**Once We All Had Gills** Rudolf A. Raff, 2012-07-16 In this book Rudolf A Raff reaches out to the scientifically queasy using his life story and his growth as a scientist to illustrate why science matters especially at a time when many Americans are both suspicious of science and hostile to scientific ways of thinking Noting that science has too often been the object of controversy in school curriculums and debates on public policy issues ranging from energy and conservation to stem cell research and climate change Raff argues that when the public is confused or ill informed these issues tend to be decided on religious economic and political grounds that disregard the realities of the natural world Speaking up for science and scientific literacy Raff tells how and why he became an evolutionary biologist and describes some of the vibrant and living science of evolution *Once We All Had Gills* is also the story of evolution writ large its history how it is studied what it means and why it has become a useful target in a cultural war against rational thought and the idea of a secular religiously tolerant nation

*The Original Thoroughbred Times Racing Almanac--2004* The Staff of Thoroughbred Times, Thoroughbred Times Staff, 2003-07 This Almanac is the ultimate reference guide to Thoroughbred racing containing statistics from the early days of the sport through the 2003 Triple Crown races

*Vexed with Devils* Erika Gasser, 2017-07-07 Stories of witchcraft and demonic possession from early modern England through the last official trials in colonial New England Those possessed by the devil in early modern England usually exhibited a common set of symptoms fits vomiting visions contortions speaking in tongues and an antipathy to prayer However it was a matter of interpretation and sometimes public opinion if these symptoms were visited upon the victim or if they came from within Both early modern

England and colonial New England had cases that blurred the line between witchcraft and demonic possession most famously the Salem witch trials While historians acknowledge some similarities in witch trials between the two regions such as the fact that an overwhelming majority of witches were women the histories of these cases primarily focus on local contexts and specifics In so doing they overlook the ways in which manhood factored into possession and witchcraft cases Vexed with Devils is a cultural history of witchcraft possession phenomena that centers on the role of men and patriarchal power Erika Gasser reveals that witchcraft trials had as much to do with who had power in the community to impose judgement or to subvert order as they did with religious belief She argues that the gendered dynamics of possession and witchcraft demonstrated that contested meanings of manhood played a critical role in the struggle to maintain authority While all men were not capable of accessing power in the same ways many of the people involved those who acted as if they were possessed men accused of being witches and men who wrote possession propaganda invoked manhood as they struggled to advocate for themselves during these perilous times Gasser ultimately concludes that the decline of possession and witchcraft cases was not merely a product of change over time but rather an indication of the ways in which patriarchal power endured throughout and beyond the colonial period Vexed with Devils reexamines an unnerving time and offers a surprising new perspective on our own using stories and voices which emerge from the records in ways that continue to fascinate and unsettle us

The Violence of Hate Jack Levin, Jim Nolan, 2016-07-08 The Violence of Hate Fourth Edition presents a systematic introduction to issues related to the sociology and social psychology of hate and violence as they target people who are different in socially significant ways It offers an integrated perspective on the causes and consequences of hate motivated violence and the reasons we have not always been effective in stopping it Not only do the authors address the experiences of racial ethnic and religious groups under attack but also those who are victimized because of their sexual orientation gender gender identity age or disability status In addition they include a chapter dedicated solely to the exploration of hate crimes an evolving legal concept and public policy domain as well as a chapter in which they suggest approaches that may be effectively applied collectively to the reduction of hate violence As in earlier versions of The Violence of Hate Levin and Nolan take the position that support for hate motivated violence originates not in the ranting and raving of a few bigoted extremists at the margins of society but in the tacit approval of ordinary even decent people who are located squarely in the mainstream Updates to the Fourth Edition Chapter 1 New discussions of structural and cultural factors illustrated by the racial conflicts in Ferguson Missouri New York City and Baltimore New presentation of the recent ADL survey indicating degree of bigotry in more than 100 countries New discussion of how threatening situations inspire increases in hate violence against a range of vulnerable groups Chapter 2 New chapter on hate violence around the world involving the experiences of Roma in Europe sexual orientation and gender identity violence and anti Semitic and anti Islamic violence in European countries Includes discussions of violent responses to anti Mohammed cartoons in Europe and North

America sectarian violence in Northern Ireland and the Middle East and police versus the black community in the United States Chapter 3 Updated discussion of issues related to reporting hate incidents and collecting hate crime data Expanded presentation of hate crime laws at the federal and state levels New discussions of the problems associated with policing hate and the role of social media in spreading hate Chapter 4 New section on mass murder in the name of hate including the Sikh Temple massacre outside of Milwaukee the Charleston Black Church massacre Baumhammer s killing spree targeting immigrants Jews and non whites in the Pittsburgh area Taylor s killing spree targeting whites and black church burnings in the 1990s and 2015 New discussion of thrill hate crimes against the homeless people with disabilities and gays Features Uses a single conceptual framework to explore racism in American society and the historical occurrence of anti-Semitism with special emphasis on Nazi Germany The experiences of other groups such as Armenians massacred in 1915 and gay students victimized by violence are also examined to provide a broad comparative perspective Shows the economic and psychological benefits of hate making it an expected even rational behavior Examines the evolution of hate crime legislation in the United States and the impact of this legislation on the institutions of law and criminal justice Shows how prejudice and hate can be addressed locally but have an impact globally The final chapter argues that respect for differences requires rebellious and even deviant behavior
