Southeast Asian Ceramics John N. Miksic, 2009 Southeast Asia is known to many as a region teeming with tourist destinations economic opportunities and ex colonies but a lesser known facet is its colourful and myriad cultures in which ceramics form an integral part of the social fabric Focusing primarily on the Classical Period 800 1500 CE this book views ancient Southeast Asian culture through the lens of ceramic production and trade influenced but not completely overshadowed by its powerful neighbour China In this landmark publication noted archaeologist and scholar John N Miksic constructs a vivid picture of the development of Southeast Asia s unique ceramics Along with three contributing authors Pamela M Watkins Dawn F Rooney and Michael Flecker he summarizes the fruits of their research over the last forty years beginning in Singapore with the founding of the Southeast Asian Ceramic Society in 1969 The result is a comprehensive and insightful overview of the technology aesthetics and organization both economic and political of seemingly diverse territories in pre colonial Southeast Asia It is essential reading for all those with an interest in the economic history of the region and also for anyone who seeks a better understanding of the brilliant but too often underestimated material culture of Southeast Asia

[The Circulation of Elite Longquan Celadon Ceramics from China to Japan](#) Meili Yang, 2018-07-31 Chinese Longquan celadon a type of green glazed ceramic is one of the most famous branded and trade products particularly during the 13th and 14th centuries Its archaeological and historical materials possess multiple attributes with plentiful cultural information The objective of the present book is to vivify these materials and provide readers and researchers a broader perspective and additional methodologies to review and gain a new

and more profound understanding of Longquan celadon The first part of this book focuses on elite Longquan celadon in China's Southern Song SS 1127-1278 and Yuan 1271-1368 periods and sets out to answer unresolved questions How did Longquan potters elevate their products artistic quality from regional and popular acclaim to elite art and create their products brand and successful marketing What was the ceramics technological particularity that brought about its achievement as the commercial version of SS Guan Imperial ware Why did its style change and why did the production center shift after the end of the Southern Song period In addressing these issues the author explores the contemporary social atmosphere and local ecological environment The second part focuses on elite Longquan celadon products as imports in medieval Japan Beginning with the late Kamakura period 1192-1333 via the Muromachi shogunate 1392-1573 to the Edo 1603-1868 periods an extensive time span elite Longquan celadon ware circulated widely within elite class communities and Zen temples These products played a crucial role in shaping medieval Japanese culture bringing to the fore issues such as the Japanese manner of adopting Chinese Song and Yuan culture and more generally cross cultural transmission from China to Japan

Song Dynasty Ceramics Rose Kerr, 2004-09-14 Song Dynasty Ceramics highlights over 118 objects from the V&A's collection to discuss China's great age of ceramic production 960-1279 Ceramics from this era have always been prized by both Asian and Western collectors for their purity of form and glaze and their inventiveness of decoration This survey is illustrated with many of the very finest examples of Song ware in the Western world Jacket The History of Chinese Ceramics Lili Fang, 2023-05-23 Adopting the perspective of anthropology of art and combining it with global academic insights this book helps the readers to recognize that history is in great measure the record of human activity which spreads from the local to the regional from the regional to the global and from the global to the universal Readers will learn that China was not only the first country to create porcelain but also the first to export it to the world both the products and its techniques Therefore the history of Chinese ceramics reflects the history of Chinese foreign trade on the one hand and depicts the expansion of Chinese ceramic techniques and cultures on the other In addition to ceramics types molds decoration and techniques the book analyzes the spiritual impacts and aesthetic conceptions embodied in the utensils of daily use by the Chinese literati Therefore it reaches the conclusion that ideological systems and not technological systems are what bring about social revolutions In addition the book is richly illustrated with pictures of earthenware and finely glazed pieces from later periods

[The Porcelain Thief](#) Huan Hsu, 2015-03-24

A journalist travels throughout mainland China and Taiwan in search of his family's hidden treasure and comes to understand his ancestry as he never has before. In 1938, when the Japanese arrived in Huan Hsu's great-great-grandfather Liu's Yangtze River hometown of Xingang, Liu was forced to bury his valuables, including a vast collection of prized antique porcelain. He undertakes a decades-long trek that would splinter the family over thousands of miles. Many years and upheavals later, Hsu, raised in Salt Lake City and armed only with curiosity, moves to China to work in his uncle's semiconductor chip business. Once there, a conversation with his grandmother, his last living link to dynastic China, ignites a desire to learn more about not only his lost ancestral heirlooms but also porcelain itself. Mastering the language enough to venture into the countryside, Hsu sets out to separate the layers of fact and fiction that have obscured both China and his heritage and finally complete his family's long march back home. Melding memoir, travelogue, and social and political history, *The Porcelain Thief* offers an intimate and unforgettable way to understand the complicated events that have defined China over the past two hundred years and provides a revealing, lively perspective on contemporary Chinese society from the point of view of a Chinese American coming to terms with his hyphenated identity.
