O. Tom and in the ostensibly uncorrupt United States to assessing the cost of happiness in Bhutan to deducing the dollar value we assign to human life His unique approach helps explain Why polygamous societies actually place a higher value on women than monogamous ones Why someone may find more value in a 14 million license plate than the standard issue 95 one Why some government agencies believe one year of life for a senior citizen is four times more valuable than that of a younger person Porter weaves together the constant and often unconscious cost and value assessments we all make every day While exploring the fascinating story behind the price of everything from marriage and death to mattresses and horsemeat Porter draws unexpected connections that bridge a wide range of disciplines and cultures The result is a cogent and insightful narrative about how the world really works Watch a Video **Cyber Physical System**
