukraine, *The Near Abroad* does not reduce Ukrainian nationalism to anti-Soviet views and behaviours.

[Soviet-East European Relations as a Problem for the West](#) Richard D. Vine, 2022-12-28. *Soviet East European Relations as a Problem for the West* (1987) analyses the evolution of Eastern Europe both internally and in its relationship with the Soviet Union: the development of relations between the two superpowers and the equilibrium between the two security systems. It examines how these changes have altered Western policy options, how internal Western frictions arising from differing interpretations of these developments can best be managed, and the most appropriate future policies both to achieve Western goals and to benefit Eastern Europe.

Backwardness and Modernization: Poland and Eastern Europe in the 16th-20th Centuries Jacek Kochanowicz, 2018-01-31. The subject of this book is the economic backwardness of Poland and Eastern Europe in the modern era. The studies in the first part analyse various aspects of the region's economic and social history in the period from the 16th to the 20th centuries, such as the nature of peasant economics, the character of economic evolution, and the ambiguity of social and economic relations between Poland and the West. The second part deals with the change following the fall of state socialism. Papers in this part argue that for understanding the present, it is necessary to take into consideration historical legacies. It is also important to look at the process of this recent change comparatively, both within Eastern Europe and comparing this region with other parts of the world. Professor Kochanowicz's contention in these essays is that the so-called transformation has had to cope not only with the effects of state socialism but also with a much longer legacy of backwardness.

[The Impact of Eastern Europe on Soviet Policy Toward Western Europe](#) A. Ross Johnson, RAND Corporation, 1986. This report examines the ways in which Soviet control of Eastern Europe has both contributed to and detracted from the Soviet Union's pursuit of foreign policy goals in Western Europe. In successive sections, it 1) reviews the highlights of past USSR-East European-West European interactions and outlines general characteristics of the triangular

relationship 2 examines the impact of the Polish crisis and 3 traces the East European foreign policy activity related to NATO's 1983 decision to deploy intermediate range nuclear forces and analyzes the emergence of a group of East European states East Germany Hungary Bulgaria and Romania whose policies differed from those of the Soviets The author suggests that while Eastern Europe serves as a constraint on Soviet relations with Western Europe Western Europe also acts as a constraint on Soviet policy toward Eastern Europe Author Poland and European East-West Cooperation in the 1970s Aleksandra Komornicka, 2023-09-20 This book offers an international reading of the Polish socialist regime's history in the 1970s and its opening up to the West It bridges Poland's socialist domestic history with critical developments of the global and European 1970s including détente in the Cold War western European integration and globalisation In this period of international transformations socialist Poland under Edward Gierek's leadership multiplied its economic and political contacts with capitalist countries especially western Europe and became a leader of East West cooperation among Council for Mutual Economic Assistance and Warsaw Pact members Relying on sources from public and corporate archives in five different European states the book demonstrates both that the global political and economic transformations of that period were critical for the decision making process in Poland and moreover that the national socialist elites participated in shaping these transformations By looking at the goals and expectations of the Polish socialist elites and their practices of political and economic exchanges with western Europe the book explains the logic which drove the socialist regime into entanglement with the West As is shown here this entanglement proved inextricable and critical for the socialist regime's failure and Poland's political and economic future This book will be of much interest to students of European history cold war studies socialism studies and International Relations *Dialogue and Universalism*, 1995 Bulletin of the Atomic Scientists, 1982-05 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world *Poland* George Sanford, Adriana Gozdecka-Sanford, 1993 **Bulletin of the Atomic Scientists**, 1982-05 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world **The Helsinki Effect** Daniel C. Thomas, 2018-06-05 Human rights norms do matter Those established by the Helsinki Final Act contributed directly to the demise of communism in the former East bloc contends Daniel Thomas This book counters those skeptics who doubt that such international norms substantially affect domestic political change while explaining why when and how they matter most Thomas argues that the Final Act signed in 1975 transformed the agenda of East West relations and provided a common platform around which opposition forces could mobilize Without downplaying other factors Thomas shows that the norms established at Helsinki undermined the viability of one party Communist rule and thereby contributed significantly to the largely peaceful and democratic changes of 1989 as

well as the end of the Cold War Drawing on both governmental and nongovernmental sources he offers a powerful Constructivist alternative to Realist theory s failure to anticipate or explain these crucial events This study will fundamentally influence ongoing debates about the politics of international institutions the socialization of states the spread of democracy and not least about the balance of factors that felled the Iron Curtain It casts new light on Solidarity Charter 77 and other democratic movements in Eastern Europe the sources of Gorbachev s reforms the evolution of the European Union U S foreign policy and East West relations in the final decades of the Cold War The Helsinki Effect will be essential reading for scholars and students of international relations international law European politics human rights and social movements

Solidarity's Secret Shana Penn,2005 The first book to document women s crucial role in the fall of Poland s communist regime *Polish Debt Crisis* United States. Congress. Senate. Committee on Appropriations. Subcommittee on Foreign Operations,1983 *The Polish Crisis and Relations with Eastern Europe, 1979-1982* Isabelle Tombs,Richard Smith,2017-03-16 This volume presents a collection of diplomatic documents describing Britain s relations with Eastern Europe from 1979 to 1982 with special focus on the crisis in Poland After coming to power in 1979 the Conservative Government of Margaret Thatcher reaffirmed a policy of differentiation between the Soviet Union and the rest of Eastern Europe and between individual countries concurrently it encouraged states to exercise a limited amount of independence This policy was soon put to the test when in 1980 Solidarno the Solidarity trade union led by Lech Wa sa challenged the power of the Party state in Poland Political demands social unrest and economic crisis culminated in the imposition of martial law in December 1981 finally suspended in December 1982 The volume maps the UK response in consultation with Western partners to the unfolding crisis in Poland the threat of Soviet intervention and the impact on other Communist states in Europe The volume also provides a flavour of bilateral UK relations with Albania Bulgaria Czechoslovakia the German Democratic Republic Hungary Romania and Yugoslavia highlighting themes such as human rights and trade This volume will be of great interest to students of British Politics Eastern European Politics Cold War History Diplomacy Studies and International Relations in general **East Germany And The Warsaw Alliance** Daniel Moreton,2019-05-20 This volume examines the role and influence of the GDR in Eastern Europe focusing on the changing nature of the German problem and the impact of East Germany on the pattern of relations within the Warsaw alliance from 1967 to the present After tracing the origins and development of the various issues that make up the contemporary German problem History of Western Society Since 1300 for Advanced Placement John P. McKay,Bennett D. Hill,John Buckler,Clare Haru Crowston,Merry E. Wiesner-Hanks,Joe Perry,2010-10-13 A History of Western Society continues to capture the attention of AP European history students because it recreates the lives of ordinary people and makes history memorable Brought to you by the highly regarded editors at Bedford St Martins every element of the text has been rethought reconsidered and revised to bring the original vision to a new generation of students The tenth edition continues to tie social history to the broad sweep of politics

and culture heightening its attention to daily life and strengthening the treatment of European exploration With a dynamic new design new special features on visual evidence and a robust companion reader A History of Western Society helps AP students master the concepts and content of European history *Bulletin of the Atomic Scientists* ,1995-07 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world
