Southern Rights Political Prisoners And The Myth Of Confederate Constitutionalism

WJ Hussar

Southern Rights Political Prisoners And The Myth Of Confederate Constitutionalism:

Southern Rights Mark E. Neely, 1999 During the civil war that followed not a day would pass when Confederate military prisons did not contain political prisoners BOOK JACKET *A Legal History of the Civil War and Reconstruction* Laura F. Edwards, 2015-01-26 This book provides a succinct and accessible account of the critical role of legal and constitutional issues of the American Civil War *The Complete American Constitutionalism* Mark A. Graber, Howard Gillman, 2015 Presentation de l'auteur The Complete American Constitutionalism is designed to be the comprehensive treatment and source for debates on the American constitutional experience It provides the analysis resources and materials both domestic and foreign readers must understand with regards to the practice of constitutionalism in the United States This first part to Volume Five of the series covers The Constitution of the Confederate States The authors offer a comprehensive analysis of the constitution of the Confederate States during the American Civil War Confederate constitutionalism presents the paradox of a society constitutionally committed to human and white supremacy whose constitutional materials rarely dwell on human bondage and racism The foundational texts of Confederate constitutionalism maintain that racial slavery was at the core of secession and southern nationality This volume provides the various speeches ordinances and declarations cases and a host of other sources accompanied by detailed historical commentary *The Power of Habeas Corpus in America* Anthony Gregory, 2013-04-15 Despite its mystique as the greatest Anglo American legal protection habeas corpus history features power plays political hypocrisy ad hoc jurisprudence and failures in securing individual liberty This book tells the story of the writ from medieval England to modern America crediting the rocky history to the writ's very nature as a government power The book weighs in on habeas historical controversies addressing its origins the relationship between king and parliament the US Constitution's Suspension Clause the writ's role in the power struggle between the federal government and the states and the proper scope of federal habeas for state prisoners and wartime detainees from the Civil War and World War II to the War on Terror It stresses the importance of liberty and detention policy in making the writ more than a tool of power The book presents a more nuanced and critical view of the writ's history showing the dark side of this most revered judicial power Lincoln and the Triumph of the Nation Mark E. Neely, 2011 The Civil War placed the U S Constitution under unprecedented and to this day still unmatched strain Neely examines for the first time in one book the U S Constitution and its often overlooked cousin the Confederate Constitution and the ways the documents shaped the struggle for national survival **America's Unending Civil War** William Nester, 2024-03-31 Explores the Civil War's related and enduring conflicts of ideas and principles through four centuries of a nation's history The Civil War fascinates Americans like no other war in their history Many Americans are still fighting some of the war's issues in an Odyssey that stretches back to the first settlement and will persist until the end of time The war itself was an Iliad of brilliant generals like Grant Sherman and Sheridan for the Union or Lee Jackson and Forrest for the Confederacy epic battles like Gettysburg and Chickamauga epic

sieges like Vicksburg and Petersburg and epic naval combats such as Monitor versus Merrimack or Kearsarge versus Alabama It was America's most horrific war with more dead than all others combined Around 625 000 soldiers and 125 000 civilians died from various causes bringing the total to 750 000 people Of 31 million Americans 2.1 million northerners and 880 000 southerners donned uniforms Why did eleven states eventually ban together to rebel against the United States President Jefferson Davis began an answer when he said If the Confederacy falls there should be written on its tombstone Died of a Theory That theory justified the enslavement of blacks by whites as a natural right and duty of a superior race over an inferior race a theory it was believed that morally and economically elevated both races Although slavery was the Civil War's core cause there were related chronic conflicts over the nature of government citizenship liberty property equality wealth race identity justice crime voting power and history some of which issues have never entirely gone away America's Unending Civil War is unique among thousands of books on the subject None before has explored the Civil War's related and enduring conflicts of ideas and principles through four centuries of a nation's history Weirding the War Stephen William Berry, 2011 It is well that war is so terrible Robert E Lee reportedly said or we would grow too fond of it The essays collected here make the case that we have grown too fond of it and therefore we must make the war terrible again Taking a freakonomics approach to Civil War studies each contributor uses a seemingly unusual story incident or phenomenon to cast new light on the nature of the war itself Collectively the essays remind us that war is always about damage even at its most heroic and even when certain people and things deserve to be damaged Here then is not only the grandness of the Civil War but its more than occasional littleness Here are those who profited by the war and those who lost by it and not just those who lost all save their honor but those who lost their honor too Here are the cowards the coxcombs the belles the deserters and the scavengers who hung back and so survived even thrived Here are dark topics like torture hunger and amputation Here in short is war The American Civil War Ethan S. Rafuse, 2017-11-28 The largest and most destructive military conflict between the Napoleonic Wars and the First World War the American Civil War has inspired some of the best and most intriguing scholarship in the field of United States history This volume offers some of the most important work on the war to appear in the past few decades and offers compelling information and insights into subjects ranging from the organization of armies historiography the use of intelligence and the challenges faced by civil and military leaders in the course of America's bloodiest war **A Sphinx on the American Land** Peter Kolchin, 2003-04-01 One reason that the South attracts so much interest is that its history inevitably involves big questions continuity versus change slavery and freedom the meaning of race the formation of national identity the struggle between local and centralized authority Because these issues are central to human experience southern history properly conceived is of more than regional interest In *A Sphinx on the American Land* Peter Kolchin explores three comparative frameworks for the study of the nineteenth century South in an effort to nudge the subject away from provincialism and toward the kind of global concerns that are already transforming it into one of the most

innovative fields of historical research The volume opens with a comparison between the South and the North or what Kolchin terms the un South This basic context he explains provides an essential backdrop for understanding the South how one conceptualizes southernness has meaning only in terms of what it is not Turning to the cohesion and variations among what he calls the many Souths Kolchin reminds us that there has never been one South or archetypal southerner Internal distinctions whether geographic class religious or racial ultimately raise the question of whether one can properly speak of the South at all Finally Kolchin explores parallels between the South and regions outside the United States or other Souths He considers a number of ways in which the South can be studied in a broad international setting paying particular attention to the similarities and differences between the emancipation of southern slaves and Russian serfs In an eloquent afterword he ponders the nature and importance of comparative history Kolchin examines how scholars have approached each of his comparative frameworks and how they might do so in the future making *A Sphinx on the American Land* at once a work of history and of historiography Illustrating the ways in which southern history is also American history and world history this elegant profound volume proves Kolchin to be one of the stellar southern historians of his generation

When Democracy Breaks Archon Fung, David Moss, Odd Arne Westad, 2024 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read on the Oxford Academic platform and offered as a free PDF download from OUP and selected open access locations Democracy is often described in two opposite ways as either wonderfully resilient or dangerously fragile Both characterizations can be correct depending on the context *When Democracy Breaks* aims to deepen our understanding of what separates democratic resilience from democratic fragility by focusing on the latter The volume's collaborators experts in the history and politics of the societies covered in their chapters explore eleven episodes of democratic breakdown from ancient Athens to Weimar Germany to present day Russia Turkey and Venezuela Strikingly in every case various forms of democratic erosion long preceded the final democratic breakdown Although no single causal factor emerges as decisive linking together all of the episodes some important commonalities including extreme political polarization explicitly anti democratic political actors and significant political violence stand out across the cases Moreover the notion of democratic culture while admittedly difficult to define and even more difficult to measure may play a role in all of them Throughout the volume the contributors show again and again that the written rules of democracy are insufficient to protect against tyranny While each case of democratic decay is unique the patterns that emerge shed much light on the continuing struggle to sustain modern democracies and to assess and respond to the threats they face

Adopting the Track of Phrase: An Psychological Symphony within **Southern Rights Political Prisoners And The Myth Of Confederate Constitutionalism**

In a global taken by monitors and the ceaseless chatter of instantaneous connection, the melodic splendor and psychological symphony produced by the published word usually fade into the background, eclipsed by the constant noise and disturbances that permeate our lives. But, set within the pages of **Southern Rights Political Prisoners And The Myth Of Confederate Constitutionalism** a wonderful fictional value filled with raw feelings, lies an immersive symphony waiting to be embraced. Constructed by a wonderful musician of language, this fascinating masterpiece conducts visitors on a psychological journey, well unraveling the hidden tunes and profound influence resonating within each carefully constructed phrase. Within the depths with this moving examination, we shall explore the book is central harmonies, analyze its enthralling writing fashion, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
