## **Sun Circles And Human Hands:**

**Sun Circles and Human Hands** Emma Lila Fundaburk, Mary Douglass Fundaburk Foreman, 2001-02-22 From utilitarian arrowheads to beautiful stone effigy pipes to ornately carved shell disks the photographs and drawings in *Sun Circles and Human Hands* present the archaeological record of the art and native crafts of the prehistoric southeastern Indians painstakingly compiled in the 1950s by two sisters who traveled the eastern United States interviewing archaeologists and collectors and visiting the major repositories Although research over the last 50 years has disproven many of the early theories reported in the text which were not the editors theories but those of the archaeologists of the day the excellent illustrations of objects no longer available for examination have more than validated the lasting worth of this popular book

*Sun Circles and Human Hands* Emma Lila Fundaburk, 1965      **Sun Circles and Human Hands** Emma Lila Fundaburk, Mary Douglass Fundaburk Foreman, 1985      **Sun Circles and Human Hands** Mary Douglass Fundaburk Foreman, 1968      Spirits of the Air Shepard Krech, 2009 Before the massive environmental change wrought by the European colonization of the South hundreds of species of birds filled the region's flyways in immeasurable numbers Before disease war and displacement altered the South's earliest human landscape Native Americans hunted and ate birds and made tools and weapons from their beaks bones and talons More significant to Shepard Krech III Indians adorned themselves with feathers invoked avian powers in ceremonies and dances and incorporated bird imagery on pottery carvings and jewelry Krech a renowned authority on Native American interactions with nature reveals as never before the omnipresence of birds in Native American life From the time of the earliest known renderings of winged creatures in stone and earthworks through the nineteenth century when Native southerners took part in decimating bird species with highly valued fashionable plumage *Spirits of the Air* examines the complex and changeable influences of birds on the Native American worldview We learn of birds for which places and people were named birds common in iconography and oral traditions birds important in ritual and healing and birds feared for their links to witches and other malevolent forces Still other birds had no meaning for Native Americans Krech shows us these invisible animals too enriching our understanding of both the Indian bird dynamic and the incredible diversity of winged life once found in the South A crowning work drawing on Krech's distinguished career in anthropology and natural history *Spirits of the Air* recovers vanished worlds and shows us our own anew      **Early Art of the Southeastern Indians** Susan C. Power, 2004 *Early Art of the Southeastern Indians* is a visual journey through time highlighting some of the most skillfully created art in native North America The remarkable objects described and pictured here many in full color reveal the hands of master artists who developed lapidary and weaving traditions established centers for production of shell and copper objects and created the first ceramics in North America Presenting artifacts originating in the Archaic through the Mississippian periods from thousands of years ago through A D 1600 Susan C Power introduces us to an extraordinary assortment of ceremonial and functional objects including pipes vessels figurines and much more Drawn

from every corner of the Southeast from Louisiana to the Ohio River valley from Florida to Oklahoma the pieces chronicle the emergence of new media and the mastery of new techniques as they offer clues to their creators widening awareness of their physical and spiritual worlds The most complex works writes Power were linked to male and sometimes female leaders Wearing bold ensembles consisting of symbolic colors sacred media and richly complex designs the leaders controlled large ceremonial centers that were noteworthy in regional art history such as Etowah Georgia Spiro Oklahoma Cahokia Illinois and Moundville Alabama Many objects were used locally others circulated to distant locales Power comments on the widening of artists subjects starting with animals and insects moving to humans then culminating in supernatural combinations of both and she discusses how a piece s artistic language could function as a visual shorthand in local style and expression yet embody an iconography of regional proportions The remarkable achievements of these southeastern artists delight the senses and engage the mind while giving a brief glimpse into the rich symbolic world of feathered serpents and winged beings

*Sacred Darkness* Holley Moyes, 2012-04-15 Caves have been used in various ways across human society but despite the persistence within popular culture of the iconic caveman deep caves were never used primarily as habitation sites for early humans Rather in both ancient and contemporary contexts caves have served primarily as ritual spaces In *Sacred Darkness* contributors use archaeological evidence as well as ethnographic studies of modern ritual practices to envision the cave as place of spiritual and ideological power that emerges as a potent venue for ritual practice Covering the ritual use of caves in Europe Asia Australia Africa Mesoamerica and the US Southwest and Eastern woodlands this book brings together case studies by prominent scholars whose research spans from the Paleolithic period to the present day These contributions demonstrate that cave sites are as fruitful as surface contexts in promoting the understanding of both ancient and modern religious beliefs and practices This state of the art survey of ritual cave use will be one of the most valuable resources for understanding the role of caves in studies of religion sacred landscape or cosmology and a must read for any archaeologist interested in caves

**Deerskins and Duffels** Kathryn E. Braund, 1996-03-28 *Deerskins and Duffels* documents the trading relationship between the Creek Indians in what is now the southeastern United States and the Anglo

American peoples who settled there The Creeks were the largest native group in the Southeast and through their trade alliance with the British colonies they became the dominant native power in the area The deerskin trade became the economic lifeblood of the Creeks after European contact This book is the first to examine extensively the Creek side of the trade especially the impact of commercial hunting on all aspects of Indian society British trade is detailed here as well the major traders and trading companies how goods were taken to the Indians how the traders lived and how trade was used as a diplomatic tool The author also discusses trade in Indian slaves a Creek Anglo cooperation that resulted in the virtual destruction of the native peoples of Florida Wm Jack Hranicky, 2010-06

Apalachicola Valley Archaeology, Volume 2 Nancy Marie White, 2024-05

**The Eastern Archaic, Historicized** Kenneth E. Sassaman, 2010-08-16 The Eastern Archaic Historicized offers an alternative perspective on the genesis and transformation of cultural diversity over eight millennia of hunter gatherer dwelling in eastern North America For many decades archaeological understanding of Archaic diversity has been dominated by perspectives that emphasize localized relationships between humans and environment The evidence shows however that Archaic people routinely associated with other groups throughout eastern North America and expressed themselves materially in ways that reveal historical links to other places and times Starting with the colonization of eastern North America by two distinct ancestral

lines the Eastern Archaic was an era of migrations ethnogenesis and coalescence an 8 200 year era of making histories through interactions and expressing them culturally in ritual and performance
