Strike

Songs of the Depression Timothy P. Lynch, 2009-11-12 The Depression brought unprecedented changes for American workers and organized labor As the economy plummeted employers cut wages and laid off workers while simultaneously attempting to wrest more work from those who remained employed In mills mines and factories workers organized and resisted striking for higher wages improved working conditions and the right to bargain collectively As workers walked the picket line or sat down on the shop floor they could be heard singing This book examines the songs they sang at three different strikes the Gastonia North Carolina textile mill strike 1929 Harlan County Kentucky coal mining strike 1931 32 and Flint Michigan automobile sit down strike 1936 37 Whether in the Carolina Piedmont the Kentucky hills or the streets of Michigan the workers songs were decidedly class conscious All show the workers understanding of the necessity of solidarity and collective action In Flint the strikers sang The trouble in our homestead Was brought about this way When a dashing corporation Had the audacity to say You must all renounce your union And forswear your liberties And we ll offer you a chance To live and die in slavery As a shared experience the singing of songs not only sent the message of collective action but also provided the very means by which the message was communicated and promoted Singing was a communal experience whether on picket lines at union rallies or on shop floors By providing the psychological space for striking workers to speak their minds singing nurtured a sense of community and class consciousness When strikers retold the events of their strike as they did in songs they spread and preserved their common history and further strengthened the bonds among themselves In the strike songs the roles of gender were pronounced and vivid Wives and mothers sang out of their concerns for home family and children Men sang in the name of worker loyalty and brotherhood championing male solidarity and camaraderie Informed by the new social history this critical examination of strike songs from three different industries in three different regions gives voice to a group too often deemed as inarticulate This study the only book length examination of this subject tells history from the bottom up and furthers an understanding of worker culture during the tumultuous
