Some Detached Houses:

Village Housing in the Tropics Keith Harry Hinchcliff, 1969 *Report of the United States Housing Corporation*
United States. Bureau of Industrial Housing and Transportation, 1919 **Village Housing in the Tropics** Jane
Drew, Maxwell Fry, Harry L Ford, 2013-11-26 Tropical Architecture although now a highly contested and debated term is the
name given to European modern architecture that has been modified to suit the climatic and sometimes cultural context of
hot countries These hot countries were labelled the tropics and were often European colonies or countries that had recently
won their independence Fry Drew's book written on the threshold of the end of the British Empire was one of the first
publications to offer practical advice to architects working in the tropics based on the empirical studies they conducted
whilst based in British West Africa during the Second World War The book with its numerous illustrations plans and easy to
follow explanations became a key manual for all architects working in hot climates and in particular those tasked with
designing dwellings and small town plans Although the Royal Engineers and Schools of Tropical Medicine had long been
designing and campaigning for better planning improved sanitation and had for example developed methods of cross
ventilation this book became an instant hit Tropical Architecture suddenly bloomed into its own distinct canon and by 1955
the Architectural Association had set up a course specialising in tropical architecture led for a short time by Fry Village
Housing in the Tropics had a significant impact when it was written on a profession that had had little guidance on working
in hot climates and on architecture students and universities who began to modify their courses to accommodate different
conditions Although from a post colonial perspective many scholars now associate this architecture as being a continuation of
the Imperial mission this does not reduce the significance of the publication Indeed Tropical Architecture is regarded as
being the forerunner to green architecture developing passive low energy buildings that are tailored to suit their climate and
built with local materials **Divided Tokyo** Tomoko Kubo, 2020-04-09 This book explores how and why Tokyo has been
divided over time in terms of living conditions First recent urban discourses that explain the transformation of Tokyo's urban
structure are examined along with social changes and the expansion of unequal residential conditions within the
metropolitan area Chapter 1 reviews 1 discussions on globalization neo liberalization and changes in housing policies 2
debates on the divided city 3 debates on the shrinking city and the urban lifecycle 4 discussion of the urban residential
environment from a social justice perspective and 5 family housing relationships in the post growth society Based on the
literature review the rest of the book is structured as follows Chapter 2 explains the changes in urban and housing policies
demography and socio economic conditions In Chapters 3 to 5 the background and characteristics of the growth of
condominium living in the city center are examined The next three chapters analyze the reality of shrinking suburbs using
case studies to demonstrate the increase in vacant housing and local responses toward shrinkage In Chapter 9 possible
solutions are proposed for dealing with problems related to urban shrinkage and the expanding gap in terms of the

availability of investments to stimulate urban development the residential environment and the population age structure in Japanese cities by comparing the author s findings and the literature review This book provides deep insights for urban and housing scholars urban planners policy decision makers and local communities that struggle with aging populations and urban shrinkage War Emergency Construction (housing War Workers): Organization, policies, transactions United States Housing Corporation,1919 **Passive and Low Energy Ecotechniques** Arthur Bowen,Simos Yannas,2013-09-03 Passive and Low Energy Ecotechniques PLEA presents the proceedings of the Third International PLEA Conference held in Mexico City Mexico on August 6 11 1984 The book includes papers on state of the art selected topics aimed at providing a basic knowledge country and regional or personal monographs to continue the exchange of national information which is an established feature of PLEA and position papers for the topic seminars The text also presents papers on vernacular shelter and settlement case studies of new buildings and retrofits urban and community planning and design photovoltaic systems implementation cooling systems modeling and simulation guidelines and tools for design and planning **Making It So** Patrick Stewart,2023-10-04 The long awaited memoir from iconic beloved actor and living legend Sir Patrick Stewart From his acclaimed stage triumphs to his legendary onscreen work in the Star Trek and X Men franchises Sir Patrick Stewart has captivated audiences around the world and across multiple generations with his indelible command of stage and screen Now he presents his long awaited memoir Making It So a revealing portrait of an artist whose astonishing life from his humble beginnings in Yorkshire England to the heights of Hollywood and worldwide acclaim proves a story as exuberant definitive and enduring as the author himself **Military Construction Appropriations** United States. Congress. House. Committee on Appropriations. Subcommittee on Military Construction Appropriations,1966 *Military Construction Appropriations for 1966* United States. Congress. House Appropriations,1965 **Reports from Select Committees of the House of Commons, and Evidence, Communicated to the Lords** Great Britain. Parliament. House of Lords,1842 Reports Great Britain. Commissioners on Proposed Division of Counties and Boundaries of Boroughs,1832 **The Compact City** Elizabeth Burton, Mike Jenks, Katie Williams,2003-09-02 This book presents the latest thinking on the benefits and dangers of higher density urban living It offers diverse opinions and research from a wide range of disciplines and gives an insight into both the theoretical debate and the practical challenges surrounding the compact city Essential reading for anyone with an interest in sustainable urban development **Studies on the 2011 Off the Pacific Coast of Tohoku Earthquake** Hiroshi Kawase,2013-09-20 The Tohoku earthquake on March 11 2011 officially designated the Off the Pacific Coast of Tohoku Japan Earthquake by the Japan Meteorological Agency caused an unprecedentedly severe disaster in the northeastern part Tohoku of the Japanese island of Honshu This first volume of the series Natural Disaster Science and Mitigation Engineering DPRI Reports covers various aspects of investigations of scientific findings as well as issues related to the disaster and the subsequent evacuation necessitated by the earthquake The series presents recent advances in natural disaster sciences and

mitigation technologies developed in Japan which will be valuable for the mitigation of disasters of a similar kind resulting from future events around the world

The Dynamics of Property Location Russell Schiller, 2003-07-13 Why is property located where it is and how has this process changed in recent years A number of factors such as social change and technological development have affected location and these are considered Value the way changing patterns are measured is examined and there is a discussion of rent contours The book considers location in the retail industry looking at the theory hierarchy clustering and dispersal The move to out of town sites with its three waves of decentralisation is described Central place theory dating from the 1930s is discounted as being obsolete and misleading Finally the book covers offices industrial and residential property

Urban Land and Property Markets in Sweden Thomas Kalbro, Hans Mattsson, 2018-05-20 Originally published in 1995 Land and Property Markets in Sweden looks at the growing demand for an understanding of the urban land and property markets in Sweden The book offers detailed accounts of the policy legislative and regulatory frameworks of urban land and property markets in Sweden explaining how the markets operate and interact with the planning systems It also incorporates a review of the second home market which is particularly well developed in Sweden Fully detailed case studies are included to illustrate land development issues and the processes of purchase and sale of properties

The Pitmen's Requiem Peter Crookston, 2014-01-05 Peter Crookston's book offers a beautifully written journalist's account of a Durham mining village and the Great Northern Coalfield woven around the life of Robert Saint the composer of *Gresford* a brass band composition commemorating an earlier mining disaster in which 256 workers died Crookston brings his formidable observational qualities and writing skills as a journalist to produce a gripping narrative with utterly compelling characters and a heart rending culmination in the demise of the mining industry under assault by Thatcher The story is told in a gentle unpretentious way frequently giving voice to the characters themselves many of whom the author knew personally or got to know in preparing the book Apart from capturing a critical moment in a disappearing world the book offers a vantage point from which to reflect on our own culture and what we have lost in post industrial Britain the loss of community which did so much to sustain and nurture those miners in their desperate plights This is as much a history of culture and place as much as it is biography a book that is at once an elegy and a tribute
