*Fear Itself* Christopher D.

Bader, Joseph O. Baker, L. Edward Day, Ann Gordon, 2020-03-03 An antidote to the culture of fear that dominates modern life From moral panics about immigration and gun control to anxiety about terrorism and natural disasters Americans live in a culture of fear While fear is typically discussed in emotional or poetic terms as the opposite of courage or as an obstacle to be overcome it nevertheless has very real consequences in everyday life Persistent fear negatively affects individuals decision making abilities and causes anxiety depression and poor physical health Further fear harms communities and society by corroding social trust and civic engagement Yet politicians often effectively leverage fears to garner votes and companies

routinely market unnecessary products that promise protection from imagined or exaggerated harms Drawing on five years of data from the Chapman Survey of American Fears which canvasses a random national sample of adults about a broad range of fears Fear Itself offers new insights into what people are afraid of and how fear affects their lives The authors also draw on participant observation with Doomsday preppers and conspiracy theorists to provide fascinating narratives about subcultures of fear Fear Itself is a novel wide ranging study of the social consequences of fear ultimately suggesting that there is good reason to be afraid of fear itself

**The CIA in Hollywood** Tricia Jenkins, 2016-03-08 Jenkins s book raises serious ethical and legal questions about the relationship between the CIA and Hollywood and the extent to which we consume propaganda from one through the other Should the CIA be authorized to target American public opinion If our artists don t confront the question more directly and soon the Agency will only continue to infiltrate our vulnerable film and television screens and our minds Tom Hayden Los Angeles Review of Books The book makes a strong case that the CIA should not be in Hollywood at all but that if it is it cannot pick and choose which movies it wishes to support Well written and researched this study examines a subject that has not received enough scholarly or critical attention Highly recommended Choice A fascinating highly readable and original new work Incorporating effective illustrative case studies The CIA in Hollywood is definitely recommended to students of film media relations the CIA and U S interagency relations H Net Reviews

Politics is no longer the art of the possible but of the fictive Its aim is not to change the world as it exists but to affect the way that it is perceived In Storytelling Christian Salmon looks at the twenty first century hijacking of creative imagination anatomizing the timeless human desire for narrative form and how this desire is abused by the marketing mechanisms that bolster politicians and their products luxury brands trade on embellished histories managers tell stories to motivate employees soldiers in Iraq train on Hollywood conceived computer games and spin doctors construct political lives as if they were a folk epic This storytelling machine is masterfully unveiled by Salmon and is shown to be more effective and insidious as a means of oppression than anything dreamed up by Orwell
