Jones, 2015-12-07 Postmodern Racial Dialectics is a collection of ten essays on African American philosophy Addressing issues as disparate as why there are no graduate programs in philosophy at the more than one hundred traditionally black colleges and universities in the U S to conceptions of Black utopianism to the nature of postmodern revolutions these essays are beyond the bounds of traditional racial discourse The essays are dialectical in the sense that they are conversations between personal histories between ideologies and between changing ways that the races talk to one another The book is postmodern in that it is beyond modernity's linear logic Postmodern Racial Dialectics is also a political entreaty for African Americans to be wary of conventional ways of thinking and to begin thinking transgressively beyond narrowly prescribed conceptions from both sides of the color line **Popular Music Autobiography** Oliver

Lovesey, 2021-12-02 The 1960s saw the nexus of the revolution in popular music by a post war generation amid demographic upheavals and seismic shifts in technology Over the past two decades musicians associated with this period have produced a large amount of important autobiographical writing This book situates these works in the forms of formal autobiographies and memoirs auto fiction songs and self fashioned museum exhibitions within the context of the recent expansion of interest in autobiography disability and celebrity studies It argues that these writings express anxiety over musical originality and authenticity and seeks to dispel their writers celebrity status and particularly the association with a lack of seriousness These works often constitute a meditation on the nature of postmodern fame within a celebrity obsessed culture and paradoxically they aim to regain the private self in a public forum **A Song For Everyone** John Langan, 2022-08-09 The definitive

biography of Creedence Clearwater Revival exploring the band's legendary rise to fame and how their music embodied the cultural landscape of the late 60s and early 70s From 1969 to 1971 as the United States convulsed with political upheaval and transformative social movements no band was bigger than Creedence Clearwater Revival They managed a two year barrage of top 10 singles and LPs that doubled as an ubiquitous soundtrack to one of the most volatile periods in modern American history and they remain a staple of classic rock radio and films about the era Yet despite their enduring popularity no book has ever sought to understand Creedence in conversation with their time A Song for Everyone finally tells that story

the thirteen year saga of an unassuming suburban quartet's journey through the wilds of 1960s pop and their slow accrual of a sound and ethos that were almost mystically aligned with the concerns of decade's end. Starting in middle school these Californian friends and brothers cut a working class path through the most expansive decade in American music playing R B country and rock n roll under a variety of names as each of those genres expanded and evolved. When they finally synthesized those styles under a new name in 1968 Creedence Clearwater Revival became instantly epochal then fell apart under the weight of personal grievances that dated back to adolescence. As musicians and as men they embodied the contradictions and difficulties of their time and those dimensions of their career have never been explored until now. Drawing on wide ranging research into the social and musical developments of 1959-1972, extensive original interviews with surviving Creedence members and associates and unpublished memoirs from people who knew the group closely, *A Song for Everyone* is the definitive account of a legendary and still beloved American band. At the same time it is also a cultural history of those same years from Elvis to Altamont, Eisenhower to Watergate seen through the eyes of four men who encapsulated them in song for all time, told by one of the rising figures in contemporary music writing.

**West of Center** Elissa Auther, Adam Lerner, 2011-11-02 In the heady and hallucinogenic days of the 1960s and 70s a diverse range of artists and creative individuals based in the American West from the Pacific coast to the Rocky Mountains and the Southwest broke the barriers between art and lifestyle and embraced the new hybrid sensibilities of the countercultural movement. Often created through radically collaborative artistic practices such works as Paolo Soleri's earth homes, the hand built architecture of the Drop City and Libre communes, Yolanda Lopez's political posters, the multisensory movement workshops of Anna and Lawrence Halprin and the immersive light shows and video based work by the Ant Farm and Optic Nerve collectives were intended to generate new life patterns that pointed toward social and political emancipation. In *West of Center* Elissa Auther and Adam Lerner bring together a prominent group of scholars to elaborate the historical and artistic significance of these counterculture projects within the broader narrative of postwar American art which skews heavily toward New York's avant garde art scene. This west of center countercultural movement has typically been associated with psychedelic art but the contributors to this book understand this as only one dimension of the larger artistically oriented socially based phenomenon. At the same time they reveal the disciplinary geographic and theoretical biases and assumptions that have led to the dismissal of countercultural practices in the history of art and visual culture and they detail how this form of cultural and political activity found its place in the West. A companion to an exhibition originating at the Museum of Contemporary Art Denver, this book illuminates how in the western United States the counterculture's unique integration of art practices, political action and collaborative life activities serves as a linchpin connecting postwar and contemporary artistic endeavors.

*Tear Down the Walls* Patrick Burke, 2021-05-10 From the earliest days of rock and roll white artists regularly achieved fame wealth and success that eluded the Black artists whose work had preceded and inspired them This dynamic continued into the 1960s even as the music and its fans grew to be more engaged with political issues regarding race In Tear Down the Walls Patrick Burke tells the story of white American and British rock musicians engagement with Black Power politics and African American music during the volatile years of 1968 and 1969 The book sheds new light on a significant but overlooked facet of 1960s rock white musicians and audiences casting themselves as political revolutionaries by enacting a romanticized vision of African

American identity These artists attempts to cast themselves as revolutionary were often na ve misguided or arrogant but they could also reflect genuine interest in African American music and culture and sincere investment in anti racist politics White musicians such as those in popular rock groups Jefferson Airplane the Rolling Stones and the MC5 fascinated with Black performance and rhetoric simultaneously perpetuated a long history of racial appropriation and misrepresentation and made thoughtful self aware attempts to respectfully present African American music in forms that white leftists found politically relevant In *Tear Down the Walls* Patrick Burke neither condemns white rock musicians as inauthentic nor elevates them as revolutionary The result is a fresh look at 1960s rock that provides new insight into how popular music both reflects and informs our ideas about race and how white musicians and activists can engage meaningfully with Black political movements
