The Last Mission Jim Smith, Malcolm McConnell, 2007-12-18 A gripping account of the final American bombing mission of World War II and how it prevented a military coup that would have kept Japan in the war How close did the Japanese come to not surrendering to Allied forces on August 15 1945 The Last Mission explores this question through two previously neglected strands of late World War II history whose very interconnections could have caused a harrowing shift in the course of the postwar world On the final night of the war as Emperor Hirohito recorded a message of surrender for the Japanese people a band of Japanese rebels commanded by War Minister Anami's elite staff burst into the palace They had plotted a massive coup that aimed to destroy the recordings of the Imperial Rescript of surrender and issue false orders forged with the Emperor's seal commanding the widely dispersed Japanese military to continue the war If this rebellion had succeeded the military would have proceeded with large scale kamikaze attacks on Allied forces costing huge casualties and just possibly provoking the Americans to drop a third atomic bomb on Japan over Tokyo and continue to drop more bombs as Japanese resistance stiffened Meanwhile in the midst of an end of war celebration on Guam Air Force radio operator Jim Smith and his fellow crewmen received urgent orders for a bombing mission over Japan's sole remaining oil refinery north of Tokyo As a stream of American B 29B bombers approached Tokyo Japanese air defenses fearing the approaching planes signaled the threat of a third atomic bomb ordered a total blackout in Tokyo and the Imperial Palace completely disrupting the rebels plans Smith and his fellow crewmembers completed the mission and a few hours later the Emperor announced the surrender over Japan's airwaves dictating the end of the war The Last Mission is an insightful piece of speculative investigation that combines narrative storytelling with historical contingency and explores how two seemingly unrelated events could have profoundly changed the course of modern history

Dorr,2012-09-15 From Hell Hawks author Bob Dorr Mission to Tokyo takes the reader on a World War II strategic bombing mission from an airfield on the western Pacific island of Tinian to Tokyo and back Told in the veterans words Mission to Tokyo is a narrative of every aspect of long range bombing including pilots and other aircrew groundcrew and escort fighters that accompanied the heavy bombers on their perilous mission Several thousand men on the small Mariana Islands of Guam Saipan and Tinian were trying to take the war to the Empire Imperial Japan in B 29 Superfortresses flying at 28 000 feet but the high altitude bombing wasn't very accurate The decision was made to take the planes down to around 8 000 feet even as low as 5 000 feet Eliminating the long climb up would save fuel and allow the aircraft to take heavier bomb loads The lower altitude would also increase accuracy substantially The trade off was the increased danger of anti aircraft fire This was deemed worth the risk and the devastation brought to the industry and population of the capital city was catastrophic Unfortunately for all involved the bombing did not bring on the quick surrender some had hoped for That would take six more months of bombing culminating in the atomic bombs dropped on Hiroshima and Nagasaki As with Mission to Berlin Spring 2011 Mission to Tokyo focuses on a specific mission from spring 1945 and provides a history of the strategic air war against Japan in alternating chapters **Mission to Mightadore** Stephen Hunt,2015-06-16 Seline Templar hasn't experienced an easy life First her father died for reasons that have been shockingly concealed from her Then Seline's mother Molly went missing in suspicious circumstances So she's been raised as a ward of King Steam in the Steamman Free State far away from the potential perils of her home in the Jackelian Kingdom Raised in relative solitude among the machine race until an old friend of the family the steamman scientist Coppertracks turns up in the capital with news of the most amazing discovery It will set

Female Terrorism and Militancy Cindy D. Ness,2007-12-11 This edited volume provides a window on the many forces that structure and shape why women and girls participate in terrorism and militancy as well as on how states have come to view treat and strategize against them Females who carry out terrorist acts have historically been seen as mounting a challenge to the social order by violating conventional notions of gender and power and their participation in such acts has tended to be viewed as being either as a passive victim or a feminist warrior This volume seeks to move beyond these portrayals to examine some of the structuring conditions that play a part in a girl or woman s decision to commit violence Amidst the contextual factors informing her involvement the volume seeks also to explore the political agency of the female terrorist or militant Several of the articles are based on research where authors had direct contact with female terrorists or militants who committed acts of political violence or with witnesses to such acts

Soldier K: Mission to Argentina David Monnery,2013-12-12 In May 1982 as the British Task Force prepared for the recapture of the Falkland Islands a lone Sea King helicopter made an apparently forced landing in the southernmost reaches of Chile Its crew barely credibly claimed to have been propelled off course by a combination of adverse weather conditions and engine trouble The reality never officially disclosed was rather different The only threat to the Task Force and the enemy s only hope of ultimate victory lay in Argentina s Super Extended aircraft and their sea skimming Exocet missiles Since radar could not be relied upon as an adequate means of detection the British opted for a less conventional warning system Before landing in Chile the stray Sea King dropped a team of men into Argentina where they were tasked with remaining hidden within sight of the airfields and within easy reach of the enemy s security patrols The

Firestorm Stephen Prince, 2009-08-07 It was believed that September 11th would make certain kinds of films obsolete such as action thrillers crackling with explosions or high casualty blockbusters where the hero escapes unscathed While the production of these films did ebb the full impact of the attacks on Hollywood's creative output is still taking shape Did 9/11 force filmmakers and screenwriters to find new methods of storytelling What kinds of movies have been made in response to 9/11 and are they factual Is it even possible to practice poetic license with such a devastating broadly felt tragedy Stephen Prince is the first scholar to trace the effect of 9/11 on the making of American film From documentaries like *Fahrenheit 9/11* 2004 to zombie flicks and from fictional narratives such as *The Kingdom* 2007 to Mike Nichols's *Charlie Wilson's War* 2007 Prince evaluates the extent to which filmmakers have exploited explained understood or interpreted the attacks and the Iraq War that followed including incidents at Abu Ghraib He begins with pre 9/11 depictions of terrorism such as Alfred Hitchcock's *Sabotage* 1936 and follows with studio and independent films that directly respond to 9/11 He considers documentary portraits and conspiracy films as well as serial television shows most notably Fox's *24* and made for TV movies that represent the attacks in a broader more intimate way Ultimately Prince finds that in these triumphs and failures an exciting new era of American filmmaking has taken shape
