Soliloquies And Letters:

Monteverdi and his Contemporaries Tim Carter, 2024-10-28 This collection of reprinted essays takes the trends of the author's Music Patronage and Printing in Late Renaissance Florence also in the Variorum series in a somewhat different direction If the focus there was primarily on archival documents here it is on the actual music The starting point is similar the rise of the new music for solo voice and basso continuo in late sixteenth and early seventeenth century Florence in particular the songs of Giulio Caccini But it moves on to broader aesthetic issues crystallized in contemporary theoretical debate and musical practice not least the rise of aria based styles and concludes with a series of studies of Claudio Monteverdi's works for the theatre including the operas *Il ritorno d'Ulisse in patria* 1640 and the ever problematic *L'incoronazione di Poppea* 1643

Shakespeare through Letters David M. Bergeron, 2020-10-14 In *Shakespeare through Letters* David M Bergeron analyzes the letters found within Shakespeare's comedies histories and tragedies arguing that the letters offer the principal intertextual element in the plays as text in their own right Bergeron posits that Shakespeare's theater itself exists at the intersection of oral and textual culture which the letters also exhibit as they represent writing reading and interpretation in a way that audiences would be familiar with in contrast with the illustrious culture of kings queens and warriors This book demonstrates that the letters profound or perfunctory constitute texts that warrant interpretation even as they remain material stage props impacting narrative development revealing character and enhancing the play's tone Scholars of literature theater and history will find this book particularly useful

Gabrielle Starr, 2015-11-01 Eighteenth century British literary history was long characterized by two central and seemingly discrete movements the emergence of the novel and the development of Romantic lyric poetry In fact recent scholarship reveals that these genres are inextricably bound constructions of interiority developed in novels changed ideas about what literature could mean and do encouraging the new focus on private experience and self perception developed in lyric poetry In *Lyric Generations* Gabrielle Starr rejects the genealogy of lyric poetry in which Romantic poets are thought to have built solely and directly upon the works of Chaucer Spenser Shakespeare and

Milton She argues instead that novelists such as Richardson Haywood Behn and others while drawing upon earlier lyric conventions ushered in a new language of self expression and community which profoundly affected the aesthetic goals of lyric poets Examining the works of Cowper Smith Wordsworth Coleridge and Keats in light of their competitive dialogue with the novel Starr advances a literary history that considers formal characteristics as products of historical change In a world increasingly defined by prose poets adapted the new forms characters and moral themes of the novel in order to reinvigorate poetic practice [Contemporary British Literature](#) John Matthews Manly,Edith Rickert,1928 *The Whole Works of the Rev.
