The Healing Heart for Communities Allison Cox, David Albert, 2009-03-01 The only book of its kind that demonstrates the power of storytelling to heal **Living Beyond** Ivan Rudolph, 2019-04-17 What happens when we die This is one of humankind s most important questions *Living Beyond* brings a fresh and exciting perspective to this enduring question Ivan Rudolph shares dramatic evidence supporting near death experiences This book is expertly written remarkably easy to read and enthusiastically recommended Jeffrey Long M D founder of the Near Death Experiences Research Foundation author of

the New York Times bestseller *Evidence of the Afterlife: The Science of Near Death Experiences*. What are Near Death Experiences (NDEs) and how do they fit in with Christianity? For over 40 years the author Ivan Rudolph has been conducting interviews studying hundreds of accounts and now has clarity about this mysterious phenomenon. The truth is surprising, exciting, and ultimately relevant for everyone. Did you know that there are at least 16 million Americans who have had an NDE, including celebrities like Goldie Hawn, Sharon Stone, Elizabeth Taylor, Nikki Sixx, Burt Reynolds, and many others? Did you know that they are a part of a huge family of 350 million returnees alive today? The problem is many returnees remain confused about their experience. They fear they will never feel normal again and seeking empathy seems impossible from loved ones that don't understand. This is not only a guide to help the confused, traumatized, and sometimes depressed returnees incorporate their experiences successfully back into their relationships and life on earth. The thoroughly researched text will help families and loved ones to provide support and understand what the returnee is going through. Very well presented with substantial, solid evidence, well explained point by point. From an Orthodox viewpoint, its theology is sound.

Father John D. Alton, Orthodox Priest *Beyond the Night* Nadine Farghaly, 2015-09-04. Werewolves, witches, vampires, demons, gods, zombies, and shape shifters: these are just a few examples of the monstrous that society is confronted with. Most people have some knowledge about these creatures and have had fleeting contact with ghosts, fairies, vampires, and goblins either in their imagination or while reading, watching, or interacting with other people, whether in reality or the online world. From Beowulf and Buffy to Freddy Krueger and Frankenstein's Monster, this collection highlights different aspects of the monstrous and discusses various ways in which they can be read, discussed, and understood. What does the mother in Beowulf really represent? How can the character of Zoey Redbird really be understood? What is the importance of memories in Buffy the Vampire Slayer? And what should we make of Terry Pratchett's undead creatures? And what role does the children-friendly vampire play? *Beyond the Night* offers a range of insights into these topics as well as many more. It presents the reader with a vast array of old and new creatures in popular culture, analysing the significance they have for wider society. This collection will also help readers to understand their favourite monsters better in relation to questions concerning sexuality, gender, social change, and otherness.

What Obituaries Don't Tell You Kathryn F. Weymouth PhD, 2013-09-20. The terminal diagnosis is given, the knock on the door comes, and someone you love is dying or has just died. Death happens every day, yet as one hospital chaplain said, "Most of the time we just live life as if it isn't an issue until it's in our face. It's not as if death is a secret. It's on the news and in the newspaper daily, but we don't talk about it very much, almost pretending as if it won't happen to us or our loved ones. But by not talking and not preparing, we make dying and death scarier and more difficult than it needs to be." That is one of the messages that the storytellers in *What Obituaries Don't Tell You: Conversations about Life and Death* want to impart. Talk and prepare is a theme repeated over and over. In these stories and interviews, you are sure to find people and narratives that are meaningful to you, helping you heal from loss, assuring you that you are not alone in your

experiences and allowing you to find your voice and speak your truth in your own conversations about life and death You may also be surprised Did you know that there is a strong correlation between whether a death is deemed good or bad easy or difficult and the relationships in a persons life including ones relationship to religious or spiritual beliefs Whether you are a person who has lost a loved one a person thinking about your own death and wanting to prepare for it or a student or professional preparing to or already working with issues of death in any way you may find that the information that helps you the most is not imparted to you in obituaries but in the stories behind the scenes

Beyond Belief Robert P. Vande Kappelle,2012-09-17 The current age marks the transition from modernity to postmodernity a period as impactful to the Western sensibility as any previous era The role of religion and the future of Christianity are at stake At this time of transition many thoughtful individuals find themselves at a quandary having reached a critical stage in their spiritual journey Prompted by academia science reason culture and their own experience they feel compelled to choose between the beliefs they inherited as children and the claims of science reason pluralism and secularism Beyond Belief suggests that one need not take an either or approach on these issues there is a better way one that embraces adventure and ambiguity science and religion reason and faith evolution and creation and finds ways to live creatively with realities for which there are no easy explanations Building on a paradigmatic journey of faith that involves three stages precritical critical and postcritical understanding Beyond Belief describes the quest for God and for authentic faith in the twenty first century The key point for this understanding is to replace belief with faith acknowledging that belief in doctrines is not central since they are themselves unprovable This new theological perspective requires rethinking many of our cherished doctrines including our understanding of God Jesus Scripture prayer miracles and revelation
