Goodman,2016-04-01 Analyses the foundation of the San kuo Wei Dynasty by Ts ao P I in 220 CE using the main historical accounts a wide range of religious and philosophical writings epigraphical records and above all the records contained in the commentaries to Ch en Shou s San kuo chih by the fifth century writer P ei Sung chih Engendering China Christina K. Gilmartin,1994-04-08 This first significant collection of essays on women in China in more than two decades captures a pivotal moment in a cross cultural and interdisciplinary dialogue For the first time the voices of China based scholars are heard alongside scholars positioned in the United States The distinguished contributors to this volume are of different generations hold citizenship in different countries and were trained in different disciplines but all embrace the shared project of mapping gender in China and making power laden relationships visible The essays take up gender issues from a variety of disciplinary perspectives Chapters focus on learned women in the eighteenth century the changing status of contemporary village women sexuality and reproduction prostitution women s consciousness women s writing the gendering of work and images of women in contemporary Chinese fiction Some of the liveliest disagreements over the usefulness of western feminist theory and scholarship on China take place between Chinese working in China and Chinese in temporary or longtime diaspora Engendering China will appeal to a broad academic spectrum including scholars of Asian studies critical theory feminist studies cultural studies and policy studies **A History of Western Appreciation of English-translated Tang Poetry** Lan Jiang,2018-03-08 This book examines the development of English translated Tang poetry and its propagation to the Western world It consists of two parts the first of which addresses the initial stage of English translated Tang poetry s propagation and the second exploring its further development By analyzing the historical background and characteristics of these two stages the book traces the trend back to its roots discusses some well known early sinologists and their contributions and familiarizes readers with the general course of Tang poetry s development In addition it presents the translated versions of many Tang poems The dissemination of Tang poetry to the Western world is a significant event in the history of cross cultural communication From the simple imitation of poetic techniques to the acceptance and identification of key poetic concepts the Tang poetry translators gradually constructed a classic Chinese style in modern American poetry Hence the traditional Chinese culture represented by Tang poetry spread more widely in the English speaking world producing a more lasting impact on societies and cultures outside China and demonstrating the poetry s ability to transcend the boundaries of time region nationality and culture Due to different cultural backgrounds the Tang poets or poems admired most by Western readers may not necessarily receive high acclaim in China Sometimes language barriers and cultural differences make it impossible to represent certain allusions or cultural and ethnic concepts correctly during the translation process However in recent decades the translation of Tang poetry has evolved considerably in both quantity and quality As culture is manifested in language and language is part of culture the translation of Tang poetry has allowed Western scholars to gain an unprecedented understanding of China and Chinese culture Heritage of China

**The City of Ye in the Chinese Literary Landscape** Joanne Tsao,2020-01-20 In *The City of Ye in the Chinese Literary Landscape* Joanne Tsao demonstrates how the city of Ye changed from an iconic space that represented Cao Cao's heroic enterprise to a symbol of the fruitlessness of human endeavour and then finally to a literary landmark a synecdoche for the vicissitudes of human life caught in the predictable cycles of dynastic rise and decline Through a close reading of literary works on Ye she illustrates how the city transformed from a lived to imaginative space to become a symbol in the poetic lexicon Making use of literary and historical texts on Ye and its material remains through the Song and beyond she shows the potency of place as a generative force in literary production and in historical discourse
